GRAIN AND PRODUCE MARKET

Week Opens Without Special Feature in Local Wheat Pit.

PRICES STEADY EARLY, BUT WEAK LATER

Firm Cables and Small Receipts in Northwest Lend Bulls Hope—Corn Lower, Official Figures Being Contrued Bearish.

OMAHA, Nov. 12, 1906.

Another day has passed without special feature to the wheat market. There was a little firmer feeling at the start, but in the absence of support prices dropped off to ½c below Saturday. Firmer Liverpool cables and small receipts in the northwest lent courage to the bulls. A fair increase was shown in the visible supply, though the figures were only about half as much as last year. Cash demand was fair.

The trade construed Saturday's government figures on corn as bearish and commission houses offered corn for sale. The market ruled weak and closed ½c lower.

Receipts were moderate and the weather generally was favorable. The cash demand was slow and prices were off in the sample market.

Primary wheat receipts, 1,187,000 bu. and shipments 621,000 bu., against receipts last year of 1,548,000 bu. and shipments of 496,000 bu. Corn receipts were 720,000 bu. and shipments 469,000 bu., against receipts last year of 878,000 bu. and shipments of 416,000 bu. Clearances were 253,000 bu. of wheat, 126,000 bu. of corn, 6,000 bu. of oats and flour and wheat equal to 296,000 bu.

Liverpool closed unchanged to ½d higher on wheat and ¼@½d lower on corn.

World's wheat shipments were 11,008,000 bushels, against 11,604,000 bushels. Last week and 12,552,000 bushels last year. Corn shipments were 4,304,000 bushels, against 3,537,000 bushels last week. The visible supply of wheat increased 775,000 bushels; corn decreased, 56,000 bushels; oats increased, 739,000 bushels.

The Market Record today says: "Minneapolis has received 3,000,000 bushels less from 1906 crop than from the 1905 crop for the same period. Duluth received about 5,000,000 more of the last crop than of the previous crop. Total movement of each crop to this time is about the same. As to whether there is more or less yet to come than came after this date last year is still to be determined. The chief difference in the situation this year is in the greater proportion of durum going to Duluth. Reports indicate that durum is hurried forward to export before close of navigation."

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, Nov. 12.—Advices claiming a liberal yield of spring wheat in the northwest depressed the local wheat market today. At the close wheat for December delivery was off 2¼@2¾c, corn was down ¼c, oats were ⅛c lower and provisions were 60@75c to 10c lower.

During the early trading in the wheat pit the tone was moderately firm, because of a fair demand by commission houses. This buying was largely the result of firm cables and continued small receipts in the northwest. Later, however, the market gradually eased off. Free sellers were free sellers of the December delivery and commission houses sold the May option. Much of this selling was based upon reports of the northwest declaring that this year's crop of spring wheat will prove very large. Selling by commission houses that have northwestern connections this season gave this impression. An increase of 775,000 bu in the visible supply had some bearish influence, although the increase for the corresponding time last year amounted to 1,926,000 bu. The market closed easy. December opened ⅛c higher at 73c, sold off to 72⅝c and closed at 72¾@72⅞c. Clearances of wheat and flour were equal to 399,000 bu. The amount of breadstuffs on ocean passage decreased 376,000 bu. Primary receipts were 1,187,000 bu., compared with 1,548,000 for the corresponding time one year ago. Minneapolis, Duluth and Chicago reported receipts of 833 cars, as against 965 last week and 1,386 a year ago.

The government crop report, which showed a farm reserve on November 1 of 119,000,000 bu. of corn, was chiefly responsible for the moderate weakness that prevailed all day in the corn pit. The increase in local receipts also inspired selling. Leading commission houses were principal sellers and there was some liquidation of December holdings. Offerings were taken by shorts and commission houses. The market closed easy. December opened unchanged to ¼c lower at 42¾c, sold off to 41¾@41¾c and closed at 42c. Local receipts were 253 cars, with 102 of contract grade.

The oats market was weak for the greater part of the day. The market was affected by the weakness of wheat and corn and also by an increase of 735,000 bu. in the visible supply, as against a decrease of 42,000 bu. for the corresponding time last year. Pit traders and commission houses sold, while shorts and cash interests took the offerings. December opened unchanged to a shade higher at 34⅜c to 34⅝@34¾c, sold between 34¼c and 34⅜c and closed at 34¼c. Local receipts were 321 cars.

Trading in provisions was active and the tone of the market was weak. The receipts of live hogs today were 5,000 more than had been expected and this led to considerable selling by local longs, who bought Saturday on the expectation of light receipts. There was also considerable selling of January lard by a local packer. The demand came chiefly from shorts. At the close January pork was off 7½@10c at $14.05, lard was down 7½@10c at $8.27½ and ribs were 5c lower at $7.85.

Estimated receipts for tomorrow: Wheat, 58 cars; corn, 387 cars; oats, 359 cars; hogs, 35,000 head.
