WHEAT ADVANCE ONE AND A HALF CENTS

Advent of Unfavorable Weather Causes Disaster Among Bears-Corn Firm, but Pails to Re-

Sained 138 c. Provisions were 1346. Oats to fice higher.

Opening with a firm undertone, the wheat market steadily gained in strength throughout the day and closed very strong, with prices at the highest point of the day. Shorts and commission houses were active bidders for wheat, but there was no particular seiling pressure, the bulk of offerings coming from local longs. The main source of strength was an advance of 135c in the price of wheat at Minneapolis, which it was claimed was due to the continued small receipts of spring wheat at Minneapolis and Duluth. Firm cables and a report of frost in Argentina were minor in fluences that strengthened the local market. An increase of 4,690,000 bu, in the world's visible supply compared with an increase of only 1,00000 bu, for the corresponding time last year had apparently no offect on prices. December opened unchanged to a shade higher at 1256728c to 1235, 000 bu, against 1,480,000 bu, for the corresponding day last year. cars.

Provisions were somewhat easier at the opening because of a sc decline in the price of live hogs, but later the market railled Provisions were somewhat easier at the opening because of a Sc decline in the price of live hogs, but later the market railled and closed firm.

The advance was caused by buying of all products by shorts and local packers. The strength of wheat was a bullish factor. At the close January pork was up loc at 14.00 to 100 to 1

Corresponding day last year. Minneapolls.
Duluth and Chicago reported receipts of \$22 cars against a holiday last week and 1.537 cars a year ago.

The corn market exhibited some weak ness early in the day because of selling by a leading cash house but railled later in sympathy with wheat and closed at the highest point of the day. Trading was quiet in the first hair of the session, but became more active following the sharp upturn in wheat. Shorts and commission houses were the principal buyers. December opened unchanged to be lower at 41%c. Local receipts were 362 cars with 36 cars of contract grade.

Oats were in fairly active demand by commission houses and local bulls and the market ruled firm all day. Weather in the northwest was unfavorable for the crop movement and receipts in that section continued small. December opened unchanged at 15%c, advanced to 344,524%c and closed at the top price. Local receipts were 156 cars.

Provisions were somewhat easier at the Oats, United States and Canada States 30,000 bu.

Good cows and helfers were steady, in fact the general cow trade was ateady at the decline noted restorday. In some cases possibly the medium kinds of cows sold lower, but the change was not of any great importance. Among the offerings today were a few very good Wyoming cows which sold up to \$4.25.

Good feeders continue free sellers every day and prices are fully steady with last week's best time. The common and thin cattle are hard to move every day, but still receivers manage to get rid of them in one way or another. way or another.

Duliness was a leading characteristic of the feeder trade today. There was never-theless considerable inquiry for desirable feeders, which sold about steady with yesreeders, which sold about steady with yesterday. The common and inferior grades were slow and weak, especially thin and not overly good feeding ewes.

Goldfield

I have, in connection with practical miners, secured some most promising properties in the great Goldfield, Nevada, camp.

We need aid for quick development. We are confident of opening up good mines, as we are surrounded by the shipping mines. Write for particulars.
