

FARMERS JOIN FEDERATION

American Society of Equity Affiliates with Organized Laborers.

APPEAL FROM UNIONS IN PORTO RICO

Organization is Asked to Urge Upon Congress the Granting of Home Rule to People of Island.

MINNEAPOLIS, Nov. 14.—A warm welcome to the representatives of the newly formed farmers' union, known as the American Society of Equity, an invitation from San Juan, Porto Rico, to meet there next year, a resolution by the Porto Rico delegate, Santiago Iglesias, calling for aid in securing more additional freedom for his country, and strong denunciation of all branches of the American judiciary constituted the most important events of today's session of the American Federation of Labor convention.

There were three representatives of the American Society of Equity present. W. West Tibbo, national secretary of the society, spoke, briefly outlining the policy of the farmers' union and expressing great hopes that it might become affiliated with the American Federation of Labor.

S. C. Crowley, state organizer of the American Society of Equity for Wisconsin, aroused great enthusiasm by his plea for the support of organized labor in the fight of the organized farmers against the "middle men," the commission men and the board of trade speculation.

"We may control the wheat market, as we are doing," said Mr. Crowley. "Today the mills of Minneapolis are on the point of shutting down because we are holding back our wheat. But the man between will do that for you. Just the same we'll do it our way. The only way in which the producer and consumer can get the justice they deserve is to do their own business. The commission man and the board of trade speculators are robbing both of us. President Gompers speaks cordially of the farmers' movement."

The delegates spent the afternoon in trial by sides to points of interest, although some of the delegates objected to talking on the street cars because they are operated by nonunion men.

Appeal from Porto Rico.

Calling on the American Federation of Labor for aid in securing the freedom of Porto Rico, Santiago Iglesias, delegate to the American Federation of Labor from that island, today presented to the federation a resolution asking that the American Federation of Labor urge upon the congress of the United States the extension of the principle of self-government to the people of Porto Rico, and that the Federation of Labor have a bill introduced granting this principle, also that the American Federation of Labor demand that the national house of representatives recognize the people of Porto Rico as American citizens and guarantee them the same rights and privileges possessed by the people of all other states and territories of the United States. The resolution will be considered before final adjournment.

Some legislation also invited the American Federation of Labor to meet in San Juan, Porto Rico. The invitation comes from the mayor of San Juan.

Denunciation of Judiciary.

Resolutions denouncing the judicial system of the United States as "tyrannical and antiquated, from the police court up to the supreme court of the United States," and calling for the election of judges by the people, were introduced by Victor L. Berkor of Milwaukee, a socialist delegate. The resolutions also denounce the insurance system of the United States, demand that Japanese and Chinese be excluded in the same manner as the Chinese, Mexican employment was denounced and child labor censured. These resolutions are presented regularly at each convention and have as yet failed of adoption.

Death Record.

But two matches were completed in the morning and Ed O'Brien, Florence, Kan., and Ed Kline of Spirit Lake, Iowa, with a clear score of twenty straight each.
