POVERTY CAUSES LACK OF PATRIOTISM

Men Who Are Hungry Cannot Be Expected to Understand the Benefits and Obligations of Citizenship.

ST. PETERSBURG, Nov. 16.—Premier Stolypin's organ, the Russia, today published a long article apparently intended to prepare the way for the promulgation of the reforms in the condition of the Jews as outlined in those dispatches November 12.

The paper stated that with the view of allaying the anticipated storm of protest on the part of the reactionists, the projected Jewish reforms will not give the Jews full equality, nor permission for them to spread through the country and acquire the lands of the peasants, but they will have the right to live everywhere inside the pale in the country as well as in the cities. The restrictions imposed on Jewish merchants and artisans will be revised, including granting them permission to dwell outside the pale. The article reviews the Jewish problem since it was acquired, with Poland, 130 years ago. It declares that the forcible concentration within the pale of 3,000,000 Jews, or 14 per cent of the population, has proved a failure and has not prevented the most dangerous elements, the Jewish intelligentsia and plutocracy, from penetrating into Russia over the entire bridge while a monetary war attacked the residue. The pale, the article asserts, forms an accumulator in which the revolutionary energy of the Jewish proletariat has been developed, adding:

"Men who are condemned to live on one side of a bridge while a monetary war attacks the residue. The pale, the article asserts, forms an accumulator in which the revolutionary energy of the Jewish proletariat has been developed, adding:
