DEEP WATER ASSOCIATION

Permanent Organisation Will Work for Canal from Lake to Gulf.
ADDRESS TO THE PUBLIC ADOPTED
W. K. Cavanaugh is Elected President and Board of Governors Appointed. Secure Necessary Legislation.

ST. LOUIS, Mo., Nov. 15.—The Lakes-to-the-Gulf Deep Waterways association became a fact today, when the plan for permanent organization and the reports of the nominating committee were adopted at the final session of the convention of the provisional association, organized by Congressman William L. Gurnea of Chicago and several of his congressional assistants, which has been in session at the Odeon for the last two days.

The objects of the association and principles for which it stands are set forth in the following "address to the public" prepared by the committee on resolutions and unanimously adopted by the convention:

The time has arrived for a vigorous re-assertion of our national policy towards all works of internal improvement, which have heretofore occupied such a subordinate place in national expenditures; also in connection with the great sums that have been appropriated in the past for army and navy purposes, which appropriations have by far exceeded the expenditures for all other departments of our government.

It is our belief that when, backed by progressive public sentiment, the United States congress can be induced to embark upon a liberal policy for the development of the internal waterways of the nation.

Route of Proposed Waterway.
The proposed deep waterway is to extend from the Chicago drainage canal through the valley of the Des Moines and Illinois rivers to the Mississippi river at Stratton, Ill., and thence down the Mississippi to St. Louis, and it is to have a minimum depth of fourteen feet throughout. We recommend that, for the purpose of meeting the prob-

PRESIDENT SEES BIG CUT

Chief Executive Spends the Day Along Panama Canal Route.
SITE OF PEDRO MIGUEL LOCK EXAMINED
Mr. Roosevelt Views Work of Steam Shovels and Shakes Hands with All Americans He Meets.

PANAMA, Nov. 16.—President Roosevelt, who stopped at the Tivoli hotel last night, started at 7 o'clock this morning, with Mrs. Roosevelt and the other members of his party, to make an examination of the Panama canal. The weather was overcast, threatening rain. At 8:20 the presidential train arrived at Pedro Miguel, where some steam shovels were at work. The president had his train stopped for the purpose of making a personal examination. At this point in the cut the peculiar soil conditions have resulted in a series of less frequent landslides, and this fact was brought to the president's attention. President Roosevelt descended from his train and climbed up on one of the steam shovels, taking a seat beside Engineer Gray, whom he subjected to a searching line of questions regarding the work. During his conversation Engineer Gray took the opportunity, on behalf of himself and the other engineers, to declare that unlike the railroad engineers, they were not paid for overtime. The president was anxious to look into this matter. He stayed on the steam shovel about twenty minutes. By this time it was raining hard.

Lock Site is Examined.
President Roosevelt told Chief Engineer Stevens that he wanted to see all the works in connection with excavation, even to the temporary laying of tracks. With this in view he boarded a work train near Pedro Miguel and went on to the next point, where steam shovels were at work. Here there was no danger of landslides. The presidential train continued on the regular line towards Panama. The work of the second group of steam shovels was observed and the president made a detour to examine the site of the Pedro Miguel lock. He shook hands with all the Americans he met while walking over the ground. At about 2:25 the president entered the deep portion of Culabra cut, his train going slowly in order that he might observe the workings of the drill machines and shovels.

One shovel was decorated with a sign, reading: "We will do our best to help you build it."

The president spent some time in the deepest portion of the cut, where last Sunday twenty-two tons of explosives were used to throw down 25,000 cubic yards of material.

The rain was now coming down in torrents and the water poured in rivulets from the funnel-shaped sides of the famous cut. Several charges of dynamite were exploded in order that the president

for everyone. He remained at the club for about twenty minutes. Representative Jose Lefevre welcomed President Roosevelt in behalf of the youth of Panama and the national assembly. The president replied in a highly complimentary manner, saying that he always believed in the future of Panama.

At 10:45 p. m. President Roosevelt and his party returned to the hotel.

Many Naval Apprentices Ready.
NEWPORT, R. I., Nov. 16.—The largest draft of apprentice seamen to leave America on any occasion is being prepared for the naval stations at Norfolk, Va., and Port Royal, S. C., where they will be held in readiness for service under Admiral J. D. Evans, commander of the Atlantic fleet. The draft numbers 70 and consists

of a fine body of young men recruited largely from the west.

NEBRASKA BADLY INJURED

Grand Trunk Express Wrecked in Yards at Woodstock by Broken Rail.

WOODSTOCK, Ont., Nov. 16.—The early morning express from Detroit for Toronto, on the Grand Trunk railway, was wrecked in the yards here today from a broken rail. Twenty persons were injured, four seriously. Peter Gormon of Nebraska had his hand badly torn and was otherwise injured.

Eating Carelessly

frequently causes stomach troubles, but careful eating will never right them. When your stomach is out of condition, it needs help that no food can supply. It must be thoroughly cleansed, settled and strengthened. Food never does this.

BEECHAM'S PILLS

are the greatest stomach medicine human skill ever compounded. Don't attempt to cure your stomach by dieting. You will starve and get little benefit. Give Beecham's Pills a chance and you will again know the pleasures of a sound digestion. Appetite will return and the stomach again work without any discomfort. The skin will clear, the face plump out, while people will remark "How well you're looking." These are facts, not fancies. Prove it, yourself.

Sold Everywhere in Boxes. 10c and 25c.
