

GRAIN AND PRODUCE MARKET

Prices Generally Throughout the List Run Fractionally Lower. WHEAT EASY UNDER LIGHT LIQUIDATION

December liquidation is the chief factor in the wheat market. The volume is not great as yet, yet it drags into the pit steadily in small lots. Traders have called attention to this condition. It must happen, and the way will be approximately affected. It does not alter the situation one iota, and the position of the market will assert itself eventually. There was not a great deal of news today. A slight advance in the price of wheat, 10c, 90c bushels, was reported from Chicago. The market in May is more disposed to liquidate, led by the most persistent recent buyers. Cash prices yielded a trade. Locally it is expected a materially increased movement will result within the next two weeks. The corn in the country and must come to market. The demand is no better than at present accumulation can have. It is expected that the primary receipts will be 47,000 bushels and shipments 52,000 bushels, against 47,000 bushels and shipments 52,000 bushels, respectively, for the week ending December 11, 1906. The market opened a shade to 1/4c higher, at 77c, and sold off to 76c and flour equal to 135.00 per bu. Primary receipts were 47,000 bu., against 47,000 bushels for the week ending December 11, 1906.
