S. S. S. is not a new treatment for Catarrh; it has been curing the disease for more than forty years, and so universally successful has it been that it has won an established place in the confidence of the people as a remedy for this disgusting, troublesome and Jangerous disorder.

Catarrh is not merely a stubborn or protracted cold, as some people seem to think; it is a deep-seated and serious blood disorder, more generally affecting the body than any other disease. Hardly any part of the system is exempt from the trouble; it attacks the head, throat, stomach, bowels, kidneys, bladder, lungs and other members, and its effects often completely break down and undermine the entire constitution.

This catarrhal condition is usually first noticed after the contracting of a cold. The inner skin and tissues of the body become irritated and inflamed and secrete an unhealthy matter, which is absorbed into the blood; this foreign matter corrupts and diseases the circulation, and as the blood goes to every nook and corner of the body the poisonous matter with which it is loaded is deposited to set up inflammation and disease of the lifferent members. Catarrh has more disgusting and annoying symptoms than any other rouble. There is a constant buzzing noise in the ears, a watery discharge from the postrils, headaches and pains in the eyes, stringy, filthy matter drops back into the throat, equiring continual hawking and spitting, the breath has an offensive odor, slight fever ften accompanies the disorder, gradually the entire blood supply becomes tainted and disased and the system completely disordered and upset. After awhile the kidneys and oladder become affected, chronic Dyspepsia or

latarrh of the stomach develops, and the disease settles in some vital place, generally the lungs, because of the constant passage of poisoned blood hrough them, and Catarrh terminates in consumption, a hopeless and fatal disease.

Catarrh is usually worse in Winter, because of the cold and dampuess and suddenly changing temperature, but it is in no sense a championship is to be run on November close to him in his latter years, and long lisease dependent on climatic conditions for its levelopment. Neither is it a trouble to be cured with sprays, washes, inhalations and such treatment; these merely relieve the reflex symptoms for awhile, but they are fanned into existence again at the next exposure to unfavorable weather.

> As Catarrh is a deep-seated blood disease the very best constitutional treatment is required

to effect a cure. S. S. S. is the greatest of all blood purifiers, and is therefore the remedy best fitted for the work of removing the cause and permanently curing the trouble. Forty years of successful service have proven the worth of this great medicine in the treatment of Catarrh. S. S. S. is peculiarly suited as a remedy for this disease. It is made entirely of wife. The grave of the great president has healing, cleansing extracts and juices of roots, herbs and barks, without the least addition of mineral medicines. S. S. S. goes down into the blood and removes the catarrhal matter and poison, and its gentle acting vegetable properties strengthen and repair the diseased membranes and tissues so that when the cause has been removed the entire system is left in a state of perfect health. S. S. S. also tones up the stomach and digestion, and acts as a fine tonic to the entire system. S. S. S. has been curing Catarrh for more than forty years, and what it has done in the past is a guarantee of what it will do in the future. It is not an experiment, but a real blood purifier tested by time, for blood diseases like Catarrh. Write for our book which contains information about Catarrh, and ask for any medical advice you desire. No charge for either.
