FRISCO MAKES BIG STRIDES

Strikes City Making Wonderful Progress Toward Recovery.

Says S. F. Booth.

S. F. Booth, general agent of the Union Pacific at San Francisco, was in Omaha Monday, enroute home, and was enthused over the way San Francisco is picking up. He said San Francisco is the busiest city in the United States today and will be for the next ten years. Forty thousand men are working in the ruins and debris, clearing it up and putting in new foundations for the new city.

"The bank clearings of our city show a gain of from 15 to 25 per cent a month, and this does not include the insurance money, but straight business," said Mr. Booth. "All merchants are showing an increase in their business of from 25 to 30 per cent. An erroneous idea is out that most of the people left San Francisco and California. They are still there, and while many had to move out of Frisco temporarily and are not back in the city, just as in my own case, as I still live in Oakland, they have not left California and are on deck. They do not fear another earthquake, as the damage from that was small, the main loss, of course, being occasioned by fire. The harbor is intact and San Francisco has lost little of its shipping.

"There is another erroneous idea, that the coast cities of the west are jealous of each other and are cutting each other's throats for the business of the orient. This is not the case. All are friendly and are working in harmony, excursions being exchanged. Although it has been but seven months since the fire, between \$50,000,000 and \$60,000,000 in building permits have been issued, which in comparison with Chicago or Baltimore after their fires is an increase of over 50 per cent. Twenty modern buildings are now in course of construction with steel to the second and third stories in some instances.

"The street cars are all in operation and are hauling as many, if not more, people than they did before the fire. Great confidence was inspired into the merchants by the decisive and quick action of President Harriman of the Union Pacific, who hastened by special train with J. C. Tubbs, traffic director, and not only did the right thing all around, but had confidential talks with the merchants and braced their faltering spirits. The roads have hauled 6,000 people to California this summer on colonists' rates and the Southern Pacific and Union Pacific are now doing the best they can to get skilled laborers in San Francisco. The inland towns, which suffered to some extent, have all recovered from their losses.

County Attorney Steps In.

The county attorney has filed a complaint against Jerry Wilkrow, an inmate of the White Front lodging house, alleging that Wilkrow stole about \$20 from the pockets of Pat O. Bourke, a social lion of Killebrick's gaming camp, while the son of Erin was enjoying a nap last Saturday afternoon in the White Front saloon, Eleventh and Farnam streets.

Now is the time to make your wants known through The Bee Want Ad page.
