that the conscription would be made and of the weather for Tuesday and Wednesday: turn about Wednesday, al when it was the Burlington would le its identity. Its name being swallowed up in that of the Great Northern System. This man doubts this much of the story.

BROWN OPPONENTS ACTIVE Cancus on the Fenatorship is the Latest Scheme Being Advanced.

MEMBER APPROACHED GIVES SNAP AWAY Talk of Bill Taking Appaintment of Supreme Court Commissioners

from Judges and Vesting it with Governor.

(From a Staff Correspondent.) LINCOLN, Nov. 19.-(Special.)-Reliable information was received in Lincoln this morning that the opponents of Norris Brown not only do not admit he will be the next United States senator from Nebraska, but they are busy working to encompase his defeat. This information was to the effect that a member of the legislature was approached and requested to consent to a cancus of both the house and senate at which a secret ballot would be taken on senator, the logislature to be bound by this caucus. This member of the legisla ture at once notified friends of the republican nomines for senator. He told that a systematic attempt was being made all over the state to get the members elect of the legislature to repudiate the action of the roublican state convention in endorsing Brown. He did not know how many legislators had promised to go back on their

pledges, but he assured Brown's friends that he intended to stand pat and carry out the instructions of the convention. Bill Almed at Court Commission. There seems little doubt a bill will be in-troduced in the legislature to take from the

supreme court the power to appoint the supreme court commission and yeat it in the ROBBERS PAY CALLAWAY A VISIT governor. By one who is interested in this

matter it is said the court proper would gladly be relived of this appointing power. and have it shouldered onto the new governor. In favor of such a bill the argument has been advanced that it would make the commissioners more independent of the court and at the same time remove the court that much farther from pollifes. Should the bill be introduced, however, there is every indication it will be fought

vigorously, inasmuch as friends of court believe that body knows the ab'lity would carry raw timber into the nopulous of lawyers better than a governor would centers of the middle west, north and south and would be able to select better material. over its own lines and return likewise The term of the present commission expires
