CLOSE UNCHANGED IN DECEMBER OPTION

Liverpool Refuses to Respond to Monday's Advance in America-Irregularity in Corn Market, May Being Inclined to Strength.

OMAHA, Nov. 20, 1206.

Connectingly light trade characterized the wheat market and prices were easy. Atthough Liverpool Monday refused to follow America's decline of Saturday, yet on Tuesday Liverpool was also chilvious to the advance in America on Monday. Foreign crop news was favorable, except in Argentina, where the weather was cold and wet. A large grist of bull news comes from Minneapolis, where the market was strong. Receipts are running lighter than last year and the cash demand is good for spring wheat. Bradstreet's weekly world's visible showed a fair decrease for the week and early in the session it was a help to prices. From the spring wheat standpoint the situation favors the buils, but this is offset by an increase in stocks of winter wheat. Irregularity marked the corn. December was stendy, while May was firm at a shade advance. The cash demand shows no improvement and receipts were moderate. Elevator interests were good sellers. Primary wheat receipts were 1,000,000 bushels and shipments of 654,000 bushels. Corn receipts had seen and shipments of 1,565,000 bushels and shipments and shipments and shipments and shipments of 386,000 bushels and shipments and shipments of 386,000 bushels. Clearances were 46,000 bushels of wheat. 26,500 bushels of corn and flour and wheat equal to 437,000 bushels.

Liverpool closed unchanged to 45d lower on corn.

With any seasonable weather we will have pienty of contract corn from the country next month, and, in any event, plenty of contract corn can be made. I look for December corn to sell at 40 cents and orobably lower."

CHICAGO, Nov. 20.—The wheat market was weakened today by realizing sales in the December delivery, but the market became more firm just before the close, which was a shade under the final quotations of yesterday. Corn was off 1/2c Oats were down 1/2c. Provisions were 21/2c to 1/2/2c higher.

During the first half hour the marker was firm because of the unusually small receipts of wheat at Minneapolis and Duluth. The demand brought out by this pews was moon satisfied, however, and with the selling pressure on the December option prices gradually eased off. Among the chief items of the buillah character were a decrease of 60,000 bushels in the world's visible supply as shown by Bradstreets and an urgent demand for cash wheat at Minneapolis. This influence caused some covering by local shorts late in the day and resulted in a recovery of almost all of the early loss. The only factor of bearish importance was an estimate which placed the Australian wheat can about 50,000.
