THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits.

Order to get its beneficial effects it is always necessary to buy the genuine only. For sale by all reliable druggists.

INQUIRY FOR JAMES ANDERSON

Two Sisters Think Man Killed on Viaduct May Be Their Brother.

Believing that James Anderson, the man who died from injuries received in falling from the Eleventh street viaduct a short time ago, might prove to be a close relative, the husband of one and brother of the other two women from South Omaha began making quiet inquiry Tuesday as to the body in an endeavor to establish its identity, if possible.

The women were not greatly affected when told where they might find the body, but admitted the fact was theirs in not investigating sooner. They said they would call at the Creighton Medical college this morning and ask leave to have the body brought out, so they might view it. The relative for whom they are looking, they explained, has been missing since the accident to the man who gave his name as James Anderson, and his failure to return to them has made them suspect he is the dead man.

Before he died the injured man was unwilling to give his name, and gave a different name at the hospital than he numbered to the police. It was then believed he had not revealed his correct name.

After viewing the body both women were positively convinced it was not that of their missing relative. They had brought a picture of their relative with them and the coroner thought the resemblance was very marked. Who James Anderson really was is now a problem that will probably never be solved.

Fire Due to Heat and Matches. Fire in the basement of the plumbing store of W. T. Whelan, 621 North Sixteenth street, did damage to the extent of about \$100 at 9:30 a. m. Wednesday and considerable difficulty was experienced by the firemen before it was extinguished.

The Comix Card club will meet Thursday afternoon with Mrs. Arthur L. Hoover, 2816 Ohio street.

The "Discovery" of the Soda Cracker

For years the humble soda cracker remained obscure and unappreciated. No one seemed to realize its food value—no one seemed to know that it was one of the most nutritious rations obtainable.

Then one day the soda cracker was "discovered." The NATIONAL BISCUIT COMPANY saw its value if properly presented to the public. They set about to bring its quality to the highest possible standard—the result being Uneeda Biscuit, which are to-day recognized as one of the staple foods of the American people.

Nearly 400,000,000 packages of them have been sold, and the food value of the soda cracker is a settled fact.
