RAIN AND PRODUCE MARKET No. 2 northern, 70%; No. 3 northern, 70%; Pf.OUR. Pirst patents, \$4.30%; 40; second patents, \$4.1569; 25; Hrst clears, \$2.25%3.35; second clears, \$2.46%2.50. Wheat Opens Unchanged, But Buns to a BRAN-In bulk, \$16.25%3.35; Wheat Opens Unchanged, Eut Runs to a Higher Level. LIQUIDATIONS NOT NEARLY SO HEAVY Receipts Larger in Northwest, but Stocks So Light One Day's Arrivala Cuts Little Figure Corn Rules More Firmly.

OMAHA, Nov. 25, 1908.

Theat opened unchanged saday, but prices caked up from the start, closing to higher on December and the higher on May. Liquidation was not so noticeable as it was not seen to the same apolls, but stocks there have become so deplated that heavier arrivals for one day makes little difference.

A wire from Minnespolis says that out of 1,500,660 but of wheat in store, 600,000 but are musty and unit for use by the millers, thearances were well up toward a million. The increase in the visible supply was unexpectedly large. OMAHA, Nov. 26, 1908.

core ruled a little firmer through the session, closing fractionally higher on both near and deferred futures. Weather generally favors good movement, but despite that facts receipts are running only a half or a third of what they were at this time

or a third of what they were at this time last year.

Primary wheat receipts were 1,152,000 bushels and shipments 1,081,000 bushels and shipments of 1,745,000 bushels and shipments of 455,000 bushels. Corn receipts were 251,000 bushels and shipments 333,000 bushels and shipments of 891,000 bushels and shipments of 891,000 bushels and shipments of 566,000 bushels. Clearances were 783,000 bushels wheat, 50,000 barrels flour, 256,000 bushels corn, 8,000 bushels oats.

Livergool closed 46d lower to 46d higher on wheat and 46d higher on corn.

Wheat visible increased 2,275,000 bushels, corn increased 12,000 bushels, oats increased 1,414,000 bushels.

J.414,000 bushels.

World's wheat shipments were 11,240,000 bushels, world's corn shipments were 1,760,000 bushels.

B. A. Eckhart of Chicago says: "Conditions in the flour trade are about the same. The large premiums for No. 1 northern and other grades of spring wheat have been responsible for the revent sharp advance in other grades of spring wheat have sponsible for the recent sharp advance in spring wheat flour. Stocks of flour through out the country are not large and there is little better inquiry."

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade.

CHICAGO, Nov. M.—Liberal clearances of wheat and flour caused firmness today in the local wheat market, the December delivery being up willing at the close. Corn was up ac. Oals were a shade higher. Provisions were up Mc.

The market was easy during the first hour on moderate selling by longs of the December delivery. Toward the noon hour the market became firm and the stronger tone was well maintained during the remainder of the day. The change in sentiment was caused by the fact that the exports of wheat and flour for the day from American ports amounted to 1,610,000 bu. The large clearances caused active buying in commission houses and eatire traders and brought about a quick rally. Shorts were Prices on Board of Trade.

The large clearances caused active buying by commission houses and sait traders and brought about a quick raily. Shorts were fairly active buyers of Dacember during the latter part of the session. The market lost some attending the latter part of the session. The market lost some attending the latter part of the session. The market lost some attending the latter part of the session of the sess

Great Northern Preferred Rises on Supporting Orders Supposed to Be from the Inside-Closing Tone is Irregular.

NEW YORK, Nov. 28.—Confusion of speculastive sentiment was discernible in the movement of prices of stocks today and the acticity of the trading was contracted largely. Operations were tert largely in the hands of professional trading. Their confusion was due to the failure to find transactions or any appreciable following. The show of strength after the mixed tone at the openings had an encouraging effect and was interpreted as an assertion or power to support the market against such the market against such the market against such thought they read an intention on the part through they read an intention on the part sentiment. The buying which followed thought they read an intention on the part solid and the course of prices was retraced provered to that intention stocks were resold and the course of prices was retraced as they are the prices. When they became distributed they are they read an intention on the part solid and the course of prices was retraced at the prices. When they became distributed they are they read an intention on the part solid and the course of prices was retraced prices and retraced as the prices. When they became distributed they are the prices. When they became distributed they are the prices. When they became distributed the prices of Great Northern ore rights, when issued, as they are quoted, on the curb, had a large influence in turning the market downwards again. The decline in these rights serves to discredit the extensive rise en rights of the strength of the prices. When they became distribution. The treatment of loans in which Great Northern preferred as the speculative buying in anticipation of the distribution. Foreign Financial.

LONDON, Nov. 26.—Money was not plateful in the courset today, a heavy call for Canadian Pacific shares and the settlement requirements restricting supplies and keeping rates firm. Discounts were fairly steady. Operations on the Stock exchange were principally interested in the mining carry-over, but a moderate amount of activity prevailed in British securities, which had declined fractionally, helped by the influence of gold from Paris and the Bank of England's securing the bulk of gold available in the market. Americans advanced to slightly above parity in the foremon on local buying, but business was restricted in view of the large account to arrange and fears of dear carry-over rates. Later New York supported the market and prices hardened and closed firm. Missouri, Kansas & Texas was the feature of the American section. Home rails were neglected and foreigners were irregular. Japanese imperial 6s of 1904 closed at 100%. Foreign Flunneigl. opened hemitating but respect the securities of iron foundries at light recovery.

Bank of Germany Statement.
