COMMUNICATIONS RELATING TO NEWS AND EDITORIAL MATTER SHOULD BE ADDRESSED: OMAHA, NEBRASKA, THE PUBLISHING COMPANY.

STATEMENT OF CIRCULATION
Name of Nebraska, Douglas County, ss:
Charles C. Rosewater, general manager of The Bee Publishing company, being duly sworn, says that the actual number of full and complete copies of The Daily Morning Evening and Sunday Bee printed during the month of October, 1906, was as follows:

WHEN OUT OF TOWN
Subscribers leaving the city temporarily should have The Bee mailed to them. Address will be changed at once as requested.

After his experience in Iowa politics, Secretary Shaw is eminently qualified to handle little trouble like that at Pittsburg.

The annual report of the Union Pacific is a severe reflection upon the men who decided that the company should stand as lawfully as they pay taxes.

The wool market is said to be in the hands of the sellers. If western stockmasters are not careful they may face government inquiry under the anti-trust law.

Canadian lawmakers will soon begin to consider the question of reciprocity, but Governor Cummins will probably be too busy preparing his annual address to offer expert advice.

If the application for revision of second-class mail matter results in a string of setbacks with railroads for carrying mails, it will have proved a blessing, although at present somewhat disguised.

CONGRESS AND PUBLIC EXPENSES
With a session of congress at hand the question of the expense of government rears up with increasing seriousness.

NEBRASKA INVESTMENTS
The attention of men with money to invest is called to the opportunities afforded in Nebraska.

There is in the treasury at this time a surplus of revenue exceeding \$120,000,000, which, after deducting a liberal working balance, still leaves a big excess of funds.

NO COAL FAMINE
While some complaints have been lately heard of coal shortage, they are local and exceptional.

RAILROAD NET EARNINGS
The official figures now made public by the Interstate Commerce commission are an illuminating comment on recent lugubrious expressions.

The latest census bulletin issued by the Department of Commerce indicates that the child labor question in Nebraska is very nearly solved.

SHIP SUBSIDY ARGUMENTS
In his speech at Kansas City Secretary Root demolished one plea of the ship subsidy crowd.

Plans of Promoters Do Not Harmonize with the Facts
The estimated value of Central Park is placed at two and a half billion dollars.

Years Bring No Wisdom
W. J. Bryan grows no wiser. He dragged his anti-monopoly paramount issue into the transmission convention Thursday.

ROUND ABOUT NEW YORK
Ripples on the Current of Life in the Metropolis.
People at a distance are accustomed to the claim that Greater New York is unrivaled as a project of 'big things'.

Blasting Public Hopes
Chicago Record-Herald.
Denial of the truth of the report that Plattsburgh is to resign as mayor of New York is made by Platt himself.

A Party in Charity
New York Tribune.
A balance on hand of \$1,000,000, the need of relief being past, speaks well for the generosity of the American people.

Reasons for Parcel Post
New York World.
Out of the \$1,253,746,667 gross earnings of all the railroads of the United States in the first month of interstate commerce record.

Wasting Gray Matter
Baltimore American.
That Department of Agriculture committee on crop prices may do its best, but sly Dan Cupid will be found to be practical chairman of the committee in the end.

Radical Winds that Blow
Springfield Republican.
Senator Dick of Ohio is out with the statement that he is 'firmly convinced that the income tax is the nearest we can come to an equitable and impartial system of taxation.'

CHANGES IN THE SENATE
Veterans of the Upper House Must See Better
Springfield (Mass.) Republican.

Insurance in Nebraska is still profitable despite the operations of the value policy law with its 'moral hazard' aspect.

The state canvassing board has given its return on the constitutional amendment showing that 147,715 Nebraskans favor the adoption of the amendment.

The estimated value of Central Park is placed at two and a half billion dollars. The beautiful life-saving stand which cost the city thus far \$15,000,000, including maintenance, was set up into building lots.

The trend of American life is against the assumption of whiskers under any name or fashion. Indeed, the age of hair is passing, and possibly Americans could not revive the borders of the past if they were to do so.

W. J. Bryan grows no wiser. He dragged his anti-monopoly paramount issue into the transmission convention Thursday. In his Communion he stigmatizes the proposed credit note as a 'no-cent dollar.'

PRICE'S Cream Baking Powder
Pure, Wholesome, Reliable

Made from cream of tartar derived solely from grapes, the most delicious and healthful of all fruit acids. Its use is a guarantee of perfect food and a protection against the ill that follow the use of alum, alum-phosphate and other low grade powders.

The mixtures called baking powders that sell for ten or twenty-five cents a pound, or a cent an ounce, are all alike, made from alum and costing less than three cents a pound.

PERSONAL NOTES
San Francisco and Pittsburg are in close contest for the head position in the horrible example class.

POINTED PLEASANTRIES
This living in furnished rooms, said the wife, 'is hard on the children.'

A SHAME
Cleveland Leader.
It's a shame to take the money that they pay for being funny.

So the public must excuse us, if at times our brain refuses to be as bright as it used to be.
