Acceptances of Corn Light at Country and Lighter Receipts Estimated -Trade Very Light, Prices Advancing Some.

OMAHA, Nov. 27, 1906. OMAHA, Nov. 27, 1908.

Trade was very poor in wheat today and prices moved in a very narrow range. Though there was some selling of May, it was insufficient to materially affect prices. Foreign nows was bearish and clearances were small. Receipts are running about 250,000 bushels under a year ago. Frices ran around yestenday's close most of the day, but at the close cased off a fraction. Branstrent's visible showed an increase of 3,000,000 bushels.

Light acceptances on corn at country

strent's visible showed an increase of 3,000,-000 bushels.

Light acceptances on corn at country points and estimates of small receipts to-morrow Kept up the advance started yesterday. December was fractionally higher at the close and May unchanged. Trade was exceedingly light. Local elevators report new corn arriving is grading well.

Frimary wheat receipts were 1,000,000 bu. and shipments \$4,000 bu. and shipments of 750,000 bu. Corn receipts were 47,000 bu. and shipments of 600,000 bu. Clearances were 115,000 bu. of wheat, 52,000 bu. of corn, 5,000 bu. of oats and flour and wheat equal to 345,000 bu. Liverpool closed unchanged to 3d lower on wheat and unchanged to 3d lower on 5d lower on 3d lower Slaughter's Rosario cable reports weather favorable for wheat crop, but rain is wanted in corn belt.

Laverpool cabled: "Spot wheat firm, with an upward tendency. The futures are neglected. The advance asked in corn checks business."

lected. The advance asked in corn checks business."
All of the guesses on the visible supply went wrong yesterday, the entire trade failing to take into account the large number of big grain carriers that had loaded last week for Buffalo and that had not gotten through in time to discharge their cargoes. The increase in the quantity of grain afton on the lakes last week was 1.857,000 bushels, despite the fact that Buffalo stocks alar gained 680,000 bushels from the arrivals by lake.

Foreign Financial.

LONDON, Nov. 27.—Money was much wanted in the market today for the settlement. Rates were firm. Discounts were a shade harder on the rumors regarding the Brazilian gold requirements. Trading on the Stock exchange was fairly factive for the new account, despite the fact that the settlement was progregaing. The carry-over rates were fairly high, 759 per cent being charged for Americans. Consols and home rails were maintained by moderate investment purchases. Foreigners were firm, Russian and Japanese receiving good attention. Americans opened quiet, but after the seiling at parity they improved under the lead of Canadian Pacific, Missouri, Kansas & Texas and Union Pacific. Later New York accepted the higher level of prices and bought moderately and prices here hardened, the market closing steady, Japanese imperial 6s of 194 closed at 100%.

387 40 Cattle Fully Steady and in fome Cases | 100

Under the influence of the more moderate receipts and less discouraging reports from other points the market as a whole was in fair shape.

Beef steers were in the usual good demand and the more desirable kinds at least commanded prices fully steady with yearsterday. This was the case with both corn feds and grassers. While the market did not open until late, the most of the desirable cattle changed hands in fair season. Cows and helfers were more active than those was an extraction of the desirable cattle changed hands in fair season. Cows and heifers were more active than yesterday and were generally free seilers. The prices paid were steady to a little stronger and a fairly early clearance was effected.

No noteworthy change took place in the feeder market; the good, fleshy feeders continue to command steady or strong prices, the same as they have every day for the last two weeks or more, while the inferior and common kinds are slow and dull every day.
