MAN KILLED BY LITTLE GIRL Daughter of Thornton, R. L. Policeman Shoots Elber Briggs, Who Had Broken Into House.

THORNTON, R. I., Nov. 29.-Ethel Smith, the 15-year-old daughter of Special Policeman Leander Smith, is under arrest tonight at the home of Chief of Police Rowland Kimball, charged with killing Elber Briggs, a resident of Thornton. The circumstances of the killing were such that after the arrest of the child Chief Kimball took her to his house, gave her a Thanksgiving dinner and declared that she should not go to jail as long as she was under his furisdiction.

The tragedy today was the culmination of an estrangement between Briggs and his wife. About two weeks ago Briggs is alleged to have deserted his wife, leaving her without means to support herself and her three small children. Special Officer Smith took pity on the destitute woman and he and his wife received Mrs. Briggs and her children into their home and were arranging to send them to the home of Mr. Briggs' brother in Niantie.

This afternoon, during the absence of Smith, Briggs arrived at the Smith house and demanded admission. Charles Halliday, a negro cook, started to bring Chief of Police Kimball to the scene, leaving in the house Mrs. Briggs and her children, Mrs. Smith and Ethel. The women and children, fearing that Briggs would force an entrance, locked all the doors and

Ethel procured her father's revolver, a thirty-two calibre weapon. As soon as Halliday was out of sight Briggs again demanded admittance. This being refused he drew a large carving knife from beneath his coat and cut away the netting from the screen on the front door. He then smashed a pane of glass on the door, reached through and threw back the bolt. As he entered Ethel fired two shots at him, both bullets lodging in his body. Briggs hesitated for a moment and then kept on. The child fired three more shots, every bullet taking effect, and Briggs staggered back and fell dend.

SWITCH ENGINE RUNS AMUCK Locomotive Beyond Control Causes Tw Wreeks and Kills Two Men in Winnipeg.

ST, PAUL, Nov. 28.-A Winnipeg, Man., special to the Pioneer Press says: A runaway engine in the Canadian Northern yards today caused two wrecks, killed two nen and seriously injured four others. It was only chance that a more frightful catastrophe was avoided.

As the Northern Pacific train from St. Paul was steaming into the yards an hour behind time, Engineer Young was horrified to see a switch engine bearing down on him at full speed. Both engineers reversed so the collision was comporatively slight. The passenger engine was badly wrecked and the train derafled, but only two injuries were reported, a woman pasand the fireman being cut on the head. The most serious and peculiar part of the

alleged murder of Grace Brown, spent a engine was reversed, Engineer English and and on the collision the engine bounded back, the throttle open, and tore madly back towards the station. The engineer rushed to a near-by telephone but almost before he could get connection the big engine was doing deadly work. The flagman at the bridge same the runaway rush by in a cloud of steam and smoke, but he was helpless. Across the river it continued its mad career and straight down the main track on which stood the "flyer" ready for its trip south. A switchman saw the runaway and the danger of its erashing into the passenger train and he pulled a lever sending it down another track, forgetting that thereon stood many freight cars. Seven men were engaged in loading a car. Two who were inside the car were instantly killed. Four others were so badly hurt that their recovery is doubtful. The other man has not been accounted for. but it is believed he escaped. The dead men are William Nell and Mike Mudlow. The injured are all foreigners.
