LAND APPRAISED HIGHER

Increase Means Over Twenty-Three Thousand to School Fund.

ACTION ONLY IN PART OF COUNTIES

Land Commissioner Asks for Appropriation to Pay for Completion of Work Which Would Greatly Benefit State.

(From a Staff Correspondent.)

LINCOLN, Nov. 30.—(Special.)—The reappraisal of school lands, as shown by the forthcoming biennial report of Land Commissioner Eaton, has increased the value of school lands in thirteen counties a total of \$30,322, which increases the revenue derived from the leasing of this land \$2,423.20 annually. The following table showing the old value, the new value and the increased rentals, with the attached paragraph, is taken from Mr. Eaton's report:

Table with 3 columns: County, Old Value, New Value, Increased Rental. Rows include Antelope, Bart, Cheyenne, Frontier, Garfield, Hamilton, Hitchcock, Lincoln, Polk, Red Willow, Saline, and Totals.

The legislature appropriated \$3,000 to continue the work of reappraising the school lands of the state held under lease contract. By direction of the Board of Educational Lands and Funds I have had thirteen counties reappraised, as shown by the table, increasing the total valuation \$30,322 and the annual income to the school fund \$2,423.21. I have sent reappraisement lists to the county commissioners of Holt and Dundy counties, but at this time have received no report from them. The work of reappraising should be continued until all the lands in the state are reappraised. Especially should this be done in Rock, Brown, Scott's Bluff, Keith, Deuel, Chase, Blaine, Hayes, Loup and Wheeler counties, where land values have materially increased since the school lands were reappraised.

Treasurer's Report Delayed. State Treasurer Mortensen will not file his report for November with the state auditor until after the mail is opened tomorrow morning. At this time he has all of the permanent school fund invested except \$2,317, though he may get this sum

invested before tomorrow. In the general fund he has on hand only \$23,233. Inasmuch as the expense of government goes on month after month, no matter what the income of the state is, this fund is low, as the income from now until some time in January amounts to very little. Should the railroads conclude to pay their taxes, which they are now contesting, the treasury would be helped out considerably and numerous warrants which are now being registered could be taken up and that much interest saved to the state.

In the temporary school fund for disbursement among the various school districts of the state there is now \$26,773. This is a decrease from the amount appropriated last year of about \$20,000 for the December apportionment. This apportionment will be certified to the superintendent of public instruction December 3 and the sum may be increased by that time.

Duplications in Reports. It is not improbable the legislature will be called upon to take some action regarding the matter which goes into the publications of the various state departments. Just at this time considerable matter is being duplicated and it is costing the state considerable money. The best seems to be to run to agriculture. The state labor bureau publishes bulletins and reports containing statistics on agriculture and hints to farmers; the State Board of Agriculture does the same thing, and so does the State Board of Horticulture and the State farm, and now the office of the state superintendent has come into the game with a vengeance.

Charles Beadle, who goes out of the penitentiary tomorrow after having completed a fifteen months' term for stealing a pair of horses, will be escorted across the river at Omaha to stand trial in Iowa on a charge of stealing a team of mules in Council Bluffs. Governor Mickey today honored a requisition issued by the governor of Iowa for his return to that state.

Insurance Deputy Keeps Out. Insurance Deputy Pierce today issued the following statement, which explains his refusal to issue a license to a certain party: "Repeated inquiries have been made of

this department as to why, in the election of directors of the Mutual Life and the New York Life insurance companies, it has not taken a position for or against the administration tickets. In response to such inquiries I have repeatedly stated that this department has maintained and will maintain an impartial attitude. I believe it to be outside the duties of my office to take the position of favoring the election of any set of directors of any insurance company."

Supreme Court Reports. Frank W. Coleman, bailiff to the supreme court, has completed the statistical part of the biennial report of this department to be made to the governor within the next few days. Mr. Coleman has inaugurated a new system of keeping the records of the Nebraska reports handed by the department, and his report shows in detail the number of books of each volume on hand, sold, damaged, given away and the price received for them. On this date two years ago the clerk had on hand 11,582 volumes. During the two years he has received 2,500 copies of the Nebraska reports and distributed free to other states and libraries 1,239 volumes and sold 4,433 volumes. He has on hand damaged by water leaking through the roof, 384 volumes and 13,044 volumes in good condition. This department has on hand out of its maintenance appropriation of \$2,500 a balance of \$94.54. The state library spent for new books during the two years \$2,302.63 and has on hand \$268.68.

H. C. Lindsay, librarian and clerk of the supreme court, will formulate his recommendations to the governor within a few days. He will call attention to the crowded condition of the library and the danger which threatens it at all times. This valuable collection of books is unprotected from fire. It is no crowded hundreds of books are stacked away on the floor and rafters, there being no more room for shelves. Mr. Lindsay estimated out-hand, that at least 4,000 books would be added to the library during the next year. Each book occupies about two and one-half inches, making a total space of 97 feet, which is absolutely necessary to house the books. There is not a foot of space. Mr. Lindsay thinks it will require at least a quarter of a mile of shelving to hold the books which will be added to the library during the next two years.

Poor Coal at Gas Works. Owing to the quality of coal used by the gas company, the people of Lincoln are breathing sulphur, and considerable uneasiness is felt all over town. Where gas is used to any extent the sulphur is so prominent that it is almost impossible to breathe in the house. People are living with their windows open.

Funeral of John J. Trompen. The funeral of John J. Trompen, who died in Colorado Springs, will be held from the church at Hickman at 2 o'clock tomorrow. A special train will be run out from Lincoln to accommodate those who desire to attend the funeral, and will return immediately after the services. Mr. Trompen was one of the best known men in Lincoln and prominent in politics. He was at one time sheriff of the county.

NEVO—LIVELY CORN HUSKERS. Nebraska Man and One from Iowa Make Records in Field. SARONVILLE, Neb., Nov. 30.—(Special.)—Gust Anderson, a young man of this vicinity, has in the last seventeen days husked 2381 bushels of corn. The last eight days he made an average of 140 bushels. November 23, in ten hours, he husked 202 bushels and twenty pounds; November 28, ten hours, he husked 156 bushels and thirty-five pounds and a half; November 29, nine hours, he husked 130 bushels and thirty-five pounds; November 30, he husked thirteen bushels and ten pounds in thirty minutes. Albert Hultine weighed the corn and saw that it was husked clean in the field. On November 23 three men watched to see that it was a straight and honest deal.

ONAWA, Ia., Nov. 30.—(Special.)—George Dehn, son of Dedrick Dehn of Franklin township, is the champion cornhusker of Monona county for 1906, as far as reported. One day last week he husked and cribbed 144 bushels of corn in a little less than ten hours. He thinks he can shade it a little another time if given an opportunity.

Old Soldiers Held Meeting. AINSWORTH, Neb., Nov. 30.—(Special.)—Last night eight old soldiers met at the residence of W. H. Williams and wife to spend an evening with Mrs. Williams' father, J. F. Gregory, an old soldier of Company C, Eleventh Iowa, and now his residence in 1200 N. 16th. They had a grand time, only as soldiers can have, and at 8 o'clock Mrs. Williams had a fine supper prepared, to which the old boys do ample justice, as they are capable of doing.

The names of the old boys were as follows: H. I. Paine, Company A, Forty-first Wisconsin; J. C. Toliver, Company H, Tenth Iowa; C. E. Boyd, Company G, Fifteenth Iowa; and Company E, Thirty-fourth Iowa; A. Goddard, Company D, Thirtieth Indiana; C. W. Potter, Company L, Thirtieth Illinois; and Company I, Fifty-sixth Illinois; H. R. Goldard, Company D, Thirtieth Illinois; Robert Martin Flinter, Company I, Ninety-ninth Ohio Volunteer Infantry; and Company K, Fiftieth Ohio Volunteer Infantry. The old soldiers are getting well and they are bound to have a good time so long as they are able to get together.

LEXINGTON, Neb., Nov. 30.—(Special Telegram.)—Aman en route from New York City to San Francisco attempted to commit suicide on train No. 105 east of this city this morning and was taken off the train here and put in charge of Drs. Rosenburg and Wade. On examination they discovered that he had made three stab wounds in his neck with a dull knife, just missing the jugular vein, but completely severing the windpipe. The doctors put him under the influence of chloroform and reunited the severed windpipe, but give little hope for his recovery.

Shovel from Coal Mine. HERMAN, Neb., Nov. 30.—(Special.)—The hard coal famine at this place has been temporarily relieved by one of the dealers getting a car of hard coal. This car is all sold out now from the car, and it will not be long until a good many people at this place will be very short of hard coal. It is sold at \$2.75. The other dealers say they have had the coal on the road a long time, but for some reason it has not reached here yet.

WYNONA, Neb., Nov. 30.—(Special Telegram.)—A northbound freight train on the Union Pacific was wrecked at Blue Springs "Y" this afternoon about 4:30 and the track will be blocked all night. It's Very Much The Same With a Woman as With a Man

She has her ambitions, striving, hopes, failures and successes in her own field of human activity very similar to the man in his. At times both seem to be hampered and unable to make headway against some demon of ill luck that persistently interferes, time and again just when success seems clearly in view, a little way ahead. Oft repeated disappointments sour some and makes others more determined than ever. It is to the latter class this proeminent is directed. Think over the past failures and you will discover that they have been caused by lack of ability to accurately analyze and think out your course and draw correct conclusions in advance to show the way. It's a matter of brains, well nourished, strong active brains, that are clean and not drugged. Suppose you clean up the machinery and be ready to think successfully, for that will mean gain of money or fame whichever you are seeking. Try leaving off the coffee for a while and see how much more accurately the brain begins to work from a correct premise to a winning conclusion. It will help mightily if you take on Postum Food Coffee for it contains certain elements which work to rebuild healthy soft gray matter in the brain cells, and after a little distinct difference you will see between your present power and that of the past. Try it. "There's a Reason" for POSTUM
