We need the mail order business given less attention by our farmer folks and advertising home merchants given more attention. Bushels of advertising matter from mail order houses are received here and widely read and studied.

Our town needs its most used thoroughfares paved. The total value of tickets sold by the Burlington from this place in 1904 was \$31,819.18; total amount of freight, \$75,000. Yet the last new Burlington survey leaves Seward several miles off the main We need the Union Pacific railroad to build through here and get this business. The trial of the equity cases in the federal courts will begin Monday in the south court room of the federal building before Judge Trieber of the Arkansas district, who has been assigned to assist Judge Munger during the present term of the tederal courts.

Monday and Tuesday will be devoted to a call of the docket, the hearing of motions and demurrers and the assignment of trial cases. The petit jury probably will not be called before Wednesday.

The argument on the motion for a new trial in the case of Rev. George G. Ware, convicted last February of conspiracy in securing fraudulent filings on public lands with a view ts defrauding the government of titles to such lands in Thomas and Lincoln. Hooker counties, is set to be argued before the United States circuit court of appeals at St. Louis December 18. Both District Attorney Goss and Special District Attorney Rush will go to St. Louis to argue

against granting the motion. Mr. Ware, it will be remembered, was Mr. Ware, it will be remembered, was convicted and sentenced to pay a fine of EL000 and to serve one year's imprisonment in the Douglas county jail. > LIDVAL DENIES CHARGES **Bussian Official Accused of Grafting**

in Grain Contracts in a Defiant Mood.

ST. PETERSBURG. Dec. 2.-Lidval, the contractor who is charged with fraud in connection with the purchase of grain for famine relief, and his agent, Sotskich, have arrived here to testify before the investigating committee. Assistant Minister of the Interior Gurko, who is accused of complicity with Lidval, has at his own request been relieved of his duties as director of supplies to the famine district. Lidval will face the investigation in a defiant mood. He declared to the Assoclated Press tonight that the contract was

perfectly regular and that 1,000 carloads of grain had already been delivered, valued at over \$200,000, the amount advanced him. The delay in supplying the remainder, he said, was due to the inefficiency of the railroad arrangements. Lidval gave no satisfactory explanation

as to why Gurko was entrusted with a great contract without security for its prompt performance.

The prompt suspension of Gurko and the appointment of a non-bureaucratic commission to investigate the case has had a reassuring effect on public opinion. With the approach of the elections the , easures of the administration against the constitutional democrats are being sharpened. The party literature is being confiscated and its committees at Moscow and many other places have been driven to underground activity, such as bomb throwing. Leaders of the party claim that it is thriving under this repression, but it has lost considerable ground in the south by the withdrawal of the richer Hebrew elements, which are allied with the peaceful regenerationists.
