Where You See the Oldest Trees in the World

IMAGINE this if you can—3 square miles of forest, containing 3,000 trees measuring over 300 feet in height and 50 feet around. When you consider that every one of these trees is as high as the ordinary skyscraper of today, and that there are 3,000 of them in this one forest, you have only a vague idea of the sight before you as you ride among them and look up among their branches. Even these are larger than any tree near your home. Expert estimate places the age of these trees at 8,000 years. They were growing before the pyramids of Egypt were built. The
