Anti-Trust Main Trunk Pipe Line to Navigation Sure of Completion

141 miles already delivered and completed and pumping oil and paid for. Only 110 miles yet to secure to finish the Job. When completed will be longest independent interstate pipe line in the world. Will only take a short time to build the small balance yet to construct, and when completed will mean 80 cents per share for this dividend paying stock now offered to you at sacrifice prices in order to complete this pipe line without further delay. You simply cannot turn down an investment in this stock if you will give honest credit for true merit and tangible assets and dividend earning power back of this stock. On a conservative basis sales of manufactured oil will total over one-quarter million dollars during the next eight months. Dividends guaranteed on this stock will pay 12 per cent to start with on the investment at present prices. Over nine thousand loyal stockholders, representing every state and territory in the Union, besides Canada and foreign lands.

R IGHT at one million dollars cash presents the only formidable fee in actual, practical competition of the criminal oil trust in the Central West. With the effective guns of the federal government and thousands of other avenging influences closing in on the great criminal trust, an investor who does not see what a great opportunity this Uncle Sam giant independent organization has is certainly duli of comprehension. When completed, Uncle Sam anti-trust pure Missouri Valley Oil wagons will be patrolling seven states with 204 main distributing stations completed, from which we can reach six thousand smaller trade centers. At least two hundred more oil wells will be completed on the thousands of acres of Uncle Sam oil rights. Two great refineries built and in operation. Third refinery will be completed and in operation this month. Paraffine and jubricating plants being built. Twenty-five main distributing stations now completed. Nine carloads of tanks will be shipped to that many more by the time you see this announcement.

Dividend No. 2

Books Will Close Dec. 20

E QUIPMENT purchased for 43 more main distributing stations; 24 tank cars now in service. Deal pending for 26 more. Company paying as it goes. Will accept \$150,000.00 at this sacrifice price. Which, judging from past remittances, should be raised in 20 days. Now or never if you ever expect to help out this worthy enterprise in its fight for a square deal in the oil fields. Stock will be nearly doubled in price as quick as required amount is subscribed, and up to 80 cents, with pipe to river refinery screwed together. We solicit your investment in good faith, but you should remispromptly, for this stock is valuable, and we will not let any grass grow under our feet until every dollar needed is raised and the great plant completed, just as prom-

First Oil Pumped Over Pipe Line
Means 80 Cent Stock.

In less than four months you can depend on Uncle Sam pumping oil clear through from the big oil wells near Bartlesville, Okla, to the river refinery, Uncle Sam No. Z at Atchison. Any investor who can see as far as the end of his nose knows that the day this long stretch of pipe line see as far as the end of his nose knows that the day this long stretch of pipe line is completed and the great pumps commence delivering steady streams of oil to the storage tanks at this big refinery on the bank of navigation, that Uncle Sam stock will jump in the open market close to fil. 0 per share. With 151 miles of pipe delivered paid for and completed, there is not a single doubt but what the company with all its vast strength will secure and complete in a very short time the small balance yet to construct. Investments of nearly every kind are extremely high in the United States, especially real estate. Now oil is a necessity. People must have it to read by and keep warm. There are no chances to be run in an investment in the worth from three to five times the present selling price, while it is a splendid good investment even when it doubles in value. You cannot find another investment that will be worth from three to five times the present selling price, while it is a splendid good investment even when it doubles in value. You cannot find another investment that will be worth from three to five times the present selling price, while it is a splendid good investment even when it doubles in value. You cannot find another investment that the completion of this pipe line it will be worth from three to five times the present selling price, while it is a splendid good investment even when it doubles in value. You cannot find another investment that the completion of this pipe line it will be worth at least \$5.00 to you and pay you immense dividendy semi-annually. There are scores of stock-holders who have invested over \$1,400 esch and several as ligh as \$5,000.

Oil Sales Will Total Over \$250,000.

Oil Sales Will Total Over \$250,000. Every day this company is increasing in capacity to handle larger orders. Just a question of a few weeks until the average daily sales of oil will be better than \$1,000 day and on a conservative basis the sales of the eight months commencing December 1 will not miss one-quarter of a million dellars much. You are not buying hot air or blue sky. When you secure Uncle Sam stock, you are lining up with the biggest and most popular legitimate moneymaking enterprise in the Central West. Better sell that high-priced piece of real estate or call in that low interest loan or put that idle money you have in this great independent company and help out a worthy cause and help yourself very materially while you can at a price you know is right. This company owns or controls oil rights in thousands of acres which are almost sure to develop to be worth millions. The stock is certain to go at least 80 cents, with chances good to reach a dollar per share.

That the western oil fields are rich you can see ample evidence by a few days' ride through the oil fields. Uncle Sam Company has already secured some of the greatest producers in the Kansus Territory oil fields and will secure more. sales of the eight months commencing De-

Will Drill at Least 200 More Oil Wells.

This company now owns four complete drilling rigs. Does its drilling at cost. It has room on proved grounds for hundreds of wells. It could start ten drills any day in eight out of ten wells drilled, and possibly better. Oil producing wells are valuship better. On producing wells are valuable when you have refinerles, pipe lines and distributing stations, and a market to secure what the oil is really worth. No trust or combine can deprive the stockholders of Uncle Sam of their just dues. We are dealing with the general public, who are a thousand times more friendly who are a thousand times more friendly to our success. The company has endeavored to make friends from the word go, and is still doing its level best to give everyone a "square deal," and to secure more friends. In so doing it is piling up an asset the value of which is hard to estimate, for you cannot buy true friends with money, and through the many thousands of stockholdough the many thousands of stockhold-of Uncie Sam it means from ten to miy personal friends standing by each ckholder and means a fine market and r play for Uncie Sam anti-trust oil wag-whenever they may seek to deliver oil. With the river pipe line completed and with even four drills developing the company's oil rights, how, long will it take to double again the value of this stock? Sup-pose you only buy 1,000 shares at \$150; it will pose you only buy 1,000 shares at \$150; it will be a good saving for you and pay you big interest to start with, and the chances are that this very thousand shares will be worth \$1,00 to you in a few years.

Saving of Half Dollar per Barrel.

You may not realize the great value of completing the river pipe line, out it means a saving of a half dollar per barrel on every barrel of oil pumped over this line. There is no gamble, no guess, no line. There is no gamble, no guess, no risk about this kind of development, i'ncle Sam has a great refinery on the banks of

largest interstate independent pips in the world is completed and until 200 more oil wells are drilled and all the three refineries doubled in capacity, but joie the Uncle Sam band today by sending you, check or draft by return mail, for what you can spare 3500 will purchase 3,500 shares and the chances are a thousand to one it will be worth \$3,500 in less than two years.

Company Has Overcome Oil Trust Conspiracy, Rescule and Abuse

The Uncle Sam company is compelling the respect and consideration of people today who would not look at it on the start. Others were misied by would-be financial papers and a few boodle newspaper conspirators by their attacks against the company, and a few perjured hirelings writing for a few magazines and cortain newspapers which wear the oil trust railroad coliars, but their rantings have only helped this company and caused its friends to raily more to Uncle Sam's support until today there are over ten thousand stockholders backing this company and until over \$350,000 cash is now back of Uncle Sam, while over \$50,000 more is subscribed on glit-edged installment contracts. Now this kind of a line-up is certainly worthy your consideration. For no man with any sense at all can consistently say that such a showing is not a strong one—one that no other enterprise can cite you to, considering the rocky road traveled. On the other hand, we can tell you that there is not a single doubt but that every dollar of the \$150,000 fnat will be accepted at this sscrifice price will be quickly raised. After nearly two years, working nearly night and day to put this proposition through as promised at the beginning, overcoming ridicule and abuse and suffering injustice from blackmailers and trust hirelings, we know that it will be easy work to complete everything now, and if you fail to take advantage of the sacrifice price offered the public in this announcement you will hurt your own posketbook more than anything else. However, we will be glad to have you join our loyal band and whether you live in Callfornia or New York, or whether you invest \$15 for 100 shares or \$2,750 for thirty thousand shares, your interest will be faithfully furthered and dividends sent you semi-annually.

Dividend Number Two.

Every shareholder of record or who has mailed a remittance for slock before the lay closes Thursday, December 20, will carticipate in dividend No. 2 Books will be closed for dividend No. 2 on that day. be closed for dividend No. 2 on that day.

Now some wiselers and knocker and oil
trust hireling will say that this dividend
is not honestly earned, but it will be
just the same, and you can get it if you
act promptly, but won't if you don't. Furthermore you will secure another dividend every six months as long as you live and your heirs thereafter if you are wisc enough to buy Uncle Sam stock. Better get on the Uncle Sam pay roll now while you can. This dividend will be paid from the sales of oil produced from our own wells and manufactured into marketable oils through the Uncle Sam refineries now in operation.

This company was organised for the benefit of the stockholders and to break the grip of the oil trust. It has accomplished both. There is nearly a half million dollars of construction yet to be com-

ton dollars of construction yet to be llon dollars of construction yet to be com-pleted, but you will not have to wait for-ever to secure good interest on your money. From the sales of oil the company will secure funds to complete the pipe line, pumping plant, distributing station and other construction.

12 Per Cent and No Taxes

The dividends already guaranteed on the stock will pay you better than 12 per cent on the investment. When you stop to consider that you have no taxes it means a whole lot. The facts are that when it comes right down to brass tacks the stock

tributing stations, pipe lines and refineries, river navigation and general lineup of the Uncle Sam Oil Company as it will be in a year, by which time the company will be able to pay its stockholders at least 20 per cent yearly on the present investment and continue to increase the dividend thereafter.

It's no trouble to sell stock in a good company like Uncie Sam, for people are glad to invest in such an enterprise, so you should remit promptly, to secure present offer. present offer.

In Conclusion.

Uncle Sam company has, in addition to the two big refineries in Kansas, another refinery, No. 3, partly built, in the heart of the Okiahoma oil field at Tuiss, Okia. The refinery will start this month. It is also building a paraffine plant at Atchison by the refinery No. 2 and a lubricating plant at Tulsa by refinery No. 3. The company already has sites purchased in the ma-jority of the Oklahoma trade centers, and already has sites purchased in the majority of the Oklahoma trade centers, and Uncle Sam representatives will start to secure sites for Iowa distributing stations next week. Council Buffs and Omaha sites are already secured. The company, as before stated, is on a solid foundation, with everything practically paid for and thousands of dollars in cash on hand. Authorsands of dollars in cash on hand. ized capitalization is seventeen million shares, par value \$1.00 per share; sixty per cent of the stock is sold. Every share draws the same amount of dividend as any

other share.
There is about \$50,000 subscribed on There is about \$80,000 subscribed on stock already alloted from the treasury. The balance of the stock, when sold, will bring the company close to \$1,000,000. The company will do everything that is mapped out in enclosed map. With everything completed it will have strength and funds enough to force the criminal trust

Wyandotte Bldg., Kansas City, Kas

However, if you do not live in one of these states your money can be placed where it will rain like lead on a tin roof in this company's fight tor a square deal in the oil fields. If you wish to invest your money where it will bring you dividends and at the same time force the criminal oil trust to be decent or drive them from the home state line up with Uncle Sam and in another, especially against a foreign, they are this oid, arrogant bully trust, which has made its brags that it has corrupted has made its brags that it has corrupted for there is one good way to fight a trust and that is to refuse to buy their goods. Consumers in Western and Central Kansas, who, under oil trust manipulations for the past ten years, have been forced to pay from \$8 to \$11 per barrel for oil can now secure superior Uncle Sam on at the same for the past ten years, have been forced to pay from \$8 to \$11 per barrel for oil can now secure superior Uncle Sam on at this secured in the same time of the past ten years, have been forced to pay from \$8 to \$11 per barrel for oil can now secure superior Uncle Sam oil at the same time of the past ten years, have been forced to pay from \$8 to \$11 per barrel for oil can now secure superior Uncle Sam oil at from \$14.25 to \$4.50 per barrel, and at this \$250 shares \$
