Corn Receipts Are Moderate and Estimates Small,

New York wired: "The strength in corn and onts had not the slightest effect on foreign markets. We have seldom seen

on foreign markets. We have seidom seen least interest on the part of exporters."

The Modern Milier says today: "Reports from militing correspondents, covering the principal wheat producing territory, show that the average condition of the crop is high and that the acreage is fully as large as last year. Many correspondents report the condition higher than a year ago, few say it is lower. Damage so far has been immsterial and only by fly, where drouth delayed seeding. Principally in Kansas. Nebraska, Missouri and Illinois, the top growth of the plant in many localities is small, but is healthy, as moisture has been plentiful since the drouth has been broken. The root growth is strong. Every state has excellent prospects and the crop is in fine shape to enter the winter."

CHICAGO . GRAIN AND PROVISIONS Peatures of the Trading and Closing

CHICAGO, Dec. 7.—Higher prices for wheat at Minneapolis were reflected today in a firm tone in the local market, the May delivery showing a net gain of 1/2c at the glose. Corn was up 1/2c, oats were 1/2c higher and provisions were from 5071/2c to 1/2c higher.

one higher.

Continued lively demand for cash wheat by millers at Minneapolis and Duluth assued a further advance in prices at those points, and was the primary reason for a builtish sentiment that prevailed all day in the local market. Small receipts in the northwest because of bad weather also assisted in creating the local demand. A liberal decrease in shipments from Argentina for the week also strengthened the built feeling. During the decline early in the day there was some special pressure against the Harriman Pacifics, based on the proposed government investigation of the relations between the Union and Southern Pacific.

Scarcely any attention was paid to any other topic but the money situation. The market closed strong at the recovery and at substantial net gains on the day.

Foreign Financial.

LONDON, Dec. 2.—The supplies of money were scarcer in the market today owing to the repayment to the Bank of England. Discounts were firmer on the gold inquiry for American account. Trading on the Stock exchange was dull, with a sagging tendency, the prospective gold exports reviving the fears of monetary stringency. Console yielded fractionally to selling pressure, while home rails weakened on profit-taking. Americans developed moderate strength in the forenoon, quotations being over purity, but fears of dear money induced operators to reduce their commitments and the initial improvement disappeared. The advices from New York during the afternoon were not cheerful, but the market picked up later and closed steady at above the lowest quotations of the day. Foreigners were fairly steady. Japanese imperial is of 1904 closed at 101.

BERLIN, Dec. 7.—On the Bourse today prices were depressed owing to the high rate of interest charged for money in New York and the unsatisfactory return of the Bank of England.

PARIS, Dec. 7.—Business on the Bourse today was restricted owing to the tightness of money in New York. Russian imperial is were not quoted and the Russian bonds of 1904 closed at 495.00.

The disposition of the day's receipts was as follows, each buyer purchasing the number of head indicated:

Heef steers were sought after at fully steady and in some cases strong prices. The supply consisted principally of warmed-up corn-teds, so that there was nothing to put a top on the market and sales did not show up too well on paper.

Cows and helfers were also free sellers at good steady to strong prices and the small supply in sight was soon disposed of.

Feeders were also free sellers and it did not take buyers very long to pick up everything on sale. They, too, commanded fully steady prices and in some cases possibly stronger.

The tendency of the market this week has been upward under the influence of the demand and the very moderate receipts, so that prices are now considerably higher than they were at the close of last week.

BHEEF-There were not enough sheep here this morning to make a market, only four fresh cars being reported in and a few odds and ends carried over from yesterday. The demand was as good as usual and the few loads in sight sold very readily at good, atrong prices. The C. D. Houston wethers, which brought \$5.00 yesterday, sold today at \$5.00.
