COAL TRUST CASE LENGTHENS

(Continued from First Page.)

the stand and the printing of Kemp's plopreserve meant the protection of the last herd of elk on the Pacific coast, some 200 ture on the front page of the paper. Mr. Connell handed the court a copy of the paper for examination of the obtentionable matter and demanded a complaint The democrats in the house today opposed be filed and the reporter be excluded from the consideration of the bill conferring the court room. He declared the publica-United States citizenship on the inhabitants tion of such matter was interfering with Chairman Cooper of Wisconsin, under the the work of the court.

J. F. Stout also made complaint against call of committees, called the attention of the director of the same separate, declaring during the bill on the union calendar, insisting that its course of Kemp's examination he heard the proper place was on the house calendar. Kemp had been "fixed." He thought Kemp should be brought in and examined and the truth discovered. He protested against the inference contained in the remark.

Jury Does Not See Paper. County Attorney Slabaugh protested against the action of the attorneys for the sgainst the action of the attorneys for the defense and declared it was done merely for the purpose of prejudicing the rights of the state. He pointed out the jury is in confinement and no newspaper articles relating to the case had been allowed to reach their eyes. This being the case, he said, there was nothing to prejudice the case. Kemp, he contended, was the man to complain, and if the paper reflected on the coal dealers they had a remedy and should not try to use ti to affect this case.

Heated words passed between Attorney easure. The speaker sustained the protest EPIDEMIC OF FEVER AT DIETZ the coal dealers they had a remedy and should not try to use ti to affect this

Heated words passed between Attorney Stout and County Attorney Slabaugh when the former rose to reply. He had said only a few words when Judge Slabaugh started to break in on him. Mr. Stout

started to break in on him. Mr. Stout protested against being interrupted.

"Your honor," he said, 'he has been doing that continually through this case. If the court will turn me loose on him I will take care of myself, but I don't want to do anything without the permission of the court. I want to conduct myself in of the court, I want to conduct myself in of the court in the court. I want to conduct myself in of the court in the court. I want to conduct myself in of the court in the court. I want to conduct myself in of the court in the court in the court. I want to conduct myself in of the capital invested says expectations. to do anything without the permission of the court. I want to conduct myself in an entirely proper manner in this case."

Judge Sutton said the jury had not been allowed to see the newspaper articles in question or any other relating to the case.
"I don't wish to say at present whether this reflects on or interferes with the court."

I don't wish to say at present whether this reflects on or interferes with the court. dwelling houses. Dietz is not incorporated, this reflects on or interferes with the court or not. If I should direct the county atfor clerk hire and the requirement that tagion is due to unsanitary conditions torney to file a complaint it might in some way interfere with the progress of the case. I do not wish to be understood as saying I will do anything or will not do anything: I will take the matter under the secretary to the speaker is increased lation approximating 2,000, and is the advisement until after the close of the largest coal mine in this part of the north-

Connell Makes Many Motions. This was the only interesting incident at the morning session. Mr. Connell, for the terr iefendant, made a dozen or more motions relating to the dismissal of the case and certain counts in the indictment, but they were all overruled. He also asked the county attorney be directed to elect dpon which counts he will stand, but the court verruled this motion also for the present aying he would act at the close of the ase. The arguments on these motions took entf il o'clock. In making one ruling Judge sutton declared he would instruct the jury if there was any understanding that all the coal dealers agreed to follow one price, it made no difference how that price was 8 reached or arrived at, it would be in vioation of the law. After the jury was called in the hearing

of testimony was again taken up. The witnesses called by the defense were put on in rebuttal of the testimony of Fred M. Glute Thursday that members of the Coal exchange refused to sell him coal because he was not a member. C. S. Johnson, H. 8. Rhoades, formerly manager of the Wal. nut Block Coal company; C. A. Grimes, yard manager of the C. W. Hull company and M. Rosenblatt all went on the stand and swore they had never refused to sell Mr. Clute coal for any reason.

MEAT PACKING LEADS THE INDUSTRIES

Bureau of Immigration Shows Allen Arrivals of Over a Million During the Past Piscal

WASHINGTON, Dec. 7 .- The report of Secretary of Commerce and Labor metcalfe is in part as follows:

calfe is in part as follows:

The work of the bureau of manufactures has been prosecuted along the lines indicated in my last annual report and in accordance with the law, which requires the department, through this bureau, to promote and develop the various manufacturing industries of the United States and markets for the same at home and abroad by gathering, compiling, publishing and supplying all available and useful information concerning such industries and markets. During the year a large mass of information has been collected by the bureau in regard to the manufacturing industries of the country, having special reference to extending the sale of American products in foreign markets. Under the system followed the bureau is enabled to speedily reach any particular industry and promptly inform its representatives of any particular opportunities that are offered for the promotion of American trade. Commercial reports made that are offered for the promotion of American trade. Commercial reports made by American diplomatic and consular offi-cers are prepared for publication by this bureau, and through this means oppor-tunities are frequently offered for the sale of American manufactured products abroad. The possession of a classified list abroad. The possession of a classified list of manufactures enables the bureau to communicate directly with the parties immediately interested, and in a number of cases during the year information of the character described has been sent in advance to manufacturers, who have profited

Bureau of Corporations. The bureau of corporations has continued the work outlined in the annual reports of the commissioner. The results thus far obtained fully justify the creation of the bureau. Its investigations have furnished reliable information regarding the conduct and business of corporations engaged in interstate and foreign commerce. The facts presented as to the relation of such corporations to the states and the inability of the states to effectually curb the improper exercise of corporate powers lead inevitably to the conclusion that the federal government must directly regulate and control such corporations.

corporations.

Of the methods suggested for exercising this power the federal franchise plan seems the most feasible. This plan is simply to require the greater industrial corporations of the seems that it is a light or the seems that it is a light of th ply to require the greater industrial cor-porations to obtain a license from the federal government if they are to engage in interstate and foreign commerce. There would be no interference with the powers of a state over the creation of corpora-tions nor their actions wholly within the state. Under a license the federal govern-ment should require as a condition precement should require, as a condition precedent to granting the license, a full disclosure of all facts necessary to show the ownership, properties, financial condition and management of the corporation; furthermore, the corporation's records should be oned to proper in proper imprecion; annual rethermore, the corporation's records should be open to proper inspection; annual reports should be required; and, finally, the government should have the power to revoke the license and prevent the continuation of engaging in interatate and foreign commerce in the event the corporation falls in its obligations toward the government or is convicted of violating federal laws. Ordinarily the imposition of lines does but little to correct corporate abuses, but if the penalty be the denial of the right to continue business a most effective remedy is provided.

Bureau of Labor.

Bureau of Labor.

During the fiscal year ended June 30, 1906, the bureau of labor issued its twentieth annual report—that for 1906. The report, so far as relates to productive labor perfermed by inmstes of penal and reformatory institutions in the United States, is nearly exhaustive, as it includes all such matitutions except those in which the value of productive labor during the year was less than \$1,000. The chapter on penal and reformatory laws is exhaustive within the scope of the subject treated.

Bureau of the Census. Bureau of Labor,

the year. Computations to obtain the to-tals for the manufacturing census of 1906 tals for the manufacturing census of 1905 were completed in Angust; the state bulletins have been published, and many of the special industry bulletins will appear during the fall and winter. This important industrial census covers the year 1904. It was confined to establishments conducted under what is known as the factory system. Thus excluding the small shown as

phoyment on the average to the greatest number of wage carners, and the flour mill ndustry shows the greatest increase in the value of products.

New York, Pennsylvania, Illinois and

all wage earners enumerated, and contributing a gross value of products of \$6,627,263,120, or 38 per cent of all.

The average number of wage-earners
employed during the busiest months, Soptember, October and November, amounted
to 5,625,542 exceeding the average number
for the entire year by 155,221. Of the total
number of wage-earners 77.5 per cent were
men, 18.5 per cent were women and 2.8 per
cent children. The average number of
children employed in manufactures decreased from 161,275 in 1900 to 159,339 in
1966. A decrease in the employment of
children is shown for twenty-five states and
territories and an increase in twentyt-six.
The greatest number were employed in
the manufacture of cotton goods. Pennsylvania ranks first and Massachusetts
second in the employment of children in

there applied for admission, 12,432 of the United States 1,17,755 aliens, 12,432 of whom were refused admission, for causes which will appear in detail. Or those ad-mitted 1,100,736 were new arrivals and 40,818 mitted 1,100,736 were new arrivals and 40,818 which will appear in detail. Of those all mitted 1,10,735 were new arrivals and 6,845 resurned to this country after a temporary absence or were reported as aliens in transit, or tourists. This total of 1,18,755 represents an excess over the arrivals for the next preceding year of 152,395.

It is interesting to note the sources from which this large immigration comes. It has followed somewhat along the lines of increase during recent years, which has been derived principally from southern and eastern Europe. To the total of 1,105,72 aliens admitted to the United States during the last fiscal year three countries have contributed, approximately, 59 per cent. Thus, Russia furnished 25,935, Austria-Hungary 25,138 and Italy (including Sicily and Sardinis) 23,100. Those composing the remaining 21 per cent were distributed among the various other foreign countries, ranging from 69,491 from England to fifty-one from the Pacific islands. There were excluded from admission during the year a total of 12,522 aliens. The principal grounds of exclusion and the numbers, respectively, were: Paupers, 1089; contract laborers, 2,314; diseased aliens, 2,773; insane persons and idiots, 231; convicts, 305, and the remaining 20, lincluding 122 Chineso, were rejected for minor causes.

ICE CREAM DEALERS

Unless Government Changes Its Rule Price May Be Higher Next Summer.

LOUISVILLE Ky., Dec. 7,-The manufacture of vinegar, cider and syrup was taken up today by the United States com-

mission on the purity of food. Members of the commission evince no disposition to make concessions to the National Association of Ice Cream Dealers, whose representatives ask for a reduction in the standard of ice cream from 14 pcr cent of butter fats to 8 per cent and to allow the use of eggs, wholesome vegetable

gums, or natural flavoring ingredients. Unless the commission reconsiders the standard of purity regarding lee cream, it is possible that its price will advance. Ice cream manufacturers contend that the article as now made is far more palatable than lee cream manufactured according to government regulations.

Grand Jury Adjourns. SALT LAKE CITY, Dec. 7.—The federal grand jury, which has been investigating alleged coal land frauds and railroad discrimination, will adjourn this afternoon for the holidays, making a partial report. The report will consist of a number of indistruction.

Warehouse Convention Closes. ST. LOUIS, Dec. 7.—The concluding ses-ion of the American Warehouse associa-tens' annual convention was held today, the proceedings consisted principally of liscussions of subjects that had been introduced previously and held over as unan-ished business.
