Commission Will Make a Unanimous Report to the Legislature. NEBRASKA BANK RECOVERS JUDGMENT

(From a Staff Correspondent.) DES MOINES, Dec. 8.—(Special.)—There will be one report by the insurance legislative commission. Practically the only question that divides the commission is that of deferred dividends, but there are indications now that the commission will get together on this. The report will not be filed, however, till some time next week. The members of the commission have interpreted the law, which says that the report must be filed by December 1, as being directory and not mandatory. Chairman Jamison and Senator Bleakly hold to one extreme on the point of deferred dividends, while Representatives Kendall and Jones hold to the other idea of favoring annual distribution of dividends. Representative Clary occupies a middle ground in the matter. It is understood that the position of Senators Jamison and Bleakly is that of deferred dividends, and of annual distribution of dividends, and of annual distribution of dividends.
