

out we shall be rewarded according to our works. Some people think they can live a worldly life, be saved at the last moment and enjoy the same measure of reward as heaven as those who have given a life of service. What nonsense! Every day of service, every dollar given to God's work is just that much treasure laid up in heaven to be enjoyed through all eternity. The sooner a person accepts Christ the surer He will be to accept him. No person in this building is positive that he will ever have another opportunity. Who knows anything about the length of his own life? It is some man's opportunity comes at a certain moment and if they do not take it then their destiny is sealed forever, just as surely as if they were dead."

REVOLUTION IS CRUSHED

Polish People Feel the Iron Hand of Russian Military Rule.

INDUSTRIES OF THE LAND ARE IN RUIN

Spirit of the People Survives, However, and Plans Are Being Formulated for Electoral Campaigns for Their Rights.

WARSAW, Dec. 16.—Reports received from points throughout Russian Poland show that the government's policy of firmness has been successful in reducing the last of the smoldering sparks of the revolution. This result was accomplished by a terrible cost to the Polish people, the number of victims being estimated at thousands. Business has become stagnant, the trades and industries are bankrupt and the masses are dispirited and in a state of poverty. Reports today from Czestochowa, which is a typical Polish town with a population of about 50,000, including many Jews, show that seven so-called terrorists have been tried by drumhead court martial and executed in the last two days.

In the early part of last week five terrorists were tried, convicted and shot here, as also were three at Bieradz, near Kalisz, two at Tomaszow and one at Lonsa.

These executions have been going on so constantly throughout Poland generally, that it has become almost superfluous to repeat the daily chronicle of military executions.

Despite the depressing effect of this martial rule the Poles are busily engaged in organizing their forces for the next parliamentary elections. For the time being party differences have been forgotten and the national spirit has brought about a merger of the three great Polish parties—conservative, progressive and democratic.

SAILORES DEMAND THEIR PAY

Demonstration in Constantinople Greatly Alarms the Sultan.

CONSTANTINOPLE, Dec. 16.—A serious disturbance indicative of increasing discontent occurred here on Sunday. Several hundred time-expired marines from the naval arsenal made a mutinous demonstration in an old abandoned cemetery behind the American embassy, demanding their arrears in pay and their discharge from the colors. A number of naval officers unsuccessfully endeavored to appease the men, but were rebuffed and otherwise mistreated. A number of personal encounters resulted, and one officer, drawing his sword wounded three mutineers, while Vice Admiral Ahmed Pasha and his aide-de-camp from the naval ministry, were badly injured. After the demonstration had lasted three hours, an officer from the Yildiz Kiosk arrived on the scene with the Yildiz Kiosk and the men's demands would be granted, whereupon the gathering quickly dispersed and returned to quarters.

GUARD FOR VATICAN

(Continued from First Page.)

that the legislature of New York, or indeed any other state of this great and free republic should enact laws which are in violation of the principles of justice and equity. The French government has done this. In a word, the new law requires of the church the alienation of all its property to boards of laymen, in the selection of which it has virtually no voice; this board to have full control over the funds, and to elect and over the exercise of divine worship, and to appoint and depose bishops and canon law.

MISSOURI TO GO THE LIMIT

Experts to Confiscate Standard Property if It Wins the Ouster Suit.

WASHINGTON, Dec. 16.—Attorney General Herbert S. Hadley of Missouri, his assistant, Bush C. Lake, and John Robert A. Anthony of Fredericksburg, Mo., special commission appointed by the Missouri supreme court to take testimony in that state's suit against the Standard Oil company, based on the anti-trust laws of the state, arrived in Washington tonight and tomorrow morning in New York where, beginning Tuesday, further testimony is to be taken in the suit before Commissioner Anthony.

THE VALUE OF CHARCOAL

Few People Know How Useful It is in Preserving Health and Beauty.

Costs Nothing to Try. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

SOME DISTURBANCES IN PROVINCES.

PARIS, Dec. 16.—The serious disturbances that it was believed would ensue on this, the first day under the law separating church and state, were not realized. The services in this city in the morning passed off quietly. There was a notable increase in the size of the congregations and in the number of those who were present. There were a few cases where rowdies entered the churches wearing their hats and were promptly ejected and arrested.

Some Needs of Nebraska Towns

Norfolk. Gateway to the new northwest—the fertile fields of north Nebraska and southern South Dakota, as well as the mines of Wyoming and the Black Hills; headquarters for the Chicago & Northwestern railroad west of the Missouri river, a hub around which radiate steel ribbons in five different directions; the logical and actual geographical center of the northern half of the state, located in the center of the most fertile valley on earth and with retail, wholesale and manufacturing industries already established here, Norfolk is a city to be reckoned with.

Look at the map. Local Norfolk there among the network of steel rails that branch out from this hub for more than 150 miles to the northwest into the Rosebud reservation; seventy-five miles to the northeast to the Missouri river and Sioux City; 120 miles to the southwest, reaching Omaha; fifty miles to the south, touching Columbus; 500 miles to Deadwood, in the gold fields, and equally distant into the Shoshone mining region of Wyoming, with prospects for immediate extension of this line to the Pacific coast.

What more admirable location was ever given to any city for wholesaling and distributing? Where did man ever find a more advantageous point for manufacturing? The constant whistling of locomotives, approaching from and departing into all directions, tells the silent air and birds the real significance of Norfolk, and the field it fills. The territory of a second Chicago belongs to this thriving Nebraska community.

Here in Norfolk the Chicago & Northwestern railroad has its general superintending office for all lines west of the Missouri river; the assistant general superintendent for the same territory, and the division superintendent for the eastern division, to say nothing of its mammoth yards, roundhouse, repair shops, etc. What Norfolk is to the Northwestern railroad it can be to other industries.

First of all, Norfolk needs somebody to accept the now vacant sugar factory buildings and idle boilers as a gift. Anybody who is willing to bring the machinery and start the wheels of grinding sugar can get this Christmas present. Secretary Wilson of the Department of Agriculture says there is an opportunity in Norfolk. And there is. The American Beet Sugar company built a sugar factory here. For thirteen years the farmers raised beets and the plant made sugar. The farmers know how to raise the crop. But they lost faith in the factory. The factory refused to supply the institution. The farmers, realizing that the time would not return when the farmers would supply them, picked up their machinery, excepting nine boilers, and moved to Lamar, Colo. Nine boilers, and power each, and in good condition, still standing ready to be freed. The mammoth building is ready to be turned over to anybody who wants it.

ANDREWS ATTACKS THE ARMY

(Continued from First Page.)

shoes for \$4 and gave a \$10 bill, securing \$6 in change. The bill was found to be bogus and he took it back, giving another \$10 bill. At Verba's store he secured \$20 in change. The clerk did not notice, but what it was all right until the man had gone. The bills were of the old wild-cat currency variety and were issued before the war by a bank at Atlanta, Ga. He has not been seen since leaving Verba's store.

FAST TRAIN IN THE DITCH

Pennsylvania Flyer Strikes a Freight Train at a Crossing.

PITTSBURG, Dec. 16.—The train dispatcher at the headquarters of the Pennsylvania lines in this city informed the Associated Press tonight that train No. 28, known as the Pennsylvania Flyer, east-bound, struck a freight train on the Westinghouse & Lake Erie railroad crossing a few miles west of Canton, O., derailing both and slightly injuring the engineer and conductor on the flyer. No passengers were injured, according to the reports received here.

FORECAST OF THE WEATHER

Fair and Much Colder Monday, Tuesday Fair and Warmer, is the Prospect.

WASHINGTON, Dec. 16.—Forecast for Monday and Tuesday: For Nebraska and Kansas—Fair and much colder Monday; Tuesday fair and milder; for Iowa—Fair Monday and Tuesday; cold wave Monday.

OFFICE OF THE WEATHER BUREAU. OMAHA, Mo., Dec. 16.—Forecast of temperature and precipitation of temperature and precipitation of the last three years: Maximum temperature... 21 26 23 23 Mean temperature... 21 26 23 23 Precipitation... 0.00 0.00 0.00 0.00

will bring in machinery and, in good faith, go to work. The buildings will be loaned for an indefinite period—always if the contract is carried out, and will cost the manufacturer nothing. All that Norfolk wants is that the goods be delivered. It is a most extraordinary opportunity. It requires a man to take hold of the situation, but there is a big chance for doing things. Norfolk farmers last year, unsolicited, raised more beets and shipped them to Ames, than they had raised the last year the factory was here for the home territory. This shows that, up to their satisfaction, they will supply a factory. It can be done. A factory here would pay. All that is needed is a man, and Norfolk is in crying need of that man right now.

Then there's water power in Norfolk. The city is situated on two rivers. A large mill, making a cereal product and running electric lights, is utilizing some of the power. But lots of it goes to waste. A wholesale grocery house would pay in Norfolk. With an exclusive territory, to be reached by the Missouri river, Sioux City or Lincoln; a wholesale grocery house here would have an easy field to build in. Other wholesale houses are running and there is a field for still more.

A look at the map by investment seekers is sought by Norfolk, with its three railroads—the Northwestern, Union Pacific and Chicago, St. Paul, Minneapolis & Omaha. On from Honesty the Northwestern is now building a line of thirty-five miles to Gregory. This will broaden the field. Out from Shoshone the Northwestern is about to extend to the Union Pacific, and it is thought that it will build a line from Norfolk to Sioux City, connecting with the Columbus-Norfolk line. This will help. And the Yankton & Southwestern road, from Yankton to Galveston, and Senator Gamble of South Dakota behind it, will soon, it is announced, build through here.

Norfolk is a city of opportunities today. It is worth a glance. The United States government has shown its faith in Norfolk by establishing United States courts here. There are only four federal court towns in the state—Hastings, Omaha, Lincoln and Norfolk. We have a federal court house and post-office costing \$100,000—said to be the finest in America for a city of 5,000. Also, the federal government shows faith by establishing two United States depositories here—a distinction known to no other Nebraska city outside of Omaha and Lincoln. Norfolk has a daily paper with three editions a day, and five weeklies to print its news. A commercial club, a \$40,000 sewer system in course of construction, paved streets ready to be built next spring, beautiful homes, thirteen churches, six schools, a state insane hospital and one small jail.

exceed that of 1906. The report is that the Burlington railroad has set aside \$120,000 to build a magnificent depot and make some other necessary improvements. BEATRICE—The Dempster factory closed two weeks for the annual inventory. The machinery has been overhauled and the building in some departments repaired. BEATRICE—The report that chicken thieves have been plying their vocation with the greatest number of errors in the field as well as the batting and ranked by the highest averages being: Cleveland was second with an average of .90; Boston was last, with an average of .66.

CLUB FIELDING AVERAGES.

Table with columns: Club, Fielding Average. Rows include Cleveland (.92), Boston (.88), Philadelphia (.87), etc.

WITH THE BOWLERS.

Sunday afternoon, on the Metropolitan bowling alley, a match of bowlers of Metropolitan rolled another match of bowling. Matt's men took the first in the match, but were defeated in the second, and Beeslin's men had a walkaway in the third.

BEESLIN'S MIXERS.

Table with columns: Bowler, Runs, Wickets. Rows include W. F. Schneider, H. G. H. H., R. A. Schneider, H. Beeslin.

NEW YORK PAVEMENT SINKS

Dursting of Water Main Causes Alarm to Owners of Big Buildings.

NEW YORK, Dec. 16.—A strip of pavement twenty feet in width and extending seventy-five feet in Wall street caved in tonight, sinking from three to eleven feet below the surface. The depression was due to the bursting of a water main.

SPORTS OF A DAY.

FIELDING OF AMERICAN LEAGUE

Three Men Go Through Season Without an Error.

CHICAGO, Dec. 16.—Three players in the American league showed perfect fielding during the last season. They were Fritzie Griffith and Leroy of New York and Fred McGriff of St. Louis. McGriff, who played in seven games, led off in eleven, and finished with a batting average of .900. McGriff's batting average was as follows: First Baseman, Fritzie Griffith, .900; Second Baseman, McGriff, .900; Third Baseman, McGriff, .900.

FIRST BASEMEN.

Table with columns: Player, Team, Fielding Average. Rows include Crawford (.900), Donahue (.890), etc.

SECOND BASEMEN.

CALENDAR DEPARTMENT

P. F. COLLIER & SON, 40 West Thirtieth St., New York.

BE SURE AND READ COUPON

Will you like a copy of the new calendar of the Collier and Son? It is a beautiful and useful book, and will be a great help to you. It contains a full and complete list of the names of the members of the various clubs and societies in New York City. It is a book that every one should have.

SENATOR BAILEY CONFIDENT

Expresses Belief Not Over Fifteen Votes Will Be Cast Against Him. GAINESVILLE, Tex., Dec. 16.—Senator Bailey today issued the following statement: Answering numerous inquiries from my friends in this state that from letters and telegrams, and from signed statements in the newspapers by members of the senate and house, since my answer to Attorney General Davidson's statement, I count positively twenty-three members of the senate and three members of the house who are pledged to vote for me. Besides these voluntary pledges, I hear from reliable friends that twelve other members have declared that they will vote for me on a basis of 150 on joint ballot. I am perfectly satisfied, as I declared several days ago, that fifteen votes will be cast against me. The house numbers 123 and the senate thirty-six; total, 159; necessary to elect, eighty-six.
