Foreign Financial.

Foreign Financial. LONDON, Dec. 17.-Money was in moder-ate supply in the market today and the demands were brisk. Discounts were firm, owing to fears of further gold exports. Trading on the Stock exchange was of k smail volume. The approaching holidays, caused a heavy tone. British securities dropped, owing to lack of support, al-though the Bank of England secured \$2,500,-009 in gold in the open market. Americans opened steady and hardened to over parity, but profit-taking caused a setback at about noon and the market became dull. Later the New York advices caused a weaken-ing of values and the close was weak at a shade above the lowest quotations of the day. Chicago, Milwaukes & St. Paul re-sisted the decline and finished steady. Foreigners were dull. DeBeers showed the most strength among the mining secur-ties. Japanese imperial 50 of 1904 closed

today was quiet and the transactions were limited.

CATTLE-Receipts of cattle this morning were about the same as on last Monday, close to 3% cars being reported. Trains, however, were very late in arriving at the yards, so that it was pretty well along toward mid-day before the receipts were all in. Af the same time that receipts were large at this point, Chicago and other mar-kets as well fad big runs, making the sup-ply at the leading markets larger than re-quired at the present time. As noted be-fore in these columns, the demand just previous to the holiday season is limited more or less to the better grades. The fact that a very large proportion of the popula-tion induiges in pouitry during the holiday season cuts off a good deal of the consum-ing demand for beef, hence the demand for the general run of medium to fair beef cattle is much smaller just before the holidays than usual. The receipts at this point consisted of a world of warmed-up half-fat grades and as trains were late, as noted above, the forenoon was well advanced before any business of consequence was transacted. When buyers did get down to business the trade was slow. They picked out some of the cattle that just happened to suit them at prices that were not so much lower, but the general market might be described as dull to 10c lower. The yards were full of cows and heifers, but the trade on that kind of cattle was dull to 10c lower. The yards were full of cows and heifers, but the trade on that kind of cattle was falso alow and the market was dull to 10c lower throughout. The lower prices pre-valling at Chicago naturally had a great influence on the market at this point. Guite a good many feeders were carried over in the hands of speculators, so that the demand for fresh eupplies this morning was not as brisk as usual. Buyers seemed to have use for a few good cattle, but were very much inclined to neglect any-time else, so that there was leas life and activity to the feeder trade shan for some lift the time back. Hest grades were 10c lower, with others loc lower. Representative sale

Workmen Approach Entombed Miners

Workmen Approach Entombed Miners BAKERSFIELD, Cal., Dec. 17.-Hicks, the entomber miner, passed a fairly com-fortable night. The noise of the miners tearing down the granite wall increases as the place of his confinement is reached. Only four feet were torn away last night, despite unceasing work. Fourteen feet now remain to be tunneled instead of twelve, as reported last night. Hicks was fed at an early hour and again three hours later.
