HEAVY LIQUIDATION THE MAIN CAUSE

That There is No Greater Response to Selling in Due to Covering by Shorts-Corn Market Dragging.

OMAHA, January 3, 1907.

OMAHA, January 2, 1907.

The liquidation in wheat was heavy and prices declined he of a cent. That the market did not show more effect of the heavy selling was due to the covering of shorts. Foreign markets were weak because of large offerings from Argentina. The Russian situation, generally favorable, remains unchanged. There is some talk of a demand for flour from China and Japan. Corn acts weak, but closed unchanged, refusing to sympathize to any extent with wheat. Receipts were larger than last year, but cash prices held steady. Primary wheat receipts were \$08,000 bushels and shipments 21,000 bushels, against receipts last year of \$44,000 bushels and shipments of 146,000 bushels and shipments of 186,000 bushels and shipments of \$40,000 bushels. Clearances were \$22,000 bushels of wheat, 240,445 bushels of corn. 2,750 bushels of wheat, 240,445 bushels of corn. 2,750 bushels of wheat, 240,445 bushels of corn. 2,750 bushels of wheat and unchanged on corn.

Says the Price Current today: "Normal winter thus far; growing wheat maintaining excellent condition; corn slow in drying out; live stock wintering well. Packing, 490,000, against 510,000 last year."

A cable came from Buenos Ayres saying: "Damage to wheat less than at first reported, quantity large, quality good compared to last year. Shows increase of 10 per cent."

pared to last year. Shows increase of 10 per cent."

The shrinkage in the Minneapolis flour output last week was 115,000 barrels, as estimated by the Northwestern Miller. With Christmas failing on Tuesday all the mills were idle for two days. The quantity of flour turned out was 190,877 barrels, against 112,980 in 1905 and 185,150 in 1904. This week the mills are working on a normal basis and a heavy gain in the output is certain. Minneapolis mills had a dull trade in flour, and shipping directions came in slowly on old business. An exception to the rule was one Minneapolis mill, which made good sales. Export business was impossible with most mills. However, a few sold considerable patent in United Kingdom markets.

the northwest, which contained the assertion that only 38 per cent of last year's crep of sering, wheat has been marketed, was the club used by the bears in pounding down prices in the wheat pit. Larger and cheaper offerings of Argentine wheat at Liverpool made another factor for lower prices. Throughout the day offerings were very heavy, many local and outside longs being active on the selling side. Numerous stop-loss orders came out as prices declined and still further increased the weakness. The main support came from shorts. The market closed decidedly weak, with prices close to the lowest point of the day. May opened is to increased lower, at 75% c. 80d at 75% c. and then declined to 75% 675% c. Final quotations were at 75% c. Clearances of wheat and flour were equal to 351,000 bushels. Primary receipts were 808,000 bushels, against 644,000 bushels for the same day last year. Minneapolls, Duitth and Chicago reported receipts of 513 cars, against 633 cars last week and 433 cars one year ago.

Trading in corn was quiet and trading was easy as a result of selling by cash houses, which was based on the prediction of a cold wave throughout the corn belt. The drop in temperature, it was claimed, will facilitate the crop movement and also aid in the curing of the new crop. The market closed steady. May opened a shade lower, at 43%, sold between 43% c and 4346 d3% c. and closed at 43%, 643% c. Local receipts were 430 cars, with 4 of contract grade.

Oats were easier and the volume of trad-

Grade.

Outs were easier and the volume of trading very small. Weakness of wheat caused some sciling by pit traders, the offerings being taken by cash buyers. May opened unchanged, at 26%c, sold off to 38c, and closed at 36%(36%c. Local receipts were 208 cars. Provisions were firm on buying by each houses and local packers, the demand being based on a 5970c advance in live hogs. Seiling was chiefly by longs. At the close May pork was up 5c, at \$16.874, Lord was up 24c, at \$0.524. Ribs were 74c higher, at \$8.95.

Foreign Financial.

LONDON, Jan. 3.—Money was plentiful and in fair demand in the market today. Discounts were weaker. Trading on the stock exchange was fairly active, but the tone was somewhat irregular. Some home rails and first-class securities yielded to realisations, while consols hardened on the easier rates for money and the better bank statement. They declined later, owing to profit taking. Americans were rather despondent at the opening, but light purchases during the forenoon lifted prices to a fraction over parity, but the support slackened and values eased. The receipt of the New York opening prices caused moderate fluctuations and the market closed irregular after a small amount of business. Foreigners were steady, in sympathy with continental advices. Kaffira were easy. Copper shares, with the exception of Rio Tintos, were in good demand. Japanese imperial as of 1906 closed at 1014. PARIS. Jan. 3.—The tone on the bourse today was unchanged. Russian imperial as closed at 77.59 and Russian bonds of 1904 at 496. Foreign Financial.

at 496. BERLIN, Jan. 3.—The tone on the bourse today was irregular. Bank of Germany Statement. BERLIN, Jan. 3.—The weekly statement of the Imperial Bank of Germany shows the following changes: Cash in hand, decreased 70,660,000 marks; treasury notes, increased 1,260,000 marks; other securities, increased 129,380,000 marks; notes in circulation increased 294,940,000 marks. tion, increased 294,940,000 marks,

WASHINGTON, Jan. 3. — Today's statement of the tressury balances in the general fund, exclusive of the \$150,000,000 gold reserve, shows: Available cash balance, \$232,860,387; gold coin and bullion, \$106,355, 985; gold certificates, \$50,225,920.

OMAHA Jan. 3.—Bank clearings for today were \$1,948,569.49 and for the corresponding date last year \$1,696,754.74.

Metal Market.

NEW YORK, Jan 3.—METALS—There was a sharp break in the London tin market, with spot quoted at £188 and futures at £188 hs. Locally the market was weak and unsettled, with spot quoted at \$41.009 1.39. Copper was lower in London under liquidation, apparently, with spot quoted at £100. Locally, however, the market continued strong, with lake quoted at £34.00924.25; electrolytic, £23.75 (£24.00; casting, £23.50922.75. Lead was unchanged at £6.006.25 in the local market. The English market was firm, with spot quoted at £6.006.25 in the local market. The English market was firm, with spot quoted at £6.006.25 in the local market, standard foundry being quoted at £9 15s. Locally the market was firm, with spot quoted at £6.506.25. Iron was lower, in common with other English metal markets, standard foundry being quoted at £68 5d and Cleveland warrants at £60 19d. Locally the market was unchanged, with No. 1 foundry northern at £55.252.55; No. 2 foundry northern, £25.50627.50; No. 1 foundry southern, £25.50627.50; No. 2 foundry southern, Metal Market.

FIGHT IN BOARD OF TRADE

Control of Organization is Attempted by Three Stock Holders.

MOVEMENT TO FRUSTRATE THEIR PLANS

New Set of By-Laws Proposed Allows Proxy Voting and Holding of More Than One Share of Stock.

A fight to prevent H. E. Palmer, E. M. Moraman and Thomas Kilpstrick from securing legal control of the Board of Trade, which owns and operates the Board of Trade building at the southwest corner of Sixteenth and Farnam streets, will be made at the annual meeting of the organization Monday afternoon. The opposition will rally its forces to de-

feat the adoption of a new set of bylaws which has been proposed and which differs from the old set in that it allows voting by proxy and fails to prohibit the holding of more than one share of stock by any one man. Captain Palmer, Mr. Morsman and Mr.

Fair to good stockers Kilpatrick are said even now to absolutely control the affairs of the corporation, one

Those opposing the new bylaws will attempt to get out as many votes as pos-

sible. The Board of Trade building is a profitable investment. When the board was organized, more than twenty years ago, and when it performed the functions of a commercial club, shares were sold for \$150 each. The property being at the business center of the city, its value has increased until each share is said to be actually worth \$1,000.

COLORED SOLDIERS REJECTED Members of Twenty-Fifth Refused Re-Enlistment Regardless of Desire for More Men.

Twenty-nine recruits were obtained for the United States army at the Omaha station during the month of December and many applications were rejected during the

equivalent for re-enlistment. Another applicant from Company B, Twenty-fifth infantry, who was at Bronwsville, but was honorably discharged before the order for the discharge of the battalion "without honor" for participation in the Brownville affair, was refused enlistment, though his discharge bore an excellent character.

Of the twenty-nine recruits for the month five applicants were received from Lincoln. Sloux City, which are substations of the Omaha office. At the Omaha office alone only thirteen recruits were accepted out of sixty applicants.

The same rules still prevail regarding the rigid physical requirements of recruits. They merely apply for enlistment at Omaha, and if found physically qualified are sent to Jefferson Barracks, where they are subjected to an additional physical examination and then formally enlisted if accepted. The War department has sent out word

all along the line to make extra efforts to secure suitable material for the army and additional substations are ordered established where it may be found possible to secure available recruits. Men are enlisted at the Omaha station and substations for all branches of the

service, the recruits being permitted to select the branch of service they prefer. BONDING AGENT AFTER GRIER Representative of Company Comes to

Investigate Shortage of Former Police Court Clerk. A representative of the United States Fidelity and Guaranty company arrived in Omaha Thursday noon from Baltimore to investigate the alleged shortage of Lee Grier, who was checked up short by City Comptroller Lobeck in the sum of \$3,100. The alleged shortage covered a period of

three years of Grier's service as clerk of the police court.

The bonding representative reported to the office of B. L. Baldwin & Co., local agents. Until Mr. Grier had been consulted no information would be given out doncerning the probable action of the bonding company.

A few weeks ago Comptroller Lobeck sent a detailed statement of the alleged shortage to the home office of the bonding company.
