## RAINFALL DOES DAMAGE

Kentucky and Indiana Are Now Suffering  
from High Water.

## SCHOOLS SUSPENDED IN ONE COUNTY

Railroad Traffic is Interrupted in  
Both States and Patoka River  
Out of Banks Floods  
Water Works.

LOUISVILLE, Ky., Jan. 4.—Traffic on all  
railroads operating in the western section  
of Kentucky and on several lines in other  
parts of the state is demoralized as a  
result of heavy rains. The creeks and rivers  
in the southern and western portions of the  
state are out of their banks. In and around  
Henderson the Illinois Central, Louisville &  
Nashville and Henderson railroads tracks

are under water so that trains cannot pass.  
Many trains have been annulled entirely.  
The rain was general even in the eastern  
section of the state until today, which has  
brought clearing and much colder weather.  
The biggest rise in years in the Ohio  
developed over night, when a boom that  
one time seemed to portend a flood stage  
developed. For a time the river rose at the  
rate of a foot an hour. This morning the  
official gauge registered sixteen feet eight  
inches on the falls, nineteen feet in the  
canal and forty-four feet two inches at the  
foot of the locks. By noon the rise was  
checked somewhat, the increase being at  
the rate of four inches per hour.  
UTICA, N. Y., Jan. 4.—Constant rain  
falling from yesterday morning until this  
morning in the Mohawk valley has caused  
the Mohawk river to rise to flood stage and  
exceeding high water prevails throughout  
the valley. Trains on the New York Central  
railroad are delayed today because of  
flood conditions and it is said that all passengers  
trains will be from one to two hours  
late. The water is still rising. Two high-  
way bridges over the new channel of the  
river at this city have been carried away.

The rainfall for twenty-four hours was  
2.25 inches or considerably more than the  
rainfall of any one day during 1906.  
TERRE HAUTE, Ind., Jan. 4.—High  
waters and threatened floods are reported  
from different parts of southwestern Indiana  
along the Wabash and White rivers.  
At Taylorville, opposite this city, the bot-  
toms are under water and the 700 in-  
habitants of the town began moving out  
today. At the confluence of the Wabash  
and White rivers in Knox county the low-  
lands are under water, with the rivers rising  
two inches an hour, and farmers are fleeing  
with their families.  
PRINCETON, Ind., Jan. 4.—Fifteen  
schools in Gibson county have been closed  
by the high waters. Nearly one-third of  
Wabash township is under water. The  
water is in several school buildings. The  
Patoka river is at a standstill. The pump-  
ing station which supplies this city with  
water has been closed, the water having  
risen above the machinery.

## MIKE KELLEY IS AN INELIGIBLE

Jefferson Davis of Base Ball Con-  
trolled by St. Louis.

Mike Kelley may be called the Jefferson  
Davis of base ball. As the president of the  
defunct confederacy was a man with-  
out a country, so the ex-St. Paul-Minneapolis  
manager is a player without a league  
or without a legal status in base ball. His  
case is far from settled, though his recent  
expulsion as a result of the umpire episode  
did seem to put a finality to it. A new  
aspect was given the case in President Dan  
Johnson's decision that Kelley was an  
ineligible player, not free to sign where he  
pleased. Johnson holds that St. Louis  
actually controls Kelley, but that that  
team would be unable to sell him or allow  
him to play with another team. And Kelley  
persists in saying he will not play with  
the Browns.

Topeka is rejoicing over the action of  
the managers of the Western league in  
drafting Topeka and St. Joseph in order  
to give an eight-club league, and Topeka  
says aside all doubt as to that plan being

actively carried out. After telling of the  
segment in the Kansas capital, a corre-  
spondent to the Sporting News quotes Dick  
Cooley, the veteran, who is still manager  
of the Topeka team, in this wise:  
"I feel very much satisfied over the action  
taken by the Western league managers. We  
have been making a single handed  
fight to shake off the smaller towns in  
this league and get into the company in  
which we really belong. Ever since I  
have taken hold of the Topeka team our  
aim has been to give Topeka the best ball  
we possibly could, and we realize that in  
when led the Western league in the matter  
of working for our own interests we are  
also advancing the interests of Topeka as  
a ball town, which deserves and will get a  
high class team."  
"We will have a first division team in  
the Western league next season without a  
doubt. Of course, there may be a hitch in  
the plans, but it is hardly probable we will  
have a harder lot to contend with next  
season and I am of the opinion that although  
we will be in faster company yet we will  
be able to get together a team that Topeka  
will be proud of."

Bob Ganley is back with Cantillon, not  
Mike, but Joe. Cantillon took the surly  
little rebel from Pittsburgh. Fred Clarke  
conceded his skill and powers as a fielder,  
base runner and batsman, but objected to  
the task of trying to manage him. Ganley  
is one of the tough necks. Ganley once  
played for Cantillon at Milwaukee and led  
the American association in batting and  
running. He then jumped to the local  
club, where he was paid \$100 a week, but  
Cantillon afterward got him to return  
and play for the Des Moines club, and he  
then led the Western league in hitting and  
running the bases. Cantillon thinks Ganley  
is a great ball player in every way, and be-  
lieves he will prove a pillar of strength to  
the Washington club.

The fifth annual Ormond-Daytona beach  
program is of interest to owners and  
makers of fast motor cycles, for the Flor-  
ida East Coast Automobile association has  
decided to include three free-for-all events  
in its program. The events will be held  
also be given opportunities to go after  
time records and will be timed by the  
electric timing device which has been  
successfully employed in the two last  
years. Given such splendid conditions as  
exist on the famous Florida beach, and it  
is confidently expected that foreign records  
will be set down in the coming season. The  
prediction is made that some of the motor  
cycles will be dangerously close to a mile  
in forty seconds. Entries for these events

will close with "Senator" J. W. Morgan,  
Breehan hall, New York, on January 12.

## WITH THE BOWLERS.

The Life Mails won two out of three  
games from the Omaha Bicycles. Seaman  
of the Life Mails was high on his team  
with 86, and Nelson, after being laid off  
for six weeks, got in the game last night  
and did well. Young Sutton is getting there  
with the goods and everybody thinks he  
will make as good a bowler as his brother  
is a billiard player. Key of the Bicycles  
started out with a 236 game and followed it  
up with 264, but fell down in the last to  
172 with a total of 912. Score:

test at the Omaha Requet club will be  
played this evening at 8:30 o'clock, at the  
club house. The play will be in class A.  
Ladies are invited.

Bad Want-Ads produce results.

## MEN

When your health is concerned don't  
play at a game of chance. Don't experi-  
ment with uncertain, dangerous, half-way,  
or free treatment schemes, or quack cures,  
delusions, or anything that savors in the  
least of experiment or chance, or that  
which is calculated to deceive you into  
the belief that you are going to get some-  
thing for nothing. Always go to respon-  
sible, skillful specialists.
