## WOMAN'S WORK IN THE WORLD

Third Biennial Report of Nebraska Public Library Commission,

MUCH OF INTEREST TO WOMEN IN BOOK

Work of the Traveling Library and How it Adds to the Commercial Life of Rural Districts in Nebraska.

The third biennial report of the Nebraska Public Library commission has been issued and includes much of interest to club women and others who have con tributed to the success of this very valuable institution. The following brief summary of the work of the commission gives an idea of its value to the state

The 106 traveling libraries have made 429 trips, visiting 177 places in 69 countles; 4,342 volumes have a reported circulation of 32,-780. Three new permanent library stations have been established, making fifteen in all, and 1,230 volumes have been sent as car "Ienza" for a six weeks' trip to Meg. special loans to 143 places. The establishing of permanent library stations has been the work of a number of clubs of the state. By the payment of \$40 for one traveling library a community gains the privilege of having a succession of traveling libraries for five years. The demand for special loans is becoming more and more frequent, and the commission is meeting it just as far as possible. These are the requests from students for material or reference works on special subjects. Club women, teachers, high school students and debaters, all make these requests, and, thanks to the courtesy of the state library and the state university library, the commission has been able to supply most of

> Help for the Ambitions. Great effort is also being put forth by the commission in behalf of school libraries. In many towns money has been raised in various ways to buy books and then the commission is consulted regarding the selection of books. A graded list of 500 books suitable for school libraries has been ompiled and is freely circulated among teachers, and Miss Charlotte Templeton, secretary of the commission, has frequently addressed teachers' institutes and normal schools, and a great deal of correspondence has been done. "In a rural state like Nebraska," says the report, "where towns are small and a long way apart, the district school library must often take the place of a public library and furnish reading not only for the children, but for the young people who are out of school and the fathers and mothers as well. Teachers and superintendents are very generally awakened to the great possibilities in a well selected collection of books, and the past two years has seen a period of great activity in building up school libraries."

> The total addition of books during the last two years has been 1,022 volumes, 912 of which have been acquired by purchase by the commission. Y. W. C. A. Reception.

The largest social affair of the year planned by the Young Women's Christian association, aside from its two annual receptions, is the reception to be given Monday evening, January 7, in the association rooms in the Paxton block, by the members of the gymnasium committee. About 150 invitations have been extended and the members of the committee will act as hostesses. The committee includes Mrs. A. W. Bowman, Mrs. Alex Buchanan, Mrs. A. W. Jeffris, Mrs. G. F. Gilmore, Mrs. Charles Power and Mrs. Edward Johnson. Refreshments will be served and a program will be given. There will be a plano solo by Miss Alice Pritchard; a vocal solo Miss Alice Gates; a reading by Mrs. Emma

F. Byers, and a general talk on gymnasium

work by Miss Florence Dennison, physical

director. Mrs. George Tilden, chairman of

the building committee, will speak of the

gymnasium as planned in the new building.

Mr. Carl Potts, Mr. Guy Howell and Mr. These wafers contain as their main ingredient, the most thorough, quick and effective blood-cleanser known, calcium sulphide.

Most treatments for the blood and for skin eruptions are miserably slow in their results, and, besides, many of them are poisonous. Stuart's Calcium Wafers contain no polson or drug of any kind; they are absolutely harmless, and yet do work rooms in the Paxton block. A program will which cannot fail to surprise you. They are the most powerful blood purifier and skin clearer ever discovered, and they never derange the system.

No matter what you suffer from pimples, blackheads, acae, red rash, spols, blotches, rash, tetter or any other skin eruptions you can get rid of them long before other treatments can even begin to show results.

Don't go around with a humiliating disgusting mass of pimples and blackheads on your face. A face covered over with these disgusting things makes prople turn away from you, and breeds fallure in your life work. Stop it. Read what an Iowa man said when he woke up one morning and found he had a new face:

"By George, I never saw anything like it. There I've been for three years trying to get rid of pimples and blackheads, and guess I used everything under the sun.
