FORGER SUSPECT WANTED IN DENVER

Oscar Prints, Who Tosses Friend Through Plate Glass Window, Charged with Mallelous Destruction of Property.

After waiving preliminary examination in police court Tuesday morning William colored, was bound over for trial Jackson, in the district court under bond of \$500 on the charge of breaking and entering the apartments of Mrs. E. Jordan at the Normandle flats, where he is alleged to have stolen a gold watch. The watch was found in a pawn shop and Jackson was identified by the pawnbroker as the man who had pawned the watch. Mrs. Jordan failed to identify Jackson as the thief, although he had been seen in the flats and had said he was there to beat some rugs. Jackson is also believed to be the man who robbed the apartments of Judge Benjamin S. Baker and stole diamonds and jewelry valued at \$300.

and spectacular in business is bound up in the one word, SALESMANSHIP. It is the ideal occupation for the young man. It offers more chances of success, greater fruits of victory than any other field of work. The earning power of salesman is limited only by his ability to sell goodsand salesmanship is only the development of your powers of concentration, your ability to reason, to persuade the use of logical thought and convincing argument. All this can be taught, taught as easily, carefully and thoroughly as bookkeeping, stenography or any other business profession. SCIENCE vs. LUCK There may be a few "born" salesman, in the sense that some men have more natural adaptability than others, but it is the carefully trained man, the deep thinking man, the man who has studied the "whys, hows and wherefores" of his

calling that continues to bring in business and makes his selling ability the ground work of a permanently successful career. The "natural" salesman may forge to the front spasmodically, just as the spectacular soldier may carry the isolated fort by his beilliancy of dash and courage. It takes more than mere dash and "go" to keep on winning forts and orders. It takes the brilliancy of a Sheridan and the dogged penistence of a Grast to win permanent victory. It is the determined, deep thinking, far-seeing General who cuts the notches on the winning stick, no matter whether the notches mean victory on a battle-field or profits in the cash drawer.

No matter how little natural ability you have, you can develop your persuasive powers, your will power, your ability to convince others. Take a moment to look over your future in perspective. What does it offer you? Are you engaged in work now that suits your tastes and ability? Have you free play for your ambitions? Are you held back by lack of opportunity from making a name for yourself? Don't you want to break the cords that are binding you and be somebody?

THE SHELDON METHOD is the only practical, complete and rational system of de-veloping the science of selling and business building. It

required nearly a million dollars to promote this wonderfully successful system and spread its teachings. It work of Mr. Sheldon is being felt in every country on the globe. Body Just Created by the Commissloners, Also Rule to Place Three Men on Each Committee.

The Board of County Commissioners met Tuesday morning and reorganized for the officers. Luther Drake is president, Frank coming year by electing E. G. Solomon chairman to succeed Fred Bruning. A new committee-that on claims-was created and Copuniasioner Trainor was chosen as its Coad, G. S. Rogers, Frank P. Hamilton chairman. In reorganizing the committees the board adopted a new rule. Heretofore each committee has had two members be sides its chairman. During the coming year each committee will have four members in addition to the chairman. That is, all the commissioners are members of all the nmittees, there being five commiss Chairmen of the several committees were

elected as follows: Claims, Trainor; finance, Ure; judiciary, Bruning; court house and jail, Kennard; detention school, Kennard; charity, Bruning; county hospital, Trainor; roads, Ure; bridges, Trainor; construction, Bruning.

In thanking his colleagues for their sedent; lection of himself as chairman, Commis sioner Solomon referred to the flourishing financial condition of the county. He pointed out that \$4,900 had been turned over by the county judge as excess fees of that office for the year and that \$5,500 had been turned over from the office of the county register of deeds. Other offices, he said, had very encouraging reports to make. He declared that the detention school ought to be provided with a permanent home, and that an addition should be built to the county hospital for the accommodation of juvenile and of insane prisoners. Or, he said, a better plan would to immediately provide plans for the erection of an entirely new court house and jail. The board, he said, must move with conservatism and keep the tax levy to the lowest possible figure.
