UNION TO RESIST INIMICAL RATES

Railroad Continues in Its Fight on Omaha and Its Discrimination in Favor of Kansas City.

It is evident the commercial interests of Omaha do not intend to allow the position of Kansas City with regard to the grain territory of Nebraska to pass unchallenged.

Commercial Club of Omaha—Omaha Grain Exchange—Omaha, Jan. 8, 1930.—Confidential to Our Members: On January 1, 1927, the rates on grain from Omaha and Kansas City to Memphis, Tenn., were advanced 1 cent per bushel.

The occasion for the circular is said to have been an open board of Kansas City directors.

At a meeting of the transportation department of the Kansas City Board of Trade, in an article January 1 in the Daily Telegraph.

The arrangement mentioned above has not yet been extended to cover all of the producing territory.

A meeting of the transportation department of the Omaha Grain Exchange was held to consider this declaration of policy.

A member of the Grain Exchange quotes a high traffic official of a big railroad as saying recently on a visit to Omaha:

The Kansas City grain market has been the beneficiary of the railway discrimination ever known and its growth is based upon that discrimination.

COUNTY AND CITY ICE BIDS

Commissioners Hold Up and Council Rejects Proposals for Supplies. OFFICIALS SAY PRICES ARE EXORBITANT

Ice Dealers Sing Their Favorite Ditty: "What Will the Harvest Be," and Mayor Promises Things.

The 1930 ice situation is engrossing the minds of those who have to do with letting the city and county ice contracts for the year.

During 1926 the People's Ice and Coal company supplied the county jail and court house ice under a contract of 34 per ton.

The strenuous session of the United States equity court under Judge Trieber in December is still remembered by many of the attorneys, who had cases before him.

When Ice Cream is Genuine. Effect of Pure Food Law Discussed by Dealers in This Connection.

Just when ice cream is ice cream under the pure food law is a question that is being discussed among the local ice cream manufacturers. WOMEN ON HEALTH CRUSADE

Confer with Dr. Connell on Abuse and Correction in Food Supplies. DAIRYMEN FIRST TO FALL UNDER BAN

Household Economics Department of Woman's Club Will Keep Tab on Milkmen Worthy of Patronage.

City Health Commissioner Connell presented before the household economics department of the Woman's club Thursday morning a few facts concerning some exciting conditions in Omaha that have aroused that group of conscientious housewives to the necessity of doing something.

Other Vital Matters. So much for their plan of war on offending dairymen, but the matter of meat and milk inspection outside vaults in thickly populated portions of the city and a few other things present a more difficult problem.

It was decidedly personal information that the women exacted from Dr. Connell regarding the relative standing of the various dairies and creamery companies, the official record of them, and as the meeting was largely attended and the women very much in earnest, some change in city ordinances governing sanitation in the city not only inadequate, but some of them an actual handicap to the health department accomplishing anything.

There was also further discussion of gas bills, which the women generally pronounced increased since the reduction in the cost of gas.
