

DUN'S REVIEW OF TRADE

Business Returns Are Irregular Because of Erratic Weather.

FREIGHT BLOCKADE PARTIALLY RELIEVED

Merchandise Collections Are Prompt and High Temperature Greatly Facilitates Building Operations in East.

NEW YORK, Jan. 11.—R. G. Dun & Co.'s Weekly Review of tomorrow will say:

Trade returns are irregular, because of the erratic weather. Unseasonably high temperatures restricting sales of heavy-weight wearing apparel at some points, while business is most satisfactory in colder sections. Freight blockades were relieved to some extent by the fact that some much complaint of tardy deliveries. Merchandise collections are also more prompt in some sections than in others. There is unanimity regarding the large amount of forward business on the books of manufacturing plants and general contractors in the future. Building operations have been greatly facilitated at the east by open weather, making it possible to continue work for materials beyond the customary dates. Prices of all commodities declined almost 1 per cent for December. Some steel mills are now able to deliver more promptly, because specifications are less frequent, especially in respect to structural shapes, and a few plants are rolling billets in the month of December, which relieves the pressure very much in that department. Steel bars for reinforced concrete construction are rapidly accumulating, a single contract for 5,000 tons being placed at Chicago. Forward business on the part of the west is very heavy, orders covering the output of some furnaces for almost the entire year, prices varying according to the date of delivery, but sales are not reported at less than \$2.10 to \$2.15 valley furnace. Business in the more remarkable because of the unprecedented rate of output, all monthly records having been broken. Demand for cotton goods in the primary markets is somewhat less urgent, but there is no general slackening of activity in the near future owing to the abundance of business on the books of the mills. Mills are making good progress in the west, after a long period in which dividends were irregular, and the industry is now in a most satisfactory condition. A large order is noted in woolen goods, considerable business being accomplished in the men's wear division, but not yet so prompt to ascertain and it is not yet possible to ascertain the strength and steadiness of the market. Demand for footwear is strong. Most New England producers are making good contracts they can conveniently handle and buyers are numerous in the Boston market, taking in large quantities of goods and wholesalers report a large distribution and the only adverse news comes from retailers, who have large stocks of overstocks and rubber boots because of the recent weather. Thus far leather is quiet, but prices are firmly maintained. Tanners of sole have no surplus stocks on hand and shoe manufacturers usually buy freely about the middle of January, which prevents any weakness in response to the present dullness.

Higher prices have prevailed on the leading commodity exchanges, in what there was a natural reaction from the preceding decline, as the stock account to profits, and the recovery was carried still further in response to reports from winter wheat states that a sharp fall in temperature threatened much damage from frost because of insufficient snow covering. Interior arrivals of 5,201,081 bushels of corn, compared with 3,998,081 bushels, and Atlantic coast exports were only 1,479 bushels, against 3,970,811 bushels in 1906. Cotton was fairly steady. Liquidation of commercial failures thus far reported for January amounted to \$3,285,460, of which \$1,614,844 were in manufacturing, \$1,469,219 in trading and \$207,397 in other commercial lines.

Cross Currents Are Noted in Wholesale and Retail Trade. NEW YORK, Jan. 11.—Bradstreet's tomorrow will say: There are some cross currents in trade which prevent generalization, but as a whole the situation is very little better than with preceding months. The need of seasonable activity is not marked as yet, but it is to be expected in the spring. In wholesale and jobbing trade spring season activity is not marked as yet, but it is to be expected in the spring. In wholesale and jobbing trade spring season activity is not marked as yet, but it is to be expected in the spring.

STEGEER A Genuine Cut Price Piano Sale. If you want to save money on a piano purchase then you should not fail to visit the Steeger & Mueller Piano Co. as we have the largest line of standard pianos in the city. Every instrument guaranteed to give perfect satisfaction or money refunded. We carry a complete line of Steeger pianos, Emerson, Harman, A. S. Chase, McPhail, Hartman and 25 other makes. Special prices which will save the purchaser from \$75 to \$150 on a high grade instrument. Our New York buyer purchased five cabinets of pianos for spot cash at about one-third regular value, and we are willing to trade good pianos with our customers, but you must hurry and call at once, for at the tempting prices this stock will not last very long. Notice a few of the many bargains which await your inspection: \$125 Camp & Co. cottage style... \$55 Hall & Son medium size... \$100 \$200 Kimball, thoroughly overhauled... \$115 \$250 Chickering... \$125 \$250 Sterling in finest condition... \$115 \$275 Hall & Davis, walnut case... \$145 \$400 Krakauer Bros. looks new... \$175 \$350 Vose & Sons, see walnut case... \$190 \$550 Francis J. Terms to Suit the Purchaser. Out-of-town purchasers should write at once for catalogue, prices and terms. We ship pianos everywhere and guarantee freight charges both ways if the instrument, after careful examination, is not entirely satisfactory to its owner. New pianos for rent, \$4 and up. We tune, move, store and repair pianos.

Schmoerer & Tueller Piano Co. Manufacturers of High Grade Pianos. Established in 1859. 1211-1213 Farnam St., Omaha, Neb. Tel. Douglas 1245.

HARRIMAN IS RUSHING CARS

Pays Freight Rates on Rolling Stock to Get it to Coal Fields.

REVENUES SACRIFICED FOR THE WEST

Chicago Hears that About Thirty-Eight Thousand Dollars Will Be Lost to Get Fuel to Consumers.

CHICAGO, Jan. 11.—The Record-Herald today says the management of the Harriman lines is paying \$2,500 "freight" on cars in order to get them from the east into the coal fields of Illinois, where they can be loaded with coal for the west. This extreme and unusual method was adopted by the officials here after a wire consultation with E. H. Harriman, who gave his consent to the expenditure necessary to relieve the coal shortage in several portions of the west, especially in Kansas and Nebraska. Added to the loss in paying freight on the cars the Harriman system will lose at least \$5,000 revenue, and possibly three times that amount, which it would have obtained had it permitted its cars to be loaded in the east with merchandise or coal for the territory about Chicago. As a result of this sacrifice of revenue \$5,000 tons of coal soon will be distributed along the lines of the Union Pacific road in Kansas and Nebraska. More than 250 cars are now on the road, and the remainder of 1,200 cars will be forwarded at the rate of fifteen or twenty daily. The question arose of how to get the cars to the mines without having some road steal them for temporary use enroute. The management finally decided to ship them as freight and is paying \$2 for the delivery of each car.

The Chicago dispatch was confirmed Friday morning by Superintendent Park of the Union Pacific, who said the payment of freight was one of the methods the Harriman lines had been taking to relieve the coal situation. "Up to the present time we have kept everybody supplied with cars, no matter what the cost," he said. "We have had no serious shortage except from the east. As I understand it now, the coal car situation is exactly the same as it was in the early part of the year. The cars back from the east will enable us to turn coal eastward from Rock Springs to help out the situation in this part of the country. The coal shortage is principally noticeable in Idaho and Montana, and this order will help relieve the strain out there. Cars are already coming in from the east. "We are now filling all orders for coal cars here and we do not anticipate any trouble in getting what cars we need on this part of the line. "The returning of the cars from the east as empties will cause considerable financial loss to the roads, but it is only an evidence of the methods the roads have been using, regardless of cost, to relieve any possible shortage."

REPORT OF THE CLEARING HOUSE

Transactions of the Associated Banks for the Week.

NEW YORK, Jan. 11.—The following table, compiled by Bradstreet, shows the bank clearing for the principal cities of the United States for the week ending January 10, with the percentage of increase and decrease as compared with the corresponding week last year:

Table with columns: CITIES, Clearings, Inc. Dec. Rows include New York, Chicago, Philadelphia, St. Louis, San Francisco, Baltimore, Kansas City, New Orleans, Cleveland, Louisville, Los Angeles, OMAHA, and various other cities.

FORECAST OF THE WEATHER

Snow and Colder in Nebraska Today—Sunday Fair, Colder in East Portion.

WASHINGTON, Jan. 11.—Forecast of the weather for Sunday and Monday: For Nebraska—Snow and colder Saturday; Sunday fair, colder in east and south portions.

For Kansas—Rain or snow Saturday; Sunday fair, colder in east and south portions.

For South Dakota—Snow and colder Saturday; Sunday fair.

For Iowa—Snow Saturday, possibly rain in southeast portion, colder in west and north portions; Sunday fair, colder in east and south portion.

For Missouri—Fair in south, rain or snow in north portion Saturday, colder; Sunday fair and colder.

For Colorado—Fair Saturday, colder in northeast portion; Sunday fair, colder in southeast portion.

For Montana—Fair in northeast, snow in south and west portions Saturday, colder; Sunday fair.

For Wyoming—Fair in east, snow in south portion Saturday, colder; Sunday probably fair.

LOCAL RECORD.

OFFICE OF THE WEATHER BUREAU, OMAHA, Neb., official record of temperature and precipitation, compared with the corresponding day of the last three years.

Table with columns: Maximum temperature, Minimum temperature, Mean temperature, Precipitation, and Normal temperature. Rows include 1907, 1906, 1905, 1904, and Normal temperature.

Announcements of the Theaters.

Matinee and night performances will bring the excellent bill on at the Orpheum this week to a close. Next week, starting Sunday matinee, those popular and talented stars, Nick Long and Lillian Cotton, presenting their new program play by Edgar Allen Wolf, entitled "My Wife's Diamonds," will head a program promised decidedly good. Other contributions are the eight Bedouin Arabs; Patrice, in her latest success, a sketch called "Florida"; the four Harms, from the New York Hippodrome; Mr. and Mrs. Allison, in "Minnie from Minnesota"; Anna Chandler, singer and imitator; Shields and Rogers, in lazzo feats, and new kinodrama pictures.

DERNBERG ON COLONIES

German Director Says Strength of England Lies in Colonial System. AMERICA IS GAINING TOO MUCH GROUND. Empire is Losing in South America and Must Save Itself by Developing Holdings in South Africa.

On the subject of the production of copper Herr Dernberg said that Germany imported \$7,200,000 worth of copper yearly. Copper mines were now being opened at Otavaria, German Southwest Africa, and other deposits were being investigated. As to wool, Director Dernberg said Germany imported 185,000 tons, which can partly be supplied in German Southwest Africa.
