Foreign Financial. LONDON, Jan. 16.-The supplies of money were increased in the market today by the interest and dividend payments. The demand was good. Discounts were weaker. On the Stock exchange, although business did not expand materially, the tone remained cheerful and there were im-provements in British securities, especially consols and home rails, owing to the easier money conditions, which revived the talk of an early reduction of the Bank of Eng-land's rate of discount. The tone of for-eigners was uncertain and Russians were strong. Kaffirs yielded to realizations, and copper shares were strong in sympathy with the metal. Americans were reglected. The forenoon was only moderate, with oc-castonal advances to over parity. New York sent easy advices in the afternoon, but bought later, and prices improved and closed at the best quotations of the day. Japanese imperial is of 1804 closed at 1925. — RIRS, Jan. 16.-Prices on the Bourse today were firm. Russian imperial 4s closed at 78.19 and Russian bonds of 1904 at 497. Implement Men Meet. KANSAS CITY, Jan. 15.—The Western Implement and Vehicle Dealers' association met here in annual convention, with close to 1,000 members present. Probably the most important topic that will be discussed will be that of abolishing the warranty on vehicles. Secretary Hodges said of the proceedings: "We won't resolute on a lot of legislative stuff we want. There won't be any rate or car shortage fights started by us against the railroads. We are here for business."
