RELIEF WORK AT KINGSTON

Caring for Injured and Burial Dead Progressing on Organized Basis.

NO DEATHS REPORTED AMONG AMERICANS

Rumor of Tidal Wave is Not Confirmed—United States Warships Land Food and Medical Supplies.

BULLETIN

KINGSTON, Jamaica, Jan. 17.—Thursday.

The streets of this city are now picketed with American guards.

Admiral Evans, at the request of the British authorities, landed a force of marines from the battleships Missouri and Indiana.

Six hundred bodies have been recovered and more are being constantly found.

Dynamic is being employed to clear away the debris of shattered buildings.

The American warships in the harbor have put on shore all the foodstuffs and medical supplies they could spare.

The Jamaican authorities have taken charge of the distribution of all provisions in the city.

In addition, relief is being hurried in from outside quarters.

The senate yesterday passed a bill authorizing relief for the stricken island.

The people of the British island of Trinidad have sent a first installment of relief.

H. M. S. Indefatigable has left Port of Spain, Trinidad, with provisions, clothing and other supplies for the stricken people.

The senate yesterday passed a bill authorizing relief for the stricken island.

GAMBLE MEN SPAR FOR TIME

Senator May Be Investigated if Committee is Prompt in Acting.

Donahue Commands His Men to Keep Saloons Closed Sunday.

RESCINDS FIRST EDICT, IGNORING MAYOR

Donahue's Bold Stand for Systematic Violation of Law is Decried by the Chief of Police.

OMAHA, January 18.—Captains Morky, Dunn and Savage, gentlemen of the law, today rescinded the order of their honor, the mayor, in regard to the saloons, and you will use due diligence in seeing that all laws, especially the law closing saloons on Sunday, are enforced.

(Signed.) J. J. DONAHUE, Chief of Police.

Chief Donahue issued the above order Friday morning without comment.

The chief refused to amplify the order with any personal statement, but said the order spoke for itself and meant what it said.

The effect of this last order from the chief will be that the saloons will be closed in Omaha next Sunday at least, or the proprietors be sent to jail for violation of the Sunday law.

Chief Donahue, evidently the mayor's order directing the police department to violate the law by refraining from arresting violators of the Sunday law, will not afford him the protection he at first thought.

Last Saturday, when Mayor Dahlman issued his order to Chief Donahue, the chief immediately instructed his men accordingly, holding that he had received "orders" and had no recourse, but to obey them.

The chief will have a hearing before the Board of Fire and Police Commissioners next Wednesday afternoon, charges filed by the Civic Federation and based on the chief's order of last Saturday.

Mayor Jim Far, Far Away.

Mayor Dahlman is far, far away in Denver, attending a meeting of stockmen, and was not "chief executive and conservator of the city" Friday morning when Chief Donahue issued his order to the police.

Acting Mayor Johnson said he would keep his hands off the Sunday closing question, as he expected the mayor home by Sunday, any way.

It has been facetiously remarked that inasmuch as the acting mayor is a Seventh Day Adventist he might favor himself and carry out the policy of Mayor Dahlman, or, in line with his own policy, order the saloons closed on Saturday and open on Sunday.

But it is not likely that Acting Mayor Johnson will do any such thing.

What Mayor Jim will do when he returns here and finds that Chief Donahue has "usurped" the role of "conservator of the peace" has only been hinted at by the knowing ones.

Last Tuesday the mayor would issue orders to the chief of police and would do so until the supreme court ruled on the matter.

The mayor avowedly stands on the "open Sunday" platform. The police commissioners hold they have no executive jurisdiction in this matter, but may have any charges brought against any member of the police or fire departments.

The Civic Federation holds the commissioners should control the actions of the police department. Charges filed by the Civic Federation against the commissioners are still on file in the governor's office. And the plot thickens.

Enter W. J. Bronch, Esq.

Comes now Captain W. J. Bronch, one of the police commissioners, addressed the saloon men last week and committed himself in favor of the "open Sunday," and said he would do nothing to prevent Sunday operation of saloons.

Will he vote to sustain Chief Donahue's order to close the saloons on Sunday?

When the Civic Federation charges are brought up, these were questions asked Friday morning.

At a meeting of the commissioners last Tuesday afternoon it was quite generally reported that the board would issue such an order as was issued by the chief Friday morning, but when the commissioners were pinned down they declared they had not heard of any such intention.

Commissioner George L. Miller has been in Lincoln for several days. He called on Governor Sheldon and told the governor he would resign if that would help to simplify matters.

The matter now resolves itself into one of law enforcement on the one hand and Mayor Dahlman's public-sentiment-in-favor-of-Sunday-opening on the other, with a dash of who's on top.

It is to be hoped that the law will be enforced. For the nonce, at least, Chief Donahue has decided to assume the responsibility of seeing that "all" the laws are enforced, especially the Sunday closing law.

And all this with Mayor Jim out in Denver.

"When the cat is away the mice will play."

Mahoney is Noncommittal

In my opinion, Chief Donahue has taken the only wise and safe course by issuing his order of Friday morning.

Acting Mayor Johnson says that he cannot say what action the Civic Federation will take in the event that the police authorities decide to close the saloons on Sunday, but we will have a meeting of the executive committee soon and take some action.

T. J. Mahoney, for the Civic Federation.

At the October hearing in the Millard hotel the Civic Federation representatives assured saloons would be closed on Sunday.

Weather Bureau Inspector Hopes to Reach Pole from Norway This Year.

SAN FRANCISCO, Jan. 18.—Major H. B. Hersey, United States weather bureau inspector, who arrived yesterday, declared his satisfaction with the plans of the Wellman Arctic expedition, which will take the aerial route to the pole, and of which he will be the second in command.

Major Hersey is here on his annual tour of inspection, having visited the weather bureaus of the northwest.

In speaking of the preparations for the trip to the pole, Major Hersey said that headquarters for the expedition were established on Spitzbergen island last year.

Supplies were brought to the uninhabited islands from France and Norway, machine shops and balloon sheds have been built and a staunch Arctic ice vessel purchased as a tender for the ship.

The ship is a dirigible balloon, with a bag 165 feet long and a car 100 feet long. The lifting power is 8,000 pounds.

The dirigible will be equipped with power to drive it for fifteen days, but under ordinary conditions it will take but thirty-six hours to make the trip.

The dirigible is now on the way to Norway and Major Hersey will join the expedition in the spring in time for the early trials.

The major says he hopes if everything goes well to reach the north pole in thirty-six hours from Spitzbergen, Norway.

CHIEF ORDERS LAW ENFORCED

Donahue Commands His Men to Keep Saloons Closed Sunday.
