Foreign Financial.

Foreign Financial. LONDON, Jan. 18.-Money was in fair supply and demand in the market today, with a hardening tendency. Discounts were dearer. Trading on the Stock ex-change developed dullness, the Bank of England's lower rate of discount failing to stimuate activity. Realizations more than offset the investment purchases. Un-favorable Paris advices depressed foreign-ers. Americans continued dull and heavy. Prices were nominally above parity in the forenoon, but the uncertainty regarding the situation in Wall street discouraged fresh ventures here. Later New York sold and the market weakened and closed weak at practically the lowest of the day. Kaf-firs were lower. Japanese imperial is of 1904 closed at 1024. BERLIN, Jan. 18.-Trading on the Bourse today was dull owing to dull London and Paris advices. PARIS, Jan. 18.-These was a pronounced weakness in prices on the Bourse today owing to the increasing conviction that the new income tax will be applicable in the case of rentes. Russian imperial is closed at 76.20 and Russian bonds of 1904 at 450

never very interesting, receipts being light and the trade generally without feature. That was the case this morning. There was a fair demand for beef steers. but the supply was so light and the quality so ordinary that the market was not par-ticularly active or interesting. What few cattle there were generally brought about

cattle there were generally brought about the same prices as yesterday, sellers as a rule quoting it steady. Cows and helfers were also steady with yesterday and the trade without new or noteworthy feature. The few loads in aight changed hands as a general thing in fair season and the market closed early for want of more cattle to sell. Stockers and feeders sold freely, and in spite of the fact that it was a Friday when the demand is generally supposed to be imited. Quite a considerable proportion of the receipts consisted of that kind of cattle, but they nevertheless brought about steady prices, at least anything that was good.

Streets Paved with Gold.

Literally, the streets of Guadalajara, Mexico, are paved with gold. Gold and silver to the value of \$6,000, says the Mining Review of Los Angeles, has just been discovered in the asphalt pavements laid there in the last two years by the Mexican Asphalt Paving company. In the preparation of the asphalt mixture the company used tailings from old Spanish and Mexican reduction works in the Etzatlan district. A few days ago a big shipment of tailings was received for additional work, and wholly through curiosity the company's local manager had a number of assays made. These revealed that the tailings average \$15 a ton in gold and silver. Al-

ready about 400 tons of tallings have been used in pavement construction.
