Wenther and Crop Situation is Getting to Be an Important Factor-Course Cereal Options Attain Higher Prices

OMAHA, Jan. 19, 1996.

Wheat revived from the effect of yesteroay's liquitation on good early buying,
and maintained the advance of \$2. aifinugh the May was sold liberally against
weekly privileges. Cables ignored the dediline here yesterday, Liverpool closing at
an advance on light American and Ausralian clearances. Soft weather prevails
today throughout the winter wheat beit, but
hair and conter is predicted. The plant is
exposed through most of the territory.
Advices from Kansas indicate the plant to
be healthy and probably able to withstand
time temperatures of zero.

Cern news from the Argentine and continued wet and mild weather gave the marhet its initial impetus, which was not lost
later, although the forecast for fair and
colder weather and quite liberal estimates
for Monday led to considerable realizing
and local short selling. Argentina correappondents uniformly report a serious situation, especi, hy in the central and northern
acctions. Drouth and locusts are causing
the apprehension and the former condition
is not yet relieved, Should no break in
the weather occur the loss might easily become serious. The cash market was quite
strong.

Cats recovered from the tone of yester-

strong.

Oats recovered from the tone of yester-day, and, although trade was not large, maintained a steady tone throughout. The cash market was a shade higher. July again seemed to be the favorite delivery

Primary wheat receipts were 847,000 Primary wheat receipts were 347,000 bushels and shipments 189,000 bushels, against receipts last year of 619,000 bushels and shipments of 119,000 bushels. Corn receipts were 503,000 bushels and shipments 550,000 bushels, against receipts last year of 547,000 bushels and shipments of 62,000 bushels. Clearances were 57,000 bushels wheat, 11,000 bushels flour, 55,000 bushels corn, 4,000 bushels oats.

Liverpool closed 2,004,1 higher on wheat and 4,0 lower to 3,40 higher on corn.

Broomhall estimates world's wheat shipments at 8,400,000 bushels, compared with 8,672,000 bushels last week and 8,300,000 bushels last year.

CHICAGO, Jan. 13.—The small receipts in the northwest and the prediction of a cold wave for the southwest caused a strong market for wheat here today. The May delivery closed at a net gain of \$46\cappa_6\$.

Corn was up \$46\cappa_6\$. Oats were \$46\cappa_6\$. PROVISIONS—Pork. lower; jobbing. Its MP TWIND—9c. PROVISIONS—Pork. lower; jobbing. Its MP TWIND—Pork. offerings coming from outside holders. The news of the day was largely of a builtsh character. One of the main factors in the plantacter. One of the main factors in the plantacter. One of the main factors in the plantacter. The greater part of the fall was crop is said to be without snow protection and in low lying sections the fields are covered with water. Should a cold wave materialize, as predicted by the weather bureau, the growing crop, it is claimed, would be seriously injured, as the plant has attained an unusually advanced growth because of the mild weather. Other influences working for higher prices were firm cables, small receipts at Minneapolis and Duiuth and a possible curtailment of exports from Argentina because of a rumor of a strike. The market closed strong, May opened unchanged to ice higher at 15% 1676 to 1676 and advanced to 1776 and closed at the highest point. Clearances of wheat and flour were equal to 167,000 bu. Primary receipts were 247,000 bu., against ill,000 bu. for the same day last year. Minneapolis, Duluth and Chicago reported receipts of 226 cars, against 224 cars last week and 454 cars one year ago.

Mild wet weather throughout the corn belt caused free buying of corn today and brought about a strong market. The selling was chiefly by longs. The market closed strong. May opened a shade to ich in was active and closed at 45% c. Local receipts were 32 cars, with none of contract strade.

Foreign Financial.

LONDON, Jan. 13.—The supplies of money showed signs of decreasing in the market today and borrowers paid stiffer rates. Discounts were firm in sympathy. Trading on the Stock exchange was inactive, prices eased all around in consequence of dearer money and the weakness of Americans. Consols were barely maintained, while foreigners and kaffirs were easier on continental selling. Americans were decidedly weak, the break in Wall street yesterday reducing business to a minimum. Quotations eased to below parity early in the day and declined further on local as well as Berlin selling. The final quotations were 1 to 7 points lower. Chicago, Milwaukee & St. Paul and Canadian Pacific declined the most. Japanese imperial 6s of 1994 closed at 1624.

PARIS, Jan. 19.—On the Bourse today the weakness was increased by the conditions in New York, but prices recovered at the close. Russian imperial 4s closed at 55.00 and Russian bonds of 1994 at 486.00.

BERLIN, Jan. 19.—Prices generally on the Bourse today were unchanged. Canadian Pacific closed 4 points lower. Foreign Financial.

Coffee Market.

NEW YORK, Jan. 19.—COFFEE.—Market for futures opened steady at unchanged prices to a decline of 5 points, which was about as due on the cables. Smaller receipts imparted a fairly steady tone to the market immediately following the call, but later there was considerable selling, attributed to Wall street influences and the market at one time was 5610 points lower. There was a slight improvement toward the close owing to support from trade interests and the final tone was steady, net unchanged to 10 points lower. Sales were reported of 27,000 bags, including March at 5,3095.36c; May at 5.50c; September at 5,700 5.50c; and December at 5,9065.36c. Spot coffee steady; Rio No. 7, 675c; Santos No. 6, 774c. sain over last week's big run and a still larger gain over the record of a year ago. In spite of the large receipts, the market has been in very fair condition throughout the whole week.

During the first two days some little weakness was developed, owing to the large offering, both here and at other market points, but this loss was regained during the latter part of the week, so that at the close prices are prantically in the same notches as one week ago. The cattle coming to market at the present time are principally short-fed steers, there being practically no prime beeves among the offering. For that reason prices do not show up as high as they would under other conditions. Still considering the kind of cattle coming the market is very high and it is a matter of general comment that cattle coming the market is very high and it is a matter of general comment that cattle continue to sell so well in the face of such large receipts. The only explanation offered is that the consuming demand for beef products was never better. Cows and helfers have been good sellers all the week and sithough prices were a little caster on Monday and Tuesday they have strengthened up until at the close the better grades, if anything, are strong than one week ago.
