# LET UNCLE SAM STAY IN CUBA

Only Folution of Froblem is for United States to Remain in Charge.

SUCH IS STATEMENT OF JOHN L. WEBSTER

Omaha Man Returns from Havana Where He, Wife and Daughter Enjoyed Remarkable Social Distinction.

John L. Webster, who, with Mrs. Webster and daughter, has been in Cuba for several weeks, returned to Omaha Sunday, Mrs. Webster and Miss Webster remaining in Havana for the winter. Mr. Webster says he is thoroughly convinced the only solution of the Cuben situation is for the United States to remain in charge of the government under some system.

"Through the courtesies of General and Mrs Wint, Lieutenant General Young, General and Mrs. Bates, General Crowder and Governor Magoon, all of whom are well known in Omaha, our stay in Havana was made most pleasant and was one continual round of social estertainments," said Mr.

"Havana is a quaint and interesting city and its winter climate is unsurpassed. To my mind it compares favorably with Naples and Sorrento. The harbor is filled with war vessels and ocean-going steamers. More and Cabana stand out in high prom inence and are looked at with historic and picturesque interest. Boulevard Melecon is a beautiful drive along the seashore, with the surf constantly breaking over the rocks on one side of the street and a line of residences on the opposite side. The breeze which comes from the sea during the day makes the climate delightful and invigorat ing. The temperature is about what we have in Omaha in the last of June, summe clothing being worn by all people, white duck suits and straw hats being common Havana has remarkably clean streets, which are thoroughly cleaned every day.

Commercial Interest Growing. "The commercial interests of Havana are constantly growing. All the people need is security for property rights to make Havana a large commercial center. The ship ping daily observant in the barbor indicates foreign commercial activity, and the island can be made more productive than it is today by proper cultivation by skilled men. Large areas have not been cultivated or improved and all that is needed is the substitution of American blood and enterprise for the native Cubans to make an island of great wealth.

Petition for Pension Bill.

Representative Kennedy received today a detition signed by nearly 100 citizens of Omaha favoring the passing of the Hamilton bill, proposing to grant pensions to soldiers, sailors and marines who were confined in confederate prisons. As originally introduced it provided for the payment of \$2 per day to all such pensioners for every day during which they were confined. The late Mr. Hamilton re-introduced the bill and made it provide for a uniform life pension of \$50 per month. The committee on invalid pensions, to which the bills were referred, granted a hearing last week to parties interested, but has not yet made their report.

SUPERINTENDENT YOUNG TELLS OF NEEDS In Typewritten Statement He Shows

Buildings. NORFOLK, Neb., Jan. M .- (Special.)-Over a dozen state legislators of Nebraska visited the Norfolk insane hospital during the day for the purpose of recommending an appropriation with an understanding of the Institution's needs. Dr. G. A. Young, the new superintendent, gave to each of the visitors a typewritten statement of

tion. It calls for an appropriation of \$87,500 for new buildings. Dr. Young says a new hospital, for the acute female cases is needed. This, it is estimated, would cost \$60,000. It would be unlike either the cottages or the new reconstructed west wing, but would resemble the wing. A new cottage for the male chronic cases is needed, which would cost \$20,000. A new stable, capable of caring for thoroughbred stock, in order that a large quantity and good quality of milk may be had, is needed. This would cost

what he considered needed by the institu-

The institution is now so crowded that dormitories for the female patients are being fitted up in the attics of cottages and there in the garrets these unfortunates sleep, because the state has not provided more room. Dining rooms in the cottages are being made into dormitories, the dining rooms being sent to the basements and the heating plants, which were ne main heating plant.

There are at present forty patients from northern Nebraska in the Lincoln hospital who ought to be in Norfolk, because they came originally from this hospital and were transferred to Lincoln at the time of vice W. B. Evans, resigned; Jerico, Chick- the fire. There never has been enough room here for the return of those forty patients to their own hospital. Their families want them here, that they may visit them more easily.

The institution now has a capacity fo 250 patients. The natural rate of increase would bring 140 more above the sixty to February 13 at Deadwood, S. D., for clerk leave in the next two years and this, with the forty brought back from Lincoln, would make 400 by the time the next legislature meets. Lincoln has asked for a new building, but Dr. Young contends that if the case of Sheriff Shipp and others, charged forty from Lincoln are returned, the claim of Lincoln for a new building will be invalidated.

Dr. Young and other insane hospital would change the Hastings asylum from one for the incurable to one like that at Lincoln or here.

## "The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are effected, and many an evil deed or impure thought me be directly traced to the impured of the blood Foul, impure blood can be made pure by the use of Dr Pierce's Golden Medical Discovery, It curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

 ⊕ ⊕ ⊕ ⊕
 In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery "has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Gölden Medical Discovery as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N.
