Improvements in China.

Meanwhile improvements in China go forward with remarkable rapidity. The thing that has caused the most excitement in Peking for a month is the opening to the new bridge to accommodate the French tramcars.

Cardinal Gotti, the prefect of the propaganda, has just celebrated his jubilee. Among the innumerable gifts which reached him from the ends of the earth the one which touched him the most was the album sent him by the Society of Dock Laborers of Genoa in memory of his father, who was himself a dock laborer and one of the founders of the Dockers' union.

INTRIGUES OF NATIONS.

The chief cause of the lack of diplomatic tact, to phrase it mildly, in connection with the handling of the details in connection with some of the international questions, would appear to be the misunderstandings which have made it almost, if not quite, impossible for Cardinal Gotti and Cardinal Rampolla to do much toward straightening out these international complications.

CATARRH OF THE STOMACH

A Pleasant, Simple, But Safe and Effectual Cure for It.

COBTS NOTHING TO TRY

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are full of bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gas causing pressure on the heart and lungs and difficult breathing, headaches, fickle appetite, nervousness and a general played-out, languid feeling.

There is often a foul taste in the mouth, coated tongue, and if the interior of the stomach could be seen, it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harrison, the safest and best treatment is to use after each meal a tablet composed of Diantes, Kantho Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can be found at all drug stores under the name of Stuart's Dyppepsia Tablets and not being a patent medicine, can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the mucous discharges therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today only one box of Stuart's Dyppepsia Tablets. I cannot find appropriate words to express my good feeling. I have found fresh, appetite and sound rest from their use."

Stuart's Dyppepsia Tablets is the safest preparation known for the treatment of indigestion, Catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Horse Rustlers Are Sentenced.—PIERRE, S. D., Jan. 26.—(Special Telegram.)—In circuit court in Stanley county Judge Boucher had a long criminal calendar to clear up and has sentenced several who were found guilty on charges of horse rustling. Among them were Alfred and Lewis Bowker, young mixed bloods. Alfred was tried first and given a sentence of two and a half years in penitentiary and Lewis was found guilty today, Monday being fixed for the day of his sentence. Both were members of an alleged organized gang of rustlers.

COLD WAVE OVER COUNTRY

Low Temperatures Reported Over Great Lakes and the West.

HURON HAS ADEQUATE FUEL SUPPLY

One Dakota Town Not in Fear of Shortage and May Be Able to Divide Stock.

CHICAGO, Jan. 26.—The United States weather observer this morning reported the temperature at 2 degrees below zero. The weather is clear.

KANSAS CITY, Jan. 26.—Eight degrees above zero, the coldest of the winter, prevailed at Kansas City and Topeka, with but little snow. In southern Missouri and southern Kansas and in the territories the weather is moderating.

LOUISVILLE, Ky., Jan. 26.—The river continues to recede, the readings today showing a fall of more than three feet in twenty-four hours. The cold wave scheduled for today arrived on "time, the temperature registering 5 degrees above zero this morning. There is considerable snow suffering among the sufferers of the food districts.

LEXINGTON, Ky., Jan. 26.—Eight inches of snow fell in central and eastern Kentucky last night. All railroad traffic is delayed. There is much loss of life stock.

MADISON, Wis., Jan. 26.—The government thermometer registered 10 below zero today, the coldest weather in two years.

HURON, S. D., Jan. 26.—(Special.)—The severe cold prevailing through this section of the state the last two days still continues. The report that Huron and stations along the Chicago & Northwestern railway and also on the Great Northern lines were short of fuel is unfounded. There is plenty of fuel here and some could be spared for other localities should occasion require. Dealers are keeping a good supply on hand in case of emergency. The temperature for more than a week has been below the zero point, with from ten to fourteen inches of snow on the ground. Wind has prevailed much of the time and in some localities the snow is badly drifted, but raitroading, except on the Great Northern, has not been seriously injured.

HILL REPLIES TO OUSTER SUIT

Great Northern President Denies that There is Any Water in Company's Stock.

MINNEAPOLIS, Jan. 26.—James J. Hill, president of the Great Northern, says the application of Attorney General E. T. Young to the supreme court for the forfeiture of the charter of the St. Paul, Minneapolis & Manitoba Railway company, on the ground that it has ceased to be a railroad, will be absolutely futile. Mr. Hill further declares that alleged watered stock of the Great Northern has needlessly been injected into the case, for reasons best known to the attorney general.

Mr. Hill through General Counsel W. R. Reeg, made the following statement to the Associated Press: The Manitoba company was practically

all of the lines operated by the Great Northern and collects the rentals accruing under the lease to the latter company. It is a stockholder in the Great Northern and is actively engaged in conducting and carrying on its business, except that it does not actually operate its lines. It executed a lease to the Great Northern seventeen years ago. The document was filed and the fact of the execution was known to the state from the first. The lease was not annulled by the supreme court, but has been before the supreme court of the state in at least six different cases.

BLAIR.—Mr. C. R. Butten, a substantial farmer, living a few miles north, was pushed by a wagon against a cornsheller and broke his leg into four pieces, which will lay him up for several months.
