The funeral of W. H. Whitney, a locomotive engineer for thirty-three years, who died Saturday at his home in Arlington, Neb., will be held at 10 o'clock this morning at Woodring's undertaking rooms. The body arrived here yesterday.
Mr. Whitney had been employed on the Union Pacific for twenty years and was a member of the Brotherhood of Locomotive Engineers. His wife and two sons, Oscar D. Whitney of Oakland, Cal., and Fred D. Whitney of Oelwein, Ia., survive him.

Buy Boards at \$25 Per Thousand.
Here's what you have been looking for: Two rough cypress boards, equal to 12 inches in thickness and from 4 to 12 inches in width, 10 to 20 ft. long. Cypress is the longest lasting wood in wet places and cannot be beat for corn cribs, hog pen floors, etc. Buy now while the price is \$25.00. C. Hafer, Council Bluffs, Ia.

Codak Exhibition.
One of the most interesting and entertaining features of this week will be the Kodak exhibition at Chambers' academy in Omaha, January 28 to February 2. Short illustrated talks by the celebrated lecturer, Dr. Dixon, also actual demonstration of the art of taking pictures, from the time of exposure to the finished picture, all in the space of a few minutes, add greatly to the interest of those offered at the exhibition.
All goods shown at the exhibition may be bought at 10% off the retail price. Free tickets to those wishing to attend the exhibition, gladly furnished.
Mr. Thomas A. Brewster, custodian Board of Education, recently surprised his family with a beautiful piano, bought at C. Hafer's "Piano House," 235 Broadway, Council Bluffs. It is an English oak case, colonial style, of a unique design and has a very fine tone.

Cigar bands and dishes now in. Alexander's Art Store.
Stephen Bros. for the latest and best inverted burners, 239 West Broadway.

Last Week of Meetings.
The last of the union revival meetings at the First Presbyterian church opened last night with an attendance which packed the church to the doors. The separate meetings for men and women in the afternoon at the Presbyterian and English Lutheran churches were also well attended. This week Rev. Ottobard O. Smith, pastor of the First Congregational church, will preach at the evening meetings.
Last evening Dr. Smith took as his subject "The Pit," preaching a forceful sermon. His subjects for the remainder of the week will be:
Monday—"What if John L. Sullivan Had Been a Christian?"
Tuesday—"Closest Religion."
Wednesday—"The Man in the Tree."
Thursday—"The Hero's Chance."
Friday—"How to Hold On and Hold Out."
Sunday—"The Planted Life."

AID FOR MANUFACTURERS

Proposal to Form Company to Assist Those Desiring to Locate Here.

ONLY IN FORMATIVE STAGE AT PRESENT

Bill in Iowa Legislature for State Inspection of Grain at Terminals. Endorsed by the Commercial Club.

At an informal meeting held Saturday afternoon in the rooms of the Council Bluffs Commercial club, the proposition to organize a development company was discussed, but beyond an informal discussion no action was taken. The plan under consideration is to organize a company with a nominal capital of \$100,000 for the purpose of bringing factories and other business enterprises to the city, securing suitable sites for such enterprises and the offering of houses when necessary to obtain the location here of some desirable firm or factory.

The proposition is merely at present in an embryonic state and no attempt to form the organization will be made until a canvass of the business men of the city is made. This will probably be done this week and if sufficient encouragement is met with a meeting will be called to place the proposition on a firm footing.
While it has been suggested to place the capital stock of the proposed development company at \$100,000, but one-fourth will be asked to be paid at present. With a fund of \$25,000 it is figured that the company could be incorporated and commenced business. When the fund of \$25,000 should be exhausted, it is proposed to call for the payment of another fourth of the capital stock and so on until the full amount is subscribed.

Although there was not a quorum present at the meeting of the executive committee of the Commercial club Saturday afternoon, the members present adopted resolutions endorsing the proposed bill, which, it is said, State Senator Saunders of this city intends introducing at the present session of the legislature, providing for state inspection of grain at railroad terminals.

R. Y. Plumbing Co. Tel. 250, Night, 604.

Combination gas and electric chandeliers and the celebrated Welsbach incandescent gas burners. Why not see us before you buy. We can certainly please you on price and quality of goods. Stephan Bros., 239 West Broadway.

PORTION OF REPORT SUPPRESSED

Estimate of Cost of New Plant Not Given to Public.

There is a portion of the report of W. Kierstedt, the expert hydraulic engineer employed by the city to compute the value of the present water works plant and furnish an estimate of the cost of the construction of a new one, which has not yet been made public and which was not included in the copies furnished the members of the city council by Councilmen Wallace and Olson of the special committee on water works. This portion of the report referred to deals with the cost of the construction of a new plant suitable for the growing needs of Council Bluffs.

Kierstedt estimated the cost of the original water works plant at \$27,818, and its present value at \$50,940, in which he included a going value of \$20,740. The cost of reproduction of the present plant Mr. Kierstedt estimated at \$24,446, to which he added \$107,182, the estimated cost of the improvements and extensions in the service declared by him to be needed immediately. This makes Mr. Kierstedt's estimate of the cost of reproduction of the present plant, together with the improvements needed, at \$132,628, or in round figures, \$133,000.

The interest, however, of constructing a water works plant suitable to the growing needs of the city, and such as Mr. Kierstedt would recommend in the event of the city deciding to build a new plant, would, according to his estimate, cost practically \$90,000. These figures will be of considerable interest to the taxpayers of Council Bluffs, who have up to this not been made acquainted with this portion of Mr. Kierstedt's report, and especially in view of the fact that Councilmen Wallace and Olson of the special committee and Councilman Younkerman have been quoted as basing themselves in favor of constructing an entirely new plant. These three members of the city council are quoted as saying that "every obstacle has been cleared away for the purchase of the present plant or the construction of a new one, and that a new plant can be acquired without increasing the present taxation and, further, that it would secure a reduction of one-half of the old rates."

In exact figures, Mr. Kierstedt estimates the cost of a new water works plant such as would be desirable for Council Bluffs at \$132,628. With the probable and probable increase in cost of material by the time the city was ready to commence the construction of a water works plant, the cost might considerably exceed \$133,000.

In arriving at the cost of a new plant, Mr. Kierstedt gives the following figures:
Distributing system \$42,714
Settling basins, pipes, drain, etc. 18,000
Pumping station 45,000
Two high service pumping engines 16,000
Two low service pumping engines 14,000
Boilers 18,000
Steam pipes 4,250
Heater 800
Storage reservoir, 4,000,000 gallons 24,000
Real estate 1,000
Meters 3,000
Sewerage and drainage 1,000
Supplies 6,000
Total \$132,628
Add 10 per cent \$14,589
Grand total \$147,217

"This estimate," Mr. Kierstedt says, "is based upon taking the water supply from the Missouri river at a point near Walnut Grove, about 1,000 feet below the Illinois Central bridge. It is proposed to construct the power station and settling basins near enough to the river that the same building will contain both the low and the high lift pumping machinery, all the boilers and equipment needed, and that the sediment taken from the river water can be returned to the Missouri river directly through drains provided for that purpose. The pumping station is made large enough to provide for additions in the future."

Regarding the possibility of securing the water supply from the ground instead of from the Missouri river, Mr. Kierstedt says: "The only available source of water supply other than that of the Missouri river is the gravel beds underlying the Missouri river valley. Water can be taken from these gravel beds in sufficient quantity to supply a city of 50,000 inhabitants or even more, and will need no purification, unless it may be found advisable to reduce the amount of mineral matter held in solution. Should a water supply be taken from the ground it will be necessary to provide a considerable amount of storage at the water supply works in order that the high

pressure pumps will always have a large reserve to draw upon in emergencies. A storage basin for this purpose must necessarily be covered in order to prevent vegetable growth, which always develops luxuriantly in the stored water exposed to the sunlight.

"A ground water supply, like that contained in the gravel beds of the Missouri river valley, is always desirable from a hygienic point of view, for the reason that the water so stored is protected from any danger of sewage pollution. The development works, however, have in the past been somewhat expensive, but improvements in pumping machinery for taking water from wells now admit of the construction of water supply works of this character for less expense than formerly."

"No estimate has been made of the cost of a ground water supply, for the reason it is necessary to make some borings before reliable estimates can be made. A ground water supply can be developed with equal facilities at either the Broadway station of the Council Bluffs Water Works company or at the site proposed for the water supply works of the new water works estimated on."

Manager E. W. Hart is in receipt of a letter from J. W. Alvord, the expert employed by the Council Bluffs Water Works company, in which he states that his report will not be ready to be mailed before Monday evening. In the absence of Mr. Alvord's report no conference between Manager Hart and the special water works committee will be held this afternoon as planned last week.

The members of the special committee and Mr. Hart were much surprised to learn by the columns of the Sunday morning edition of an Omaha evening paper that the committee had a "lovely time" Saturday afternoon at a meeting with Manager Hart and that the latter had invited Councilman Younkerman to leave the conference. There was no meeting, however, and Mr. Younkerman was not invited to leave by Mr. Hart or anyone else.

Funeral of George F. Smith.

The funeral of the late George Franklin Smith, pioneer resident and merchant of this city, held yesterday afternoon from the residence on South First street, was attended by a large gathering of Old Fellows, of which order deceased was a member, and in which he had held many high offices. All of the local lodges of the order were largely represented, many of the older members being in attendance. At the house the funeral oration was delivered by Past Grand S. E. Wadsworth on behalf of lodge No. 49. The cortege to the cemetery was an imposing one, over 100 Old Fellows being in line. The pallbearers were:

George W. Smiley, past grand of Council Bluffs lodge No. 49; John Gilbert, past grand of Hawkeye lodge No. 121; Lewis Hamner, Stanton Postmaster; J. A. Patrick, mailman; J. R. Sackett, past grand Council Bluffs lodge No. 49; Thomas Richardson, past grand of Council Bluffs lodge No. 5; J. W. Spore, past chief patriarch of Twin Brothers' encampment No. 4; C. L. N. Smith, past grand of Council Bluffs lodge No. 60; George H. Scott, past grand of Park City lodge No. 606.

Iowa News Notes.

OWA—The Monona County Fair association held its meeting this week and passed the following resolutions:

OWA—The Iowa Ice harvest is in full blaze at the Iowa Ice company. The ice is in splendid condition, owing to the absence of snow, and it is about two weeks ahead of last year.

BLUENOSE—Bluenose has just dedicated a new \$2,000 Methodist Episcopal church, which is free from debt. Dr. Lewis of Morningstar, Council Bluffs, was the principal speaker at the dedicating ceremony.

ATLANTIC—The 13-year-old son of Al Phares is in a serious condition and fears are entertained for his recovery, as the result of poisoning caused by his putting a paint brush in his mouth. He had been working with the completion of the brush in his mouth, causing the illness.

OWA—C. E. Holtbrook & Co. of Omaha have their implement and machinery business to Linde & Co. Omaha, who are sole dealers, who will open a branch house in Lincoln, Neb., to handle their coal and lumber business. This is the oldest implement and machinery business in Monona county and was first started by Warren Freeland in 1867, just forty years ago.

ATLANTIC—The Southern railroad proposition is far enough along that its construction is now considered a certainty. It has already been subscribed more than \$100,000, with the completion of the line, the first election of officers of the new company will be held on January 29, when the stock subscription books will be practically closed.

OWA—Omaha has been nearly swamped the last two weeks with Nebraska corn and the two elevators have had hard work to handle it. It was generally supposed that with the completion of the Ashland cut-off this Nebraska trade would be lost to Omaha, but there seems to be more of it than ever and the only problem seems to be how to handle it. The crossing at Decatur is good and much produce is being marketed on the Iowa side of the river.

OWA—H. E. Sarr, known to everybody in Mills and Putnam counties as "Ed," died at his home eight miles south of Glenwood this morning. Mr. Sarr was one of the most popular men in Mills county. His home farm, consisting of 240 acres, was also his father's home. His health had been failing, with never failing good nature, made him popular in the community. His death resulted from cerebral apoplexy, followed by a tracheal pneumonia. He leaves a wife, two sons and one daughter.

CASH IS SHORT OF DEMANDS

Legislature Has Less Than Million Dollars for Special Appropriations.

INSTITUTIONS ASK OVER TWO MILLION

Lack of Passes Having a Tendency to Prevent Adjournments of Legislature, as It Takes Cash to Go Home.

(From a Staff Correspondent.)

DES MOINES, Jan. 27.—(Special.)—With less than \$1,000,000 available for extra appropriations, the thirty-second general assembly is confronted with demands amounting to considerably over \$2,000,000. Requests of the various state institutions alone amount to \$1,962,235, the State Agricultural college and the State university asking for \$83,000. The State university leads the list with requests for \$43,000.

These appropriations are known as extra appropriations. Most of the state institutions have appropriations that are annual and need not be acted upon by each succeeding legislature. The extra appropriations asked for are for new buildings and improvements, building and by the regular annual appropriation. Both the State university and Agricultural college have millage taxes for the purpose of erecting new buildings, but both are asking for big appropriations in addition to the millage. The State university asking for \$125,000 for a new building and the State Agricultural college for \$200,000 for a heating plant and tunnels and \$40,000 for an addition to the girls' dormitory, besides smaller amounts for other buildings, the total asked by the college being \$285,000. Both ask for increases in the annual support fund. In comparison with these the State normal is asking for only \$15,000, of which \$5,000 is for walks and grading, \$5,000 for the library and \$5,000 for the librarian's salary. The total requests of the three educational institutions are as follows:

State university \$43,000
Agricultural college 200,000
State Normal 15,000
Total \$258,000
Asked by state fair 100,000
Institutions under board of control \$45,235
Total \$303,235

The appropriations asked by the state fair are to erect a steel amphitheater, buy additional land and build a swine pavilion. The appropriations asked by the board of control are for infirmaries at some of the hospitals, new buildings of various kinds and other permanent improvements, all of which were given in the report published in November.

In addition to all these appropriations there are bills already introduced or about to be introduced for appropriations for an executive mansion, publishing a roster of old soldiers, for completing the historical building, for completing the archives department, and providing salary for the custodian, for publishing documents and building monuments to departed state officials. Probably the hardest task of the session will fall to the appropriations committee, as there is available less than \$1,000,000 for appropriations.

Lack of Passes Prevents Session.
The lack of passes will prevent any further session of the session of the legislature. The legislature was called tomorrow afternoon to take up business, and according to the temper of the members there will be business flying right from the first. The traveling expenses of the members to visit the state institutions is paid from the treasury, but there will be no more going home. The members are expected to stay in the city and to be in the morning to take up business, and according to the temper of the members there will be business flying right from the first.
