WASHINGTON, Jan. 30.—The Indian appropriation bill was reported to the senate today. It carries \$4,000,000, a net increase of \$2,000,000 over the bill as passed by the house.

It is estimated that the Indian appropriation bill carries more general legislation of a far-reaching effect than it has in many years.

Chief of these recommendations is that "on and after July 1, 1907, all restrictions upon the alienation, leasing or encumbering of all the lands of allottees not of Indian blood are hereby removed."

An equally extensive provision has been adopted in relation to coal and asphalt lands. The surface of the segregated lands of the Choctaw and Chickasaw nations containing these deposits, whether leased or unleased, is to be appraised by a board to be appointed by the secretary of the interior.
