Cash Demand for Oats and Corn Is Good and Options Are Active-Shorts Are Buying May Wheat.

OMAHA, Jan. 30, 1906. General strength pervaded the entire market today, being especially evident in the coarse grain pits. Wheat was easy early, due to selling by longs on resting orders and sold considerably lower than yesterday's close. It firmed up, however, on good cash situation and buying by shorts. Foreign markets were somewhat lower

on wheat. Weather is very cold through-out the west, with extreme temperatures extending into the winter wheat beit, where there is little, if any, snow protec-The sample demand, as well as option demand, on coarse grains was good, and cash prices were better. Option prices closed higher after a gradual advance all

day.

Argentina news was bullish, Buenos Ayres reporting that drouth and locusts continue to damage the corn crop.

Primary wheat receipts were 300,000 bushels and shipments 153,000 bushels, against receipts last year of 674,000 bushels and shipments of 18,000 bushels. Corn receipts were 1,257,000 bushels and shipments 705,000 bushels, against receipts last year of 769,000 bushels and shipments of 408,000 bushels. Clearances were 249,700 bushels wheat, 389,000 bushels and shipments of 408,000 bushels. Clearances were 249,700 bushels wheat, 389,000 bushels corn, 38,300 bushels oats and flour and wheat equal to 325,000 bushels.

Liverpool closed 4d lower on wheat and 460,40 higher on corn.

Russia is buying American wheat. This was announced late last night in a press cable from St. Petersburg, which says: 'On account of the failure of the local wheat crop Russia this year will be a purchaser of American wheat and the first shipload will arrive soon at Riga, from London, on its way to Rybinsk. The price on the Russian market probably will be \$1.15 a bushel, which is seven cents under the local price. Other cargoes of wheat have been ordered for delivery at St. Petersburg as soon as navigation opens in the apring.'

In the apring."

One of the largest millers in Minneapolls says he has a wire from New York this morning saying flour stocks there are about the lowest ever known this time of the year. Pittsburg wires the same and says they expect a hig flour trade one of these days.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Jan. 20.—Small receipts in the northwest and the prospect that the weather will delay an increased movement caused a strong tone today in the local wheat market. At the close wheat for May delivery was up \$694c. Corn was \$696c nigher. Oats gained 4c. Provisions were 102124c to 474c nigher. 4746 nigher. In the wheat pit was quiet early

Trading in the wheat pit was quiet early in the day, but became active about the middle of the session and continued so until the close. Throughout the day the principal demand came from shorts, although commission houses also bought freely. A decline at Liverpool, which depressed prices somewhat early the day, was completely offset by the small northwestern receipts and cold and stormy weather throughout Minnesota and the Dakotas. In the southwest, where the fall sown crop is said to be unprotected, much lower temperatures were recorded and the official forecast was for still colder weather. Late in the day the market was further strengthened by reports which asserted that four stocks in the east are very low. The market closed strong, with prices near the highest point of the day. May wheat opened \$\frac{1}{2}\$c lower to a shade higher, at 75c to 75\(\frac{1}{2}\)\(\frac{1}\)\(\frac{1}\)\(\frac{1}{2}\)\(\frac{1}{2}\)\(\frac{1}{2}\)\(\f

cars, against lec cars last week and excars a year ago.

News from Argentina was the controlling factor in the corn market, it being claimed that the crop of that country has been damaged by dry, hot weather. These reports caused active covering by shorts and imparted considerable strength to the market. Selling was scattered and mainly by local longs. The market closed strong. May opened unchanged to a shade lower, at 490 40% to 48% of sold between 46c and 46% of 46% and closed at 46% of 46% of Local receipts were 365 cars, with 3 of contract grade.

ceipts were 856 cars, with 3 of contract grade.

Oats were strong all day, with the chief cause of the strength being a lively demand for cash oats by shippers. Offerings were light. May opened &c higher, at 38%c, advanced to 38%c and closed at the highest point. Local receipts were 131 cars. Trading in provisions was unusually active and the tone of the market was strong. Despite a 5c decline in the price of live hogs the market opened firm and as the trading progressed gained strength. The purchase of 1,00,000 pounds of riba credited to a local packer, gave a strong impetus to the upward trend of prices. At the close May pork was up 43%c, at 31.71%, Lard was up 16012%c, at 31.71% I Lard was up 16012%c, at 31.71% I S. B. Ribs were 17%g20c higher, at 38.600 26%. 8.6214. Estimated receipts for tomorrow: Wheat, 26 cars; corn, 421 cars; cats, 121 cars; hogs, 57,000 head. The leading futures ranged as follows;

Foreign Financial.

LONDON, Jan. 20.—Money was in good demand and fair supply in the market to-day. Discounts were a shade easier. On the Stock exchange prices were rather firmer owing to the fact that the settlement revealed a smaller account open than had been anticipated, especially in American securities. Business for the new account was moderate in volume. Consula and home rails hardened fractionally, Operators anticipate an upward movement and broadening business as soon as the settlement is coucluded. Foreigners improved on better Paris buying Americans were unfavorably affected carly in the day by the rumors of a proposed additional issue of Erie stocks and the decline in Philadelphia & Reading in Wall street yesterday, but the market strengthened to well over parity about midday on the bears covering. Later the New York advices caused a further bardening of prices after which New York sold and stocks declined in the control of t

LONDON, Jan. 20.—WOOL—The first series of the 1907 wool auction sales closed today. The feature was the active competition, in which American buyers were prominent, especially when orossbreds and merinos of good style were offered. Final quotations, compared with those of the December sales, were unchanged to 5 per cent higher, with the exception of coarse, heavy crossbreds, which decilined 4d. During the sales 77,000 were taken by home buyers, 66,000 for the oquitinent, 12,000 for America and 3,000 were held over for the next series. Offerings today were 5,806 bales. They were eagerly absorbed at unchanged rates. Following are the sales: New South Wales, 2,800 bales; scoured, 1s 24,602s 4dc; greasy, 7d,61s 2d. Buyers seemed to be inquiring for good beef cattle, but the supply of that kind was extremely light. The most of the cattle coming are only warmed-up and it is the exception to find anything that is anywhere near good. The market on the better grades today was strong to life higher, with others fully steady. The trade was reasonably active and the most of the offerings changed hands in fair season. Cows and heifers were also in good demand and the better grades were anywhere from strong to life higher. As was the case with beef steers, the most of the desirable offerings changed hands in very fair season. The common to medium grades were not quite so active, but they were generally steady with yesterday.

No great change took place in the market for stockers and feeders. There was a fair showing of pretty decent feeders and they sold generally in yesterday's notches. Common and light grades continue slow and weak every day.

HOGS—Buyers started out bidding lower prices this morning and possibly a few loads may have sold a little easter than yesferday. Local demand, however, was very good and that together with favorable reports from the provision market, caused buyers to raise their bids until the market became if anything, a trifle stronger than yesterday. The trade was active when once underway and everything in sight sold ve.y readily. As will be noted from the sales below, the hogs sold largely at \$6.7056 Th, whereas, yesterday over half of all the hogs sold largely at \$6.705 With only a sprinkling at \$6.75 and about the same number below \$6.70.
