Cold Cream

There are on the market some good, others fair, and many very injurious, and why injurious, because many use chemicals to preserve the cream in all climates, while others use poisonous chemicals with the hope of gaining results.

Beaton's Cold Cream

The cream which we recently mailed you a sample of, is made from every week from the finest of bland oils—no chemicals of any kind enter its composition. We don't claim this to be the only good cream on the market, but we know there can be none better, as it feeds the nerves and gives the skin perfect health. Put up in 15c, 25c and 40c jars.
