Burlington and Great Western Refuse to Abolish Grain Proportional.

ACTION HELPS THE OMAHA MARKET

Only Through Disagreement of Rail-

roads Do Local Dealers Hope to Defeat Action of Other Roads.

Local Burlington officials said Friday the the Burlington had not become and did not expect to become a party to the abolition of the proportional rates through Omaha o grain originating in Iowa.

This came like a thunderbolt from a clear sky, for the grain men supposed the Burlington and the Northwestern were the dominant factors in the plan to rob Omaha of its advantages and were expecting to learn that new tariffs had been filed by both roads with the Interstate Commerc commission. Local representatives of the road declare no tariffs have been issued and it is not the intention to issue any.

The local office of the Chicago Great Western received word Friday from the higher traffic officials that the road would leave rates as they are. It is also believed the Wabash will abide by the old basis, as It has given no notice to the contrary.

This puts a more hopeful aspect on the situation for Omaha, as a disagreement among the roads will bring satisfactory results more quickly than complaint by the Omaha Grain exchange before the Interstate Commerce commission. If the Burlington holds out the other Iowa lines will be compelled to abide by the old proportional rates and Omaha will continue to bid for the grain trade of Iowa. If the proportional rates are destroyed, Omaha will not be able to get any grain at all from that state. March 1 is the date on which it was proposed to put the new tariffs in

How to Prevent Wrinkles

It is the thin, dry, poorly nour-ished skin that wrinkles, the skin that does not contain enough oil to keep it soft and elastic. Wrinkles are nothing but creases in the outer skin. The sub-cutaneous tissues do not get nourishment enough to keep them plump and firm, and the outer skin sags and wrinkles. Plump people rarely wrinkle be-cause the tissues beneath the outer skin or cuticle, are plump and firm, and the outer skin is streched smooth over the plump tissues vithout a wrinkle the tissues beneath the outer skin are firm and healthy, it is practically impossible for the skin to crease and form wrinkles.

Kosmeo Feeds The Skin Tissues

The effect of many preparations is to make the akin greasy and coarse pered. Kosmeo does not do this. Its effect is to cleanse, refine and give perfect health to the skin tissues, and as it does not contain animal or mineral oils, it never causes hair to grow on

In this connection railroad men are protesting hard against the legislature framing a reduced rate bill, resorting to the pleathat since a railroad commission has been reated the whole matter of rate regulation uld be left to it.

BOYS WITH OPIUM LAYOUT Youngstern Plend Guilty to Keeping and Patronising a Dope

Joint.

Carl Bates, 624 South Sixteenth street, and Paul Norton, 502 South Thirteenth street, two minors, were arrested in a m at 1312 Capitol avenue early Friday morning, being found with a complete opium "layout." The boys said they had had the room about three weeks and moked opium there without being moested by the proprietor. The police say nessenger boys and others have been in the habit of going to the house to smoke opium, and it was in an endeavor to break up the joint that the raid was made.

In police court Friday morning Norton pleaded guilty to the charge of keeping an optum joint and was sentenced to sixty days in jail, while young Bates pleaded guilty to being an inmate of the place and was fined \$10 and costs. An additional charge may be filed against Norton before his term of imprisonment at the county jail expires, as Detective Drummy discovered that the oplum pipe used by Norton had been stolen and he may be charged with burgiary.
