WHEN OUT OF TOWN. Subscribers leaving the city temporarily should have The Bee mailed to them. Address will be changed as often as requested.

We will now settle down to six more weeks of the legislature.

Dr. Wiley says "oysters are worthless after they have been frozen." So

are men, for that matter. An English writer who has never

visited Chicago says Budapest has the

filthiest streets in the world. Speaker Cannon says he can see no need of a revision of the tariff. The

speaker should consult an oculist. Carrie Nation has left Washington

to divert attention from the senate. Someone should knock them

off. Two local concerns are advertising reductions in thermometers. They seem to be going down all over the

west. Carrie Nation has been refused admission to the White House. The White House mirrors are of great

value. Senator Perkins of California insists that war with Japan is inevitable. It may be averted by allowing Cali-

fornia to secede.

heels on Governor Sheldon's front further waste of time. doorstep may as well keep warm that way as any other.

William Allen White says "Rooseator Foraker calls.

talk to the New Jersey legislators, but They include the provisions made by his money muzzled.

A magazine that can stand Bryan and Beveridge's ammunition for two years without exploding ought to be able to stand anything.

says the kissing promotes the spread penditure of the full amount within of grip. A kiss without a proper the year. grip is seldom satisfactory.

make his statement stronger.

American humor is dying out.

Tokio may be expected at any time.

Mr. Hill and Mr. Harriman have apparently overlooked the chance to hold the fire in the Baldwin locomotive plant responsible for the car shortage.

That argument will not hold good in some countries.

Colonel Bryan has printed in full in address from his repertoire.

ARSURD WAR RUMORS.

ernments could go through without task before them. the interposition of meddlers and mischief-makers. The sensational newspaper rumors, however, of a warlike turn of affairs and imputations of foreign affairs are absurd on their face | Cass county. and hardly need the formal denials they have received.

arises out of the San Francisco school the state of Nebraska." regulations, a purely local matter, and dren there defined in the only practical way, namely, by submitting the case to the courts. Their decision, whatever it may be, will clear the way for practical adjustment. In the meantime the two governments have wisely gone on in search for an abiding and conclusive basis of agreement as regards not only the school, but also Japanese coolle immigration and other questions.

But all these exchanges have gone forward in the spirit of most assured friendship. The two nations stand towards each other on present and traditional terms of special confidence and comity. It is an ill service for public men, and especially members of congress, in the spirit of local prejudice, to magnify and distort mere exceptional irritating circumstances because reckless rumor mongers are always ready to superadd sensational and outright fabrication, as has been by the house and now pending in the done by current stories of war preparations in the Pacific.

There are altogether only 60,000 Japanese among our population of 80,-000,000 Americans, a number comparatively so trivial that insuperable difficulty in their relations is intions are so friendly and are mutually so profoundly interested in preserving and strengthening their friendship is weeks of winter and twice six more the occasion for thorough settlement. for trial, subject to the ordinary rules And there is not the slightest ground of practice. for apprehension that such a result worst that sensationalists and mischief-makers can do.

GET THE DELEGATION TOGETHER. The members of the Douglas delegation in the legislature ought to get together for more harmonious action, especially on measures involving the interests of Omaha and Douglas county. On some bills before the legislature the members from this county in disgust, having found it impossible will doubtless be at variance the same as members from other counties, but on the main propositions affecting the up the Franklin syndicate, Ryan's turf weather is caused by the spots on the the simplification or reorganization of city and county governments they ought to be of one mind.

Unanimity of purpose, however, is not all that is needed to nut legislation through. Harmony of action and agreement on method are just as important. It is highly imperative that we have team work from our senators and representatives, rather than individual play. The delegation has so far avoided any spectacle of dissension, and it is to be hoped it will not spoil the record during the remaining weeks of the session, yet it is positive results that count in the long run, and if the delegation from Douglas county is to achieve results in the logislature Office seekers who are kicking their it will have to get together without

TRAFFIC AND NEW CONSTRUCTION. The significant statement is made on what passes in financial circles as the velt will never be found out." By the terms of the contract made with the legislative printers the production of this amendment as a gem of the printing craft costs the taxpayers of Nebraska \$1.46. But what care we for \$1.46 when the

of Nebraska is at stake and the purpose is to spell the state with a big "s" instead of a little "s." The sovereignty of the state must be maintained and defended at what-

ever cost. Hats off to Root

ENCOURAGING POSTAL FRAUDS Postal authorities at Washington have become aroused over a bill passed senate which, they claim, would have the effect of nullifying much of the good work done in the last few years toward eliminating the get-rich-quick concerns and other shady enterprises using the mails to defraud the public. The bill, which went through the conceivable. But because the two na- house without attracting any attention, provides that after a hearing before the Postoffice department fifteen days must elapse before a fraud order may the very reason why both governments be issued against any party complained have been moved to make the first of and that, if the defendant wishes, local irritation in the school matter he may take the case to a civil court

Under existing law, the postmaster will not be duly reached in spite of the general may, when convinced that any concern or individual is using the mails for purposes of fraud, instruct the postmaster at the home office to withhold the mail of the offending concern, returning it to the sender, when known, or to the dead letter office. This power is a large one, it is true, but the law has been in force many years and nothing in the record shows that it has been seriously abused or that any legitimate concern has been injured by its operation. It was the chief instrument employed in breaking and scores of other swindling outfits throughout the country. So effective has been the operation of the law that most of these concerns have been retired from business or compelled to use other methods of communicating with their victims.

The enactment of the pending measure would undoubtedly furnish an opportunity for the fraudulent concerns to resume. It would make the stoppage of a fraud possible only after a long legal process, involving postponements and other technical forms of delay, during which the harvest of victims would proceed. It would substitute a lawsuit for prompt administrative action. As these swindling concerns change names and methods in a night, prompt action is necessary for their punishment upon discovery of their guilt. In the last five years 2.470 fraud orders have been issued by the Postoffice department. Of these but thirty cases have been appealed to the courts, and in no instance has the Postoffice department been reversed. The record refutes the charge made by the champions of the pending measure that the postmaster general's power under the existing law has been abused. It would seem, also, to furnish an unanswerable argument against any far-reaching change in the existing law and practice on the fraud order subject.

> DO LAWYERS NEED THE MONEY? Taking Retainers Which Arrays Them Against Public Interests.

Louisville Courier-Journal. Ex-Governor Higgins of New York said in an address to the State Bar association: want to say it will be a sorry day revolution in the industrial and social for this country when the leaders of the life of the people. It is not so much American bar are to be deemed unqualified a question of general principles or for public service. Such men ought never to take a retainer which arrays them against the public interest. A man that tions of the mass of the people, their engages in practice that involves such employments, their exchanges, the antagonism is a traitor to the interests of

the people and commits treason." Is not a lawyer already in public service, especially as modied by corporate theoretically at least? Lawyers are officers forms, have clearly outgrown old leg- of the court, and they are licensed by the state after a suitable examination made in pursuance of law. They are not paid by the state except for special services renstraints and obstructions. It is in- dered, but they are in a sense in the public

Still it is an open secret that many lawyers devote themselves almost exclusively to defeating the proper execution of the though the natural tendency is to let laws. Somebody has diffused the idea that they are sworn to do the best they can for their clients, but this is a mere supersti-They take no such oath, and it is against public policy that they should do

When it is said that a lawyer should not take a retainer which arrays him against the public interest, a principle is laid down others might think highly favorable to it The statement, however, is absolutely correct, and when a lawyer is offered a rehis duty to refuse. He may need the money, but he is in the public service, and ought not to take a bribe.

SECULAR SHOTS AT THE PULPIT.

Washington Post: Bishop J. W. Hamilton of the Methodist church was in the San Francisco earthquake and also in that at Kingston. Having been called upon to settle a number of church rows, he doesn't mind a fittle thing like an earthquake.

Chicago Chronicle: It is disagreeable to have to say anything complimentary about socialists, but it is impossible not to comselves or their friends: It is quite mend the socialists in the Wisconsin legis lature who have taken up arms agains legislative chaplains. They complain that the chaplain of the lower house lately took next presidential election and should up twenty minutes of precious time in giv-Nebraska elect Bryan as a consequence ing the Almishty his views concerning the legislation pending in the body. As the socialists are not alone in this matter, it is to be hoped that the chaplain will be abolished and the solons compelled to pray at home, where they can pray as long as they wish.

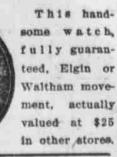

Boston Transcript: The minister of the Highland Congregational church of Lowell has introduced a substitute for the praye meeting, known as "church night," with as lege of listening to the entrancing appeal to a larger audience than the tralisted in behalf of Mr. Harriman's quarters of an hour each Friday evening devotional exercises are held, somewha specialised in form. The next three-quarers of an hour is given to the committee work of the church, to the choir rehearsal that they cannot keep pace with the and to other business that needs attention Persons not thus employed in any of these ways are known as the social fellowship sittee, and they get in readiness for the third of the periods into which the auto cars do not always keep pace with evening is divided, which arrives at 9:15, when light refreshments are served. It is said that the attendance has increased materially under this plan, which was devised by Rev. A. S. Dunnels, and that both young and old look forward to "church
