Charcoal Stops Gas On Your Stomach

Wonderful Absorbing Power of Char coal When Taken in the Form of Stuart's Charcoal Lozenges

Trial Package Sent Free

Charcoal, pure, simple charcoal, absorbs 100 times its own volume of gas. Where does the gas go to? It is just absorbed by the charcoal,-the gas disappears and there is left a pure, fresh, sweet atmosphere, free from all impurities and

That's what happens in your stomach when you take one or two of Stuart's route to Europe, has gone to Washington Charcoal Lorenges, the most powerful purifiers science has yet discovered.

You beich gas in company, sometimes, accident, greatly to your own humiliation. That is because there is a great amount of gas being formed in your stomach by fermenting food. Your stomach is not digesting your food properly. Gaz is inevitable. Whenever this happens just take one or two of Stuart's Charcoal Lonenges right after eating, and you will be surprised how quickly they will act. No say that they are thoroughly enjeying the re beichings; no more sour risings. Eat all you want and what you want, and then if there is any gas going to be formed, one of these wonderful little absorbers, a Stuart Charcoal Lozenge, will take care of all the gas.

And it will do more than that. Every particle of impurity in your stomach and testines is going to be carried away her the charcoal. No one seems to know why it does this, but it does it wonderfully. You notice the difference in your appetite, general good feeling, and in the purity of your blood right away.

You'll have no more bad taste in your mouth or had breath, either from drinking, eating or smoking. Other people will notice your bad breath quicker than you will yourself. Make your breath pure, fresh and sweet, so when you talk to others you won't disgust them. Just one two Stuart Charcoal Lozenges will make your breath sweet, and make YOU fuel better all over for it. You can eat all the onions and odorous foods you want, and no one can tell the difference.

Besides, charcoal is the hest laxative known. You can take a whole boxful and no harm will result. It is a wonderfully easy regulator.

And then, too, it filters your blood,every particle of peison or impurity in your blood is destroyed, and you begin to notice the difference in your face first thing,-your clear complexion.

Stuart's Charcoal Lozenges are made from pure willow charcoal, and just a honey is put in to make them

All literary clubs in the General Federation are advised to arrange for one open day, when a program purely literary shall be presented. To this meeting let there be invited all local women's organizations, either civic, philanthropic or patriotic. Thus a taste for literature in the community may be cultivated.

THE STATE FEDERATION.
Let each state federation have a chairman of literature for that state.

The first duty of the chairman shall be to cultivate a taste for good reading among club women by issuing a bibliography of good reading either monthly in the official organ of the state federation or through the daily press or by the issuing of an annual circular for her state.

Let each state chairman have charge of one evening literary session at the annual convention of the state federation, when either an address on a purely literary subject shall be presented by an expert, for the culture and pleasure of the convention or a program be made up of club woman talent. In the latter case the literary clubs of the state may compete for a place on the program by sending contributions to the state chairman of literature, the chairman requiring poetry, literary criticism or historical or biographical sketches of local state interest, in order that a diversified program may be available. The chairman should give due notice of the style of literary productions needed or expected for each state program.

oral passenger agent of the Burlington, who replied to Mr. Maupin as follows:

OMAHA, Feb. 1.—Mr. W. M. Maupin, Secretary-Treasurer Nebraska Press Association, Lincoln: My Dear Sir—I am in receipt of your courteous letter of the 12th uit., applying for free transportation for the members of the Nebraska Press association and their wives on the occasion of the annual meeting of that association.

I regret to say that our management cannot see its way clear to continue to issue this complimentary transportation. The Interstate Commerce commission has ruled that the law forbids our exchanging transportation for advertising in newspapers, or for anything else but money. In accord with that ruling we have made our contracts for 1907 with the newspapers entirely on a cash basis, and our advertising appropriation was very largely increased to cover the new situation.

As you know, the issuance of passes has been condemned by congress, it has been condemned by congress, it has been condemned by many newspapers of the country and this state, and there is a strong sentiment among the people of Nebraska against the issuance by the roads of any form of free transportation, and the issuance of passes to editors going to their convention might be questioned by other classes who are not so favored en route to their conventions.

To issue complimentary passes in Nebraska would mean that we should do this in Iowa, in Missouri, and throughout the United States, and it would thus appear that the rallroads and the newspapers were combining to obstruct the progress of the reform which is spreading throughout the country, and which is intended to cure the evils of free transportation.

I am sure that every editor in the state will, upon reflection, conclude that under the conditions which have been put before us, commencing January I, 1907, there is nothing else we can do. Yours very truly.

Dyballs Chocolates From the Palace of Sweets

Always Fresh Chocolates

One of the several reason why the demand for Dy-ball's chocolates are increasing so rapidly is because they are always fresh when purchased at our

counters.

Chocolates that have been kept for a time, or delayed in shipment, become stale and soggy and lose much of their flavor and wholesomeness regardless of how delicious they may have been when made.

When you buy Dyball's chocolates it is a guarantee that you have a chocolate that is pure, wholesome and fresh. Made daily in our own confectionery, under our personal supervision.
