The red tape of the government is work near Omaha, as well as upon one woman who works for the government for her now, and has had for some time, the contract for hauling the mail from Omaha to Benson for that village and also for the rural routes for which Benson is a distributing point.

Mrs. Markwood secured the contract for carrying the mail to Benson before the street car line was extended to that point and her contract catls for the mail to be carried in a wagon. This she did for a long time, until one day, when her horse was sick, she came to Omaha on the street car and carried her mail back in the same way. She found this not only more economical than coming in with her horse, but also more expeditious, for she could save half an hour each way and could get

the mail to Benson that much quicker. Everything went lovely by the car route intil one day a motorman with a large load of people refused to let Mrs. Markwood put the mail sack on the front end of the car, telling her to wait for the next car. She took the matter up with the authorities at Washington, filing a coniplaint against the street rallway company for obstructing the expeditious handling of the mall by refusing to let her on the car. An inspector was sent to look into the matter and found that Mrs. Markwood's contract called for a wagon routs and he ordered her to cease carrying the mail on the street cars, but to continue to

contract with the government. This she was compelled to dow with the result that she is unable to get the mails to Benson by means of her horse in time for the rural carriers to take the mail out for that day, and it is obliged to remain over for a day, whereas if she were per-

Postal and Western Union Withdraw Their Operators from Big Packers.

WILL EXTEND ACTION TO OTHER LINES

Fear of Being Charged with Granting Rebates or Discrimination Actuates the Companies in This Course.

The Postal and Western Union Telegraph companies have withdawn their operators from the big packing houses at South Omaha and other cities where they are located. This action became effective Satur day and is taken to avoid conflict with the withdrawal, it is said, will be extended to other offices and establishments where operators have been sent by their com

Fear of charges of discrimination is at the bottom of the movement. As in the case of the packers, where several operators are sent by the telegraph companies and the tolls are very large, the charg has been made that cut rates or rebates are allowed, and as this is in direct conflict with the new law it must be avoided The result of this action will be that these concerns will have their own leased wires and employ their own operators, as some of them partially do now. JAY LAVERTY INDIFFERENT AS TO RESULT

Another Member Points Out that Some Scarecrows of the Anti-Annexationists Are Without a Valid Foundation.

Not all of the anti-annexation committee

appointed by T. J. O'Neil are loyal to that

faith in any strict sense of the word. The

committee was appointed by Mr. O'Neil vithout a consultation in several cases at least. It now transpires that these members have nothing to gain nor to lose in either case. Jay Laverty said yesterday: That committee was made up without onsultation. I did not know that Mr. O'Neil intended to put my name on the lists of his committee. I have taken no part in the deliberations of the committee and it makes not a particle of difference to me which way the question is decided In many ways the business of the South Omaha Live Stock exchange would be nuch benefited by union with Omaha." "A source of alarm has risen like a phantom before some of the prominent anti-annexationists and that is that the new city hall would be changed from its present purpose and made a jail entire perhaps even a city workhouse. This the property owners who strove so hard and ong and successfully to have it located or O street will resent, also quite as long Perhaps the depression of the property there by being in proximity to a jail may equal the swollen values on that site a the time of its purchase. The fact is that Omaha has not threatened to do any such thing with the city hall. Neither is there any likelihood that South Omaha will be made a dumping ground for all the underworld of Omaha. Slums are not usually found where they are not invited. And i was the avowed policy of this administration before the time of its election to pur aue a more liberal policy. In other words, to make the city 'a wide open town.' Only the attitude of the Board of Fire and Police Commissioners has prevented the consummation of that. That is a fact thu timorous people should remember. If South Omaha does not want the slums ! cannot be forced to accept them." latter quotation is from another membe
