Mi Mi Mi 1, all 1, f285.	No matter how little it may be, keep up the practice. Continue to live on less than you make and put by the capital which will one day mean independence to you. If you want to be a money saver, make the wise move to day and open an account with our strong institution, where your cash will be saved. We pay six per cent on Savings Accounts, and make monthly payment homestead loans, which are easily paid.	Fort Riley. Fort Riley. FORT RILEY, Kan., Feb. 16,—(Special.) —The boxing contests that were scheduled for Saturday night in the post gymnasium have been postponed until the next payday, on account of an injury received by Gaskin. While working out with his trainer Thursday night a small bone of his right hand was fractured, and on Friday it pained him so that an examination was made at the post hospital by Dr. Garcia. Gaskin was willing to go on with his right hand bandaged and rely upon his left, but the doctor said no. DO YOU WANT TO MAKE MONEY?

If you do, it will pay you to read every line of this ad and act at once, as this ad may never appear again. Opportunity knocks at every man's door once, and if seized leads to riches and content. This may be your opportunity.

Did you ever stop to think that mining pays larger interest than does any other vocation? According to statistics agriculture pays \$287 per capita, forest industries \$426, manufacturing \$764 while mining pays \$1,910. The average earnings of banks, manufacturing and inerchandise institutions is from 10 to 15% on their invested capital. The average earnings of mines is from 50 to 200 per cent of their entire capitalization, which is generally from five to ten times their acquail invested capital. In other words, when organizing companies other than mining, the stocks are generally sold at or near par, while mining stocks are sold at large discount.

par, while mining stocks are soid at large discount.

The Nebraska Mining and Developing Co., of Omaha, Neb., has under lease 110 acres of lead and zinc land in the Quapaw reservation, Indian Territory, near Baxter Springs, Kan. They have twenty acres of this mineral land in an advanced stage of development, comprising a new concentrating mill of 250 tons capacity, two shafts, a tramway and tram cars, ore tube and ore bins, steam drills and other apparatus necessary for the operation of a mine. The mill his been in operation since the latter part of June, employing from 15 to 25 men and during that time has shipped out and spid over \$16,000 worth of ore. All this ore was practically come from the experiments to locate big veins and is the result of barely scratching the earth. We have now located the veins, done all the experimenting and want to get quick action on the profits and for that reason we have decided to sell a limited number of shares at the very low prices of 25 cents each, par value \$1.00, non-assessable. This money will be used to put this plant on an immediate dividend paying

5% Discount for Cash.

Read This Letter Baxter Springs, Kan., Dec. 30. '00 The Nebraska Mining &

Developing Co.,

Qmaha, Neb. We have made a wonderful strike on our line joining the Hobo. I am sending you a sample of the ore. The Hobo people cut to their line on he east, and this is our west line. We have between 19 and 12 feet face of this kind of ore and we are not to the bottom of it yet. The ground boss at the Hobo says this is the richest property he has seen in the camp. What we must do is to get the northwest shaft down and get to taking out this ore, and we

will then have the greatest property in the district.

Last week, as you will notice by Last week, as you will notice by the reports, we averaged nearly 2,000 pounds of free lend per day. No machines and no mill. The mill being shut down on account of holiday time, the mill men wanted to lay off. You can see what a handsome profit we made out of this south shaft. We need another 100 H. P. boiler so that we can run four machines in the south shaft and then get busy to the mill shaft and when we get the northwest shaft down we can then run our mill night and day. As soon as this is completed we will make big dividends for the stockholders. Yours truly. J. W. WATSON.

of ore ready to ship but the railroads are so congested that at this time it is almost impossible for us to get cars to ship this ore to market, but by selling this stock we will be enabled to do all this work and have everything ready to mine ore on a large scale by the time the car shortage is relieved so that we will be in a position to pay divi-dends in half the time we would 'If we waited to sell this ore and then put in the new machinery. Can you afford to miss this chance of a life

We have got thousands of dollars invested now and we invite the closest scrutiny of our property. We would like to have you get on the train and go down and see this property for yourself. Ask anyone what lead and zinc mines are, investigate thoroughly and we know that you will buy more stock. Lead is selling now at \$84 per ton, zinc at \$30 to \$40 and silicate, \$20 to \$25.

This is strictly a legitimate mining proposition, managed by business men. Look any of them up in Bradstreet or Dun or ask your banker to do so for you and you will find that they are men with the best and highest standing, who would not for a moment stand for any fake or stockjobbing business. Capital stock, \$500,000.00

For any information and literature address George J. Bird, Secretary, 444 Board of Trade Bidg., Omaha, Neb. This stock has steadily risen the present price of 35 cents and will be 50 cents before 50 days pass with every prospect of being par inside of

DEVELOPING COMPANY at the rate of thirty-five cents per share, amounting to \$ Enclosed herewith find \$ as first payment on same, and I hereby agree to pay balance in three equal monthly payments.

The full amount of stock to be at once assigned to me, but to be retained by the treasurer of the company until all payments have been made, a receipt to be sent me for each payment and a Certificate of Stock to be issued and sent to me when last payment shall have been made. It is understood that if at any time I do not wish to complete payments, I am to receive a Certificate for the number of shares paid for,

Stock absolutely full-paid and non-assessable. No individual liability. Par value \$1.00 per share. Send money by draft, Registered Letter, Check, P. O. or Express Money Order.
