REAL ESTATE
FARM AND RANCH LANDS FOR SALE

Nebraska.

Land for Sale

IN WESTERN NEBRASKA.

We have a number of farms, improved and unimproved, for sale all over Nebraska, and in western Nebraska. We can sell you fine farms with the best of soil. The prices range from $500 to $1,600 per quarter section, according to the location and improvements. The average crop for the last six years has been fully as good or better than in the eastern part of this state. Wheat made from 25 to 46 bushels per acre, oats, rye, barley and spelts made from 40 to 70 bushels per acre; and corn made from 25 to 65 bushels per acre. All the land we offer for sale is free from sand, hills or alkali, and most of the lands are located in German settlements. The soil has a foot or more of black loam with a solid clay subsoil like yours at home.

If you buy land in the eastern part of the state at $60 to $80 per acre you have to work all your life to pay the interest, and you will never get out of debt. You are paying from $400 to $500 rent for a quarter section of land in the eastern states. Take this $500 and start a home of your own. Let us take two farms, one that will cost $30 to $40 per acre which has been under cultivation for 15 to 20 years; the other farm we speak of has not been under cultivation and costs only from $5 to $8 per acre. We will pay $600 cash on the $5 to $8 farm, balance of $700 to $1,000 at 6 per cent. At the end of every year we pay from $40 to $50 interest, and you pay on your high priced farm from $450 to $600 interest. Now we have to put our cheap farm under cultivation, that will cost us $500 extra. Now let us not put any manure on either farm for ten years, and which farm will produce the best crops and take the advantage in prices at the end of that time? Stop and think about that before you buy land.

We know there is one above us who rules over the world. We also know that so much grain must be produced to keep us and our live stock alive. We know that the eastern states are played out in producing crops. Do you think God made this virgin soil of the west just for the hot winds or story tellers? If this country was made out of sandhills we would not advise you to come out here and starve with the jackrabbits. If you cannot find as good soil here as at your home, call on us and we will be glad to refund the money you paid for your ticket.

Below we give a small list of farms which you can buy from us on very easy terms, one-third to one-half cash, balance on long time.

We own 2,200 acres in western Nebraska. No. 283 6,640 acres, 4 to 7 miles from town. Price $7.50 per acre. Land is all fenced.

Another 640 acres adjoining this, all fenced, at $7 per acre.

No. 284. A good 640 acres, one mile from Sidney. Price $7.50 per acre.

145 acres under cultivation; all fenced and cross-fenced. Price $8 per acre.

No. 286. 320 acres, 3 miles from Dalton, all level as a floor. Price $9.50 per acre.

No. 302. A fine 160 acres, one and one-half miles from Dalton. Price $10 per acre.

We are able to give you a list of 327 farms which are listed for sale with us, but it would take more than half the Omaha Bee to advertise it, so we have only given you a sample of the best bargains we have for sale.

Please hand or send this list to some of your best friends whom you think would like to buy a farm or invest some money in land.

We will be only too glad to refund the money you have paid for your ticket, and cover all your other expenses if you find that the above statements are not true. Come at once—we will pay your railroad fare. For further information, inquire of
