the future. It appeared that there is a schedule fees for filing papers in the office of the recorder, but that in many instances per sons mailing papers for recording enclosed more than the regular fee and in some cases less. The recorder, in the book fur nished the committee, had entered the proper fee, according to the schedule, and these amounts had been turned over by him to the county in due course.

As to the office of the clerk of the district court, the committee found a large amount of unclaimed fees, court costs and probate moneys, which, it is asserted, should have been turned over to the county every six months, as provided by law. The law requires that the clerk report a list of un Try us. We guarantee satisfaction. Lefclaimed fees, etc., every six months to the treasurer and turn over the amount to him. This, the committee reported, had not been done during Mr. Battey's term of office. The total amount of such moneys said to be in the hands of the clerk, according to the findings of the committee, which includes the court at Avoca, is \$1,796.15. Of this amount, however, a large portion. it is said, came into Mr. Battey's hands during the last six months, while much of the amount has been paid out by him since the committee checked the books. The board, by resolution, ordered Mr. Battey to prepare a report and file the same before March 10 showing all unclaimed moners, fees, court oosts, etc., in his hands. County Treasurer Mitchell was authorized to employ the necessary help to send out notices to the holders of stock in the Port-land Gold Mining company.
