### **GRAIN AND PRODUCE MARKET**

Wheat Takes Spurt at Start, but Rules Easier Later.

CLOSES AT ADVANCE OVER PREVIOUS DAY

Export Business at Scaboard is Noth ing and Duluth Reports Thirty-Six Londs-Corn Innetive and Unchanged in Prices.

OMAHA, Feb. 26, 1907. Wheat opened strong and &c higher on heavy purchase by prominent interests. Lack of bullish news, however, was responsible for an absence of further support and there was a reaction to a lower level. The close, however, was &c above yesterday's final figures. There was no export business at the seaboard and the only business reported was thirty-six loads at Duluth.

ness reported was thirty-ma-luth.

There was a lack of activity in corn lo-reported by the change in prices. There was a lack of activity in corn locally, with practically no change in prices. Receipts were large, but the estimates for tomorrow are smaller. Elevator interests were selling July and September. Oats were firm, with light sales.

Primary wheat receipts were 754,000 bushels and shipments of 244,000 bushels, as against receipts of 556,000 bushels and shipments of 196,000 bushels last year. Corn receipts were 1,124,000 bushels and shipments of 432,000 bushels, as against receipts of 631,000 bushels, as against receipts of 631,000 bushels and shipments of 471,000 bushels and shipments of 471,000 bushels wheat, 523,000 bushels corn, 25,000 bushels wheat, 523,000 bushels corn, 25,000 bushels.

Liverpool closed 4624d lower on wheat and 4624d lower on corn.

Bradstreet's wheat increase was 235,000 bushels; corn increase, 477,000 bushels; cats increase, 222,000 bushels.

Broomhalf estimates importing countries.

oomhalf estimates importing countries require at least 60,000,000 bushels wheat flour from United States next four

months.

Broomhall's weekly crop summary says:
"Russian reports from southwest more favorable. Our agent at Odessa reports good supplies at Interior stations, which high prices will bring forward. Arrivals at ports are very light. French holders from in their views. German complaints damage by frosts and notes big demand, coarse grains. Argentina expects big demand, home consumption of corn, owing to drought."

Minneapolis Omaha Duluth St. Louis	***** 24	97	
Chicago Kansas City	Wheat 16	. Corn. 489 20	Oat

Pentures of the Trading and Closing Prices on Board of Trade. CHICAGO, Feb. 26.—Realizing by small holders caused a weak close today in the local wheat market, the final quotations on the May delivery being down % 9 4c. Corn was off 4c. Oats were 4 4c higher. Provisions were 24c to 25c lower.

Corn was off Mc. Oats were 2 de chigher. Provisions were 2 de to 25c lower.

With the exception of a moderate show of strength about the middle of the day due to covering by shorts, sentiment in the wheat pit was inclined to the bear side. The market opened easier, because the wheat pit was inclined to the bear side. The market opened easier, because of liberal receipts in the northwest and continued favorable weather for the crop movement. At the end of the first hour prices rallied on reports that exporters were buying heavily of American wheat. An excellent demand for cash wheat at all the principal grain centers in this country also strengthened prices for a time. The firmness, however, was soon dispelled by the realizing sales of local longs. The market closed weak. May wheat opened 1/4 c lower at 78 1/4 c, advanced to 78 3/4 1/2 kc and then declined to 77 4/4 c. The final quotations were at 77 4/4 (277 5/4 c. Clearances of wheat and flour were equal to 265.800 bu. Primary receipts were 754,000 bu., against 556,000 bu. for the same day last year. The world's visible supply, as shown by Bradstreet's, increased 300,000 bu. Minneapolis, Duluth and Chicago reported receipts 826 cars, against 501 cars hast week and 536 cars one year ago.

and Chicago reported receipts 326 cars, against 601 cars last week and 535 cars one year ago.

Increased local receipts and lower prices at Liverpool had a weakening effect on the corn market. There was some selling by cash houses against purchases in the country, and pit traders also sold freely. The market railied slightly, in sympathy with the advance in wheat, but again declined on the final break in that grain. The close was easy. May corn opened a shade lower at 47%c, sold between 47%c and 47% 647%c and closed at 47% 6947%c. Local receipts were 488 cars, with one of contract grade.

Oats ruled firm all day. The heavy buying of a prominent buil was largely responsible for the strength of the market, but the small movement and an active demand for cash oats were additional builtah influences. May oats opened %c lower to %c higher at 42%c to 42%c, sold up to 42%c and closed at 42% 642%c. Local receipts were 115 cars.

Provisions were weak on selling by pit traders, who were bearishly inclined because of the liberal receipts of live hogs at western packing centers. At the close May pork was off 25c at \$15.40. Lard was down 2%c at 19.70. Ribs were 7% 69 10c lower at \$9.05.

Estimated receipts for tomorrow: Wheat, 15 cars; corn, 271 cars; oats, 52 cars; hogs, 34,000 head.

The leading futures ranged as follows:

bulk of the hogs soon changed hands at steady prices. The great big bulk of the hogs went at \$6.77\delta 6.80, the same as was the case yesterday. In other words there was no great change in the market today, as compared with yesterday. The quality of the hogs was very good. Representative sales:

trains arrived in very good season in the moining. The result was that the market opened early and the first sales did not show any great change. In fact, sellers in most cases thought they got about steady prices for such stuff as buyers happened to want. There was, however, a weak undertone and it was noticeable that buyers were only picking out here and there such stuff as they wanted and neglecting everything else. The result was that after buyers had secured what they especially needed the market became caster than yesterday. The fact was that the market at this point yesterday was too high, as compared with other market points and there was a feeling on the part of buyers that they paid most too much for their purchases. That fact naturally contributed to the dullness and weakness today.

Shippers should not infer from the above that the market at this point is not in very satisfactory condition, as the contrary is the truth. Prevailing prices at this point have been and still are high as compared with all other selling points. Sales in many cases have been just as high as the same kind of stuff is bringing at Chicago. # U. S. GOVERNMENT REPORTS

CERTIFYING TO THE LOCATION OF THE PROPERTIES, EXTENT OF DEVELOPMENT, AND BULLION TESTS OF GOLD RECOVERED

FROM ANNUAL REPORT OF THE PHILIPPINE COMMISSION 1935, Part 2, Page 302

LATEST EXTRACT FROM PHILLIPPINE COMMISSION, UNITED STATES GOVERNMENT REPORT FOR 1905, " In Masbate, in the Northern part of the Islands, near the town of Aroroy, more or less work has been done upon sixty or more claims, principally of free-milling gold ore in quartz, and upon twenty or more placer claims on the Lanan and Guinabatan rivers. Manganese iron ores of high grade have also been found here, but little attention has been given them up to the present time. Upon claims of The Eastern Mining Company, Mr. A. Heise has just erected a five stamp mill, purchased from the Union Iron Works. San Francisco, to handle the free-milling ores, and as a result of successive trials aggregating eleven and one-half days, during which an estimated supply of one hundred tons were crushed, fine bullion to the value of \$954.67 was obtained. This would indicate the value of the ore to average a saving of \$9.55 to the ton."

THE PROPERTIES

The properties embrace 16 quartz claims, all demonstrated, perfect title, with U. S. Patents, and 39 river placer claims of 800 acres, averaging 35 cents per yard. Over \$8,000,000 in sight on quartz claims, on which \$100,000 have been spent in development work in the last five years.

## FIVE STAMP MILL ACTUALLY AT WORK

To Test Ore As Developed and Producing Over \$5,000 Per Month

The U. S. Government Laboratory at Manila in Actual Tests of Bullion Recovered From This Mine, Reports as Follows: War Department, Government of the Philippine Islands, Department of the Interior, Bureau of Government Laboratories; PAUL C. FREER, Superintendent of Government Laboratories.

The bullion returns here given are incomplete. PAUL J. FOX, B. Sc., Assayer, U. S. Philippine Service.

This is the yield of 224 tons of ore produced from seven of the most accessible mines, or an average of \$14.40 per The mill recoveries on the above test being only 35 per cent of the actual value of the ores, showing an ore value of \$41.11 per ton. With the installation of a modern milling and cyanide plant the recovery would be 90 per cent, or \$37.00 per ton. While there is sufficient ore in sight to supply a 500 stamp mill, it has been decided to purchase and erect

## A FORTY STAMP MILL AND CYANIDE PLANT

CAPABLE OF HANDLING 300 TONS OF ORE PER DAY The operating expenses with labor in the Phillipines at 35 cents per day, should never exceed \$2.00 per ton, or \$600.00 per day's capacity of 300 tons. At the low recovery of 35 per cent, or \$14.40 per ton, this gives a daily production of \$4,320.00 or a profit of \$3,720.00 daily, or a yearly production (360 days), of \$1,339,200. With the recovery of 90 per cent possible with the new plant, or \$37.00 per ton, this should give a daily profit of over \$10,000.00 or \$3,600,000.00 per year, working full capacity. The cost of this new equipment installed will approximate \$125,000

A sufficient number of shares of treasury stock is offered investors TAT 50 CENTS PER SHARE-PAR VALUE \$1.00 ...

for the sole purpose of purchasing the required plant, ordered from the Union Iron Works at San Francisco, and for its erection. This limited amount of stock, now offered at 50 cents, will begin to pay dividends as soon as the new mill is in operation, or by July, when its intrinsic value as a high grade dividend earner, will place it several hundred per cent above par value of \$1.00.

THE DIRECTORS AND STOCKHOLDERS COMPRISE SOME OF THE MOST PROMINENT MEN IN THE PHILIPPINES, WHOSE NAMES ARE A GUARAN-TEE OF THE STANDING OF THE COMPANY.

G. W. Parsons, Treasurer.

DIRECTORS A. HEISE, President. G. MORGAN, Vice-President and Secretary, (Cashier

International Banking Corporation, Manila.) Among the stockholders of the company are the following residents at Manila: T. M. Devilbiss, Manager Standard Oil Co.

W. H. Taylor, International Banking Corporation, J. H. Gillingham, Hongkong & Shanghai Bank. A. W. Allen, Chief Property Clerk, Insular Department.

G. R. Dieck, City Engineer at Manila.

Engineering Company.

D. R. Williams, Judge of Court of Land Registration. A. S. Crossfield, Judge of Court of First Instance.

S. G. DeSilva, International Bank.

D. R. Blanchard, Assistant Attorney General, of the Philippine Islands

#### MINING ENGINEER AND MANAGER

The mining engineer and manager is A. J. Eveland, M. E., who recently resigned his position of Government Geologist and Assistant Chief of the Philippine Mining Bureau to superintend the operations of the Eastern Mining Company. This acquisition, in addition to the official reports and assays, the standing in Manila of its officers and stockholders, is strong evidence of the value of the properties.

The absence of any large capital in the Philippines, is all that prevents the entire issue of stock being subscribed

on the ground and justifies this choice opportunity being offered in this country.

Full and complete particulars regarding this offering and history of the company and fuller official reports All checks for subscription are to be made payable to the Eastern Mining Company of Manila, Philippine Islands, and remitted to the office of the Company, Suite 514, 49 and 51 Wall Street, New York City, New York.

Our advice to you is, DO NOT LET THIS GOLDEN OPPORTUNITY PASS BY, but ACT AT ONCE, and send us your order without delay. REMEMBER, THIS IS A GOLD MINE-NOT FOR A DAY, BUT FOR ALL TIME. THOU-

SANDS OF TONS OF VALUABLE ORE LIE READY ON THE GROUND WAITING FOR THE MACHINERY. WE HAVE THE GOLD-ALL WE WANT NOW IS THE MACHINERY. THIS IS A SAFE, SURE, SOUND, PROFITABLE INVESTMENT.

Charles A. Bartcher, Western Financial Agent of the company at Omaha, Nebraska, can be communicated with and will cheerfully give all further particulars either by letter or personal interview. Subscriptions will also be received by

CHARLES A. BARTCHER, WESTERN FINANCIAL AGENT, Suite 414 BEE BUILDING, OMAHA, NEB.
