This issue matures this year. On it Seward citizens pay interest to the amount of \$900 a year. From by the citizens. the Northwestern road last year Seward collected \$148.30 in taxes. In other words, the property owners of the city of Seward Seward collected, or will collect, \$315.30 for 1995 taxes, bringing the total railroad contribution to the support of the city up to 463.20, or a trifle over half the sum paid in interest on the bonus given the Elkhorn. David City pays 6 per cent on an issue of \$7,000 in bonds voted to aid the Elkhorn, and collects from the railroads \$293.34 in taxes for 1905, leaving an excess of interest on bonus over taxes collected of \$126.66.

In Butler county for 1906 the Burlington and Union Pacific enjoined the collection of taxes for 1900 amounting to \$16,270. For that year Butler county paid in interest on bonds voted to aid in the construction of railroads \$12,700. Is it not possible that the railroads considered their taxes excessive because they exceeded the interest paid on bonuses by \$3,570?

An issue of \$350,000 bearing 10 per cen was voted in 1875 to aid the Omaha & Southwestern, on which \$268,000 is still owing by the county thirty-two years after issue. This road, in 1904, returned to the State Board of Equalization and Assess ment as part of its property depot ground to the extent of nearly sixty-nine acres in Omaha, and its entire line in Douglas county is set down at 4.86 miles, valued for taxation at \$6,500 per mile, or a total of 231,590. In this less than five miles of track is "distributed" the sixty-nine acres of depot grounds, which would be cheap as \$10,000 an acre, while the taxable valuation of \$31,590 is represented on the other side of the county's ledger by \$268,000 of interest bearing bonds, originally issued at 10

Table One of Much Interest. The tabulation printed in connection with this article should prove of much interes to the members of the legislature and oth ers in connection with the cry the railroads are making of burdensome taxation It shows that the people of Nebraska have been more than liberal in contributing aid to the railroads. They have even been prodigal. All this aid is in addition to the nillions of acres of land granted in the beginning to the companies. It comes with very poor grace from the railroad mag nates at this time to charge the Nebraska people with undertaking to levy unjust and excessive taxes against the companies that have been so generously helped at all times, and that have found the business furnished by Nebraskans so profitable. All that is asked is that they be subjected to just the same conditions in regard to taxes as apply to other citizens of the state.

that gentleman. He and I sustained ciose relations for many years and were jointly interested in many large affairs. All of those transactions, as indeed all transactions in which I have ever engaged, will bear the chosest scrutiny. It was at my instance that Mr. Harriman was made a director of the Illinois Central, and we got along quite well until he became ambitious to make the Illinois Central a part of the Union Pacific system. I did not believe this would be in the interests of the stockholders of the Illinois Central and then and there Mr. Harriman and I parted company. He is quite right in saying that I borrowed funds from the Illinois Central, but he should have added that the lean was made at a time when we were most anxious to put out some of the surplus. That I burned from bank to bank to loan our money, that this particular loan was made on collateral which was unquestionably ample and marketable; that several of the other directors borrowed from the company in the same way and, finally, that Mr. Harriman himself, while a director, had borrowed from the company in
