Steam Tank of Sterilising Apparatus in Operating Room blows Up.

NO ONE IN THE ROOM AT THE TIME

Doctors Had Just Completed Opera tion and They, With Patient and Nurses, Had Just Taken Their Departure.

The explosion of the hot water tank of the sterilizing apparatus did considerable damage yesterday in the operating rooms at the newly opened Jennie Edmundson memorial hospital. Fortunately, however, no one was injured, as the nurses in charge of the operating rooms had left a few minutes before the explosion to go to dinner. The heavy riveted lid of the hot water tank was blown off and upwards, tearing a big hole in the plastering and steel lathing of the ceiling and breaking one of the roof joists, but not damaging the tiled Rev. CROWD AT VIRGINIA TRIAL Defendants in Murder Case Expected to Testify in Their Own

Behalf.

CULPEPPER, Va., Feb. 28.-The expected story of the defense from the lips of the defendants in the trial of James and Philip Strother, charged with the murder of William F. Bywaters, their brother-inlaw, at the Strother home near here last December, was the center of all interest in today's developments in that case. While the testimony of Mrs. William F. Bywaters, the young "bride of an hour," in defense of whose honor the fatal shots were fired

by her two brothers as her husband was

seeking to escape from the house, created

widespread interest, that of the two defendants one of them, James Strother, a member of the West Virginia legislature—was also confidently looked forward to as one of dispatic interest.

The define planned yesterday to bring the two bothers to the witness stand to day as early as possible, and this was the program then Judge Harrison convened this morning's session. The testimony was expected to conform in its important and material features to that already presented to the jury by their two sisters and George

French Strother, the lumberman, who be-fore the tragedy came from his home in Welch, W. Va., to consult with his brothers regarding his sister's conduct and condiion, and was eagerly anticipated in the hope it would throw a clear light on certain pertinent points.

RHEUMATISM

It's quite a job to shake him off. It's. hard to believe that all the pain and trouble he causes comes from such little thing: Just tiny bit of act the blood the neys haven't taken care of But the kidneys aren't to I used to think they were;

Now I know better. with the New York Evening Post. Under stomach giving the kidneys part of its the new management Mr. Garrison became | work and the kidneys can't do it. I found editor in charge of the Nation. This posi- puts the stomach in shape, that's all it does, and yet I have seen thousands of people get rid of rheumatism by taking it; That is why I am positive that rheumatism is caused by stomach trouble. Here is a sample of letters I get every day on

> "For a long time I have been a victim of and my suffering has been too great to describe. For weeks I lay helpless with every joint in my body so tender and sore that I could not bear to move. The slightest touch would cause me the greatest agony, Several doctors treated me but they failed entirely. I tried many remedies but nothing seemed to reach my case, so I continued to lay helpless. My kidneys and stomach were affected also. I could eat but little, digest less, and gradually my strength left. I lost flesh rapidly.

"I began the use of the famous Cooped nedicines of which I heard so much. my surprise and delight I improved fine mediately, and after using several bottles I felt like another person. My strength and appetite returned. The pain and soreness left me and now I feel better than I have for months." Lawrence Tuscany, 1122 Als drich Ave., North, Minneapolis, Minn.
